Meadows, 2013-10-23 Jazz Research and Pedagogy is the third edition of an annotated bibliography to books recordings videos and websites in the field of jazz Since the publication of the 2nd edition in 1995 the quantity and quality of books on jazz research performance and teaching materials have increased Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date several books on research performance and teaching materials were omitted In addition given the proliferation of new books in all jazz areas since 1995 the need for a new comprehensive and annotated reference book on jazz is apparent Multiply indexed this book will serve as an excellent tool for librarians researchers and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade Experiencing Big Band Jazz Jeff Sultanof, 2017-11-08 The era of popular music from about 1917 onward saw an explosion of creative songwriting that converged with a new sound from reed brass and rhythm instruments Jazz was born and the musical sophistication that accompanied this original sound set the stage for the prominence of arrangers whose role in big band orchestrations became as important as jazz musicians and composers themselves The Big Band evolved as a unique phenomenon in American music history With both studio and live vintage recordings readily available an investigation of how to listen and experience Big Band music is overdue In *Experiencing Big Band Jazz A Listener's Companion* composer arranger music historian and music editor Jeff Sultanof takes a fresh look at Big Band music examining why the Big Band era started when it did how pop music changed to meet the needs of Big Bands and the reverse the role played by well known band leaders and the bands they led the jazz soloists who became legendary and the stories of several ensembles previously unexamined Lists of must hear recordings and videos drawn from studio as well as live sources are also included to make the book an invaluable resource for music lovers of every age **200 of the Best Songs from Jazz of the '50s** Rob DuBoff, 1997 **The Trumpet Kings** Scott Yanow, 2001-08 This collection of 500 profiles covers legends plus lesser known but also noteworthy trumpeters from all jazz eras Overall contributions to the world of jazz are described plus stories of colleagues individual career details and recommended recordings Photos *Fats Waller On The Air* Stephen Taylor, 2006-03-20 A documentation of radio and television appearances by the jazz pianist and entertainer Thomas Fats Waller from his first broadcast in 1923 at age 19 until his final airing shortly before his premature death in 1943 This book also includes a comprehensive discography and photos **200 of the Best Songs from Ragtime & Early Jazz** Rob DuBoff, 1997 *Jazz Journal International*, 2007 **Before Elvis** Larry Birnbaum, 2013 An essential work for rock fans and scholars Before Elvis The Prehistory of Rock n Roll surveys the origins of rock n roll from the minstrel era to the emergence of Bill Haley and Elvis Presley Unlike other histories of rock Before Elvis offers a far broader and deeper analysis of the

influences on rock music Dispelling common misconceptions it examines rock s origins in hokum songs and big band boogies as well as Delta blues detailing the embrace by white artists of African American styles long before rock n roll appeared This unique study ranges far and wide highlighting not only the contributions of obscure but key precursors like Hardrock Gunter and Sam Theard but also the influence of celebrity performers like Gene Autry and Ella Fitzgerald Too often rock historians treat the genesis of rock n roll as a bolt from the blue an overnight revolution provoked by the bland pop music that immediately preceded it and created through the white appropriation of music till then played only by and for black audiences In Before Elvis Birnbaum daringly argues a more complicated history of rock s evolution from a heady mix of ragtime boogie woogie swing country music mainstream pop and rhythm and blues a melange that influenced one another along the way from the absorption of blues and boogies into jazz and pop to the integration of country and Caribbean music into rhythm and blues Written in an easy style Before Elvis presents a bold argument about rock s origins and required reading for fans and scholars of rock n roll history
