technologies have to reduce the need for claims disputes and litigation but evidence from several early sources shows they are not universally successful in this. This timely and unique book provides crucial new methods for analyzing construction disputes in this emerging AEC technological landscape. It explains how BIM VDC has significantly altered the production and delivery of construction drawings, quantity surveys and schedules and how these changes might impact construction disputes. The findings and advice in this book are indispensable to any stakeholder in a construction project using BIM. It will help Contractors, Cost Managers, Architects, Building Designers, Quantity Surveyors and Project Managers to navigate and understand their responsibilities and exposure to risk when working with this new technology.

*Construction Law* Julian Bailey, 2016-07-15. Now in its second edition, *Construction Law* is the standard work of reference for busy construction law practitioners and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject and provides a unique and invaluable comparative multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a tour de force and by His Honour Humphrey Lloyd QC as seminal and definitive. This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail in addition to those of England and Australia. Practitioners as well as interested academics and post graduate students will all find this book to be an invaluable guide to the many facets of construction law.
