Pash, 2012-11-11 Largely overshadowed by World War II's greatest generation and the more vocal veterans of the Vietnam era Korean War veterans remain relatively invisible in the narratives of both war and its aftermath Yet just as the beaches of Normandy and the jungles of Vietnam worked profound changes on conflict participants the Korean Peninsula chipped away at the beliefs physical and mental well being and fortitude of Americans completing wartime tours of duty there Upon returning home Korean War veterans struggled with home front attitudes toward the war faced employment and family dilemmas and wrestled with readjustment Not unlike other wars Korea proved a formative and defining influence on the men and women stationed in theater on their loved ones and in some measure on American culture In the Shadow of the Greatest Generation not only gives voice to those Americans who served in the forgotten war but chronicles the larger personal and collective consequences of waging war the American way **Report of Educational Testing Service, Princeton University, on Educational Assistance Programs for Veterans** Educational Testing Service, 1973 **Final Report on Educational Assistance to Veterans** Educational Testing Service, 1973 *Across the Aisle* G. Government's Greatest Achievements

Paul C. Light, 2010-12-01 In an era of promises to create smaller more limited government Americans often forget that the federal government has amassed an extraordinary record of successes over the past half century Despite seemingly insurmountable odds it helped rebuild Europe after World War II conquered polio and other life threatening diseases faced down communism attacked racial discrimination reduced poverty among the elderly and put men on the moon In *Government's Greatest Achievements* Paul C Light explores the federal government's most successful accomplishments over the previous five decades and anticipates the most significant challenges of the next half century While some successes have come through major legislation such as the 1965 Medicare Act or large scale efforts like the Apollo space program most have been achieved through collections of smaller often unheralded statutes Drawing on survey responses from 230 historians and 220 political scientists at colleges and universities nationwide Light ranks and summarizes the fifty greatest government achievements from 1944 to 1999 The achievements were ranked based on difficulty importance and degree of success Through a series of twenty vignettes he paints a vivid picture of the most intense government efforts to improve the quality of life both at home and abroad from enhancing health care and workplace safety to expanding home ownership to improving education to protecting endangered species to strengthening the national defense The book also examines how Americans perceive government's greatest achievements and reveals what they consider to be its most significant failures America is now calling on the government to resolve another complex difficult problem the defeat of terrorism Light concludes by discussing this enormous task as well as government's other greatest priorities for the next fifty years *Vietnam Era Veterans' Readjustment Assistance Act of 1974* United States. Education and Gender Equality Julia

Wrigley, 2003-12-16 First Published in 1992 This book grew out of a special issue of the journal *Sociology of Education* There is no simple relation between education and gender equality As with social class relations schools both reinforce subordination and create new possibilities for liberation and these contradictions occur at every level and in every aspect of education Schools are sites of pervasive gender socialization but they offer girls a chance to use their brains and develop their skills To explore education and gender is to examine the bridge between the public world of occupations and the private world of families Schools link the families from which young children come and the sex and race segregated occupational worlds to which they are sent Because schools link public and private worlds help to form consciousness and structure inequalities there are many ways to look at gender and education In this book the chapters break into four major topic areas The first section analyzes gender and education from a comparative and historical perspective the second section on Diversity Social Control and Resistance in Classrooms third section on Gender and Knowledge and the final section on families and school *Separate Tuition Payments for Vietnam Era Veterans* United States.
