Sweetness Light:

Boston Playwrights' Theatre at Boston University Presents Boston Theater Marathon of Ten-minute Plays, 2003 **The Works of Jonathan Edwards: Volume II** □ **V Revised** Jonathan Edwards, **Essays of British Essayists**, 1900 **Men, Machines, and Modern Times, 50th Anniversary Edition** Elting E. Morison, 2016-08-26

An engaging look at how we have learned to live with innovation and new technologies through history. People have had trouble adapting to new technology ever since perhaps the inventor of the wheel had to explain that a wheelbarrow could carry more than a person. This little book by a celebrated MIT professor the fiftieth anniversary edition of a classic describes how we learn to live and work with innovation. Elting Morison considers among other things the three stages of users resistance to change: ignoring it, rational rebuttal, and name calling. He recounts the illustrative anecdote of the World War II artillerymen who stood still to hold the horses despite the fact that the guns were now hitched to trucks, reassuring those of us who have trouble with a new interface or a software upgrade that we are not the first to encounter such problems. Morison offers an entertaining series of historical accounts to highlight his major theme: the nature of technological change and society's reaction to that change. He begins with resistance to innovation in the U.S. Navy following an officer's discovery of a more accurate way to fire a gun at sea, continues with thoughts about bureaucracy, paperwork, and card files, touches on rumble seats, the ghost in Hamlet, and computers, tells the strange history of a new model steamship in the 1860s, and describes the development of the Bessemer steel process. Each instance teaches a lesson about the more profound and current problem of how to organize and manage systems of ideas, energies, and machinery so that it will conform to the human dimension.

Culture and Anarchy Matthew Arnold, My foremost design in writing this Preface is to address a word of exhortation to the Society for Promoting Christian Knowledge. In the essay which follows the reader will often find Bishop Wilson quoted. To me and to the members of the Society for Promoting Christian Knowledge his name and writings are still no doubt familiar, but the world is fast going away from old-fashioned people of his sort, and I learnt with consternation lately from a brilliant and distinguished votary of the natural sciences that he had never so much as heard of Bishop Wilson, and that he imagined me to have invented him. At a moment when the Courts of Law have just taken off the embargo from the recreative religion furnished on Sundays by my gifted acquaintance and others, and when St Martin's Hall iv and the Alhambra will soon be beginning again to resound with their pulpit eloquence, it distresses one to think that the new lights should not only have in general a very low opinion of the preachers of the old religion, but that they should have it without knowing the best that these preachers can do. And that they are in this case is owing in part certainly to the negligence of the Christian Knowledge Society. In old times they used to print and spread abroad Bishop Wilson's *Maxims of Piety and Christianity*, the copy of this work which I use is one of their publications bearing their imprint and bound in the well-known brown calf which they made familiar to our childhood, but the date of my copy is 1812. I know of no copy besides, and I believe the work is no longer one of those printed and circulated by

the Society Hence the error flattering I own to me personally yet in itself to be regretted of the distinguished physicist already mentioned *Prose Masterpieces from Modern Essayists* George Haven Putnam,1897 Forms of Empire Nathan K. Hensley,2016-11-08 In *Forms of Empire* Nathan K Hensley shows how the modern state's anguished relationship to violence pushed writers to expand the capacities of literary form The Victorian era is often imagined as an age of equipoise but the period between 1837 and 1901 included more than two hundred separate wars What is the difference though between peace and war *Forms of Empire* unpacks the seeming paradoxes of the Pax Britannica's endless conflict showing that the much vaunted equipoise of the nineteenth century state depended on physical force to guarantee it But the violence hidden in the shadows of all law the violence of sovereign power itself shuddered most visibly into being at the edges of law's reach in the Empire where emergency was the rule and death perversely routinized This book follows some of the nineteenth century's most astute literary thinkers George Eliot Charles Dickens Wilkie Collins A C Swinburne H Rider Haggard and Robert Louis Stevenson among them as they wrestled with the sometimes sickening interplay between order and force and generated new formal techniques to account for fact that an Empire built on freedom had death coiled at its very heart In contrast to the progressive idealism we have inherited from the Victorians the writers at the core of *Forms of Empire* moved beyond embarrassment and denial in the face of modernity's uncanny relation to killing Instead they sought effects free indirect discourse lyric tension and the idea of literary character itself that might render thinkable the conceptual vertiges of liberal violence In the process they touched up to the dark core of our post Victorian modernity Drawing on archival work literary analyses and a theoretical framework that troubles the distinction between historicist and formalist approaches *Forms of Empire* links the Victorian period to the present and articulates a forceful vision of why literary thinking matters now The Dissenters Michael R. Watts,2015-03-19 This third and final volume of Michael Watts's study of dissent examines the turbulent times of Victorian Nonconformity a period of faith and of doubt Watts assesses the impacts of the major Dissenting preachers and provides insights into the various movements such as romanticism and the higher often German biblical criticism He shows that the preaching of hell and eternal damnation was more effective in recruiting to the chapels than the gentler interpretations A major feature of the volume is a thorough analysis of surviving records of attendance at Nonconformist services He provides fascinating accounts of Spurgeon and the other key figures of Nonconformity including of the Salvation Army Dr Watts also provides a fresh discussion of the contribution which Nonconformity made to the politics of mid to late Victorian Britain He examines such issues of reform as Forster's Education Act of 1871 temperance and Balfour's Education Act of 1902 and considers Nonconformist interventions in such controversies as the Bulgarian Agitation Home Rule for Ireland the Armenian massacres of the mid 1890s and the Boer War The volume concludes with the Liberal landslide in the 1906 general election which saw probably more Nonconformists elected than any time since the era of Oliver Cromwell **The Spirit of the Age** Gertrude Himmelfarb,2007-01-01 Selected

and annotated by Gertrude Himmelfarb a distinguished historian of Victorian thought the writings in this volume address a wide range of subjects including religion politics history science art socialism and feminism by eminent figures of the Victorian era

[The Silent and Soft Communion](#) Sue Lane McCulley, Dorothy Zayatz Baker, 2005 Conversion narratives were one of the earliest forms of public expression for American women writers sanctioned and indeed welcomed for their personal first hand testimonies about seasons of religious grace Two eighteenth century women Sarah Pierpont Edwards and Sarah Prince Gill wrote conversion narratives of remarkable craft and insight These pieces collected for the first time in [The Silent and Soft Communion](#) represent two generations of Calvinist evangelism addressing the social implications of spiritual regeneration and presenting full fascinating accounts of Calvinist religious life Sarah Pierpont Edwards is best known as the wife of Jonathan Edwards one of the most renowned theologians in eighteenth century New England Asked by her husband to draw up an exact statement of her rebirth in Christ she complied creating in 1742 a work that was of considerable interest to both her husband s constituency and now to modern scholars A rich and revealing document her narrative expresses her immense joy in the presence of God and the intimacy of her relationship with God Both a private and public statement her testimony is remarkable for its position on the social imperative of spiritual regeneration and speaks to the social and political issues facing her Northampton community The companion conversion narrative by Sarah Prince Gill never before published offers the perspective of the next generation of Calvinist women whose religious orientation was inflected by Enlightenment values Gill an educated Bostonian and close

friend of the Edwards family documents in her 1742 narrative the dramatic story of her struggle for spiritual enlightenment A private document Gill s journal offers a striking contrast to Edwards s more public writings Featuring scholarly annotations and an extensive introductory essay The Silent and Soft Communion is an invaluable historical and theological resource

Illustrated* William James, 2021-06-14 William James was a philosopher who spoke out against the arrogant attitude of scientists who viewed religion as a biased relic of the past. His writings frequently examined the relationship between science and religion. He also tried to defend society from the inhumane tendencies of science. His arguments against the cult of science and technicism were quite effective and led to the new philosophical pragmatism movement. Many consider *The Varieties of Religious Experience* as one of the seminal works in establishing a psychology of religion.
