The Making of Identities in Athenian Oratory Jakub Filonik, Brenda Griffith-Williams, Janek Kucharski, 2019-11-27 Focusing on extant speeches from the Athenian Assembly law and Council in the fifth fourth centuries BCE these essays explore how speakers constructed or deconstructed identities for themselves and their opponents as part of a rhetorical strategy designed to persuade or manipulate the audience According to the needs of the occasion speakers could identify the Athenian people either as a unified demos or as a collection of sub groups and they could exploit either differences or similarities between Athenians and other Greeks and between Greeks and barbarians Names and naming strategies were an essential tool in the de construction of individuals identities while the Athenians civic identity could be constructed in terms of honour s ethnicity socio economic status or religion Within the forensic setting the physical location and procedural conventions of an Athenian trial could shape the identities of its participants in a unique if transient way The Making of Identities in Athenian Oratory is an insightful look at this understudied aspect of Athenian oratory and will be of interest to anyone working on the speeches themselves identity in ancient Greece or ancient oratory and rhetoric more broadly

Ancient Athenian Maritime Courts Edward Cohen, 2015-03-08 Athenian power and prosperity in the fourth century B C was based largely on commerce The complex litigation arising from commercial activities was heard in special maritime courts dikai emporikai the subject of this monograph Using both ancient and secondary sources Edward E Cohen has pieced together the evolution of these courts and

has explored their procedure and jurisdiction He successfully treats the much discussed problem of why they were termed monthly and makes it clear that supranationality was a feature of all Hellenic maritime law He shows conclusively that their jurisdiction was limited *ratione rerum* not *ratione personarum* because a legally defined commercial class did not exist in Athens at this time Classicists and lawyers alike will find this a fascinating study It not only contributes to our understanding of the Athens of Plato Aristotle and Demosthenes but also points out that certain principles of Athenian maritime law are still imbedded in the modern international law of maritime commerce Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
