Ted Hughes in Context Terry Gifford, 2018-06-21 Ted Hughes wrote in a wide range of modes which were informed by an even wider range of contexts to which his lifetime's reading interests and experience gave him access. In addition, Hughes made important contributions to education, literary history, emergent environmentalism and debates about life writing. *Ted Hughes in Context* brings together thirty-four contributors who inform new readings of the works and conceptualize Hughes's work within long-standing critical traditions while acknowledging a new awareness of his future importance. Encyclopedia of American Poetry: The Twentieth Century Eric L. Haralson, 2014-01-21 The *Encyclopedia of American Poetry: The Twentieth Century* contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics, schools or periods of American verse in the century. Entries fall into three main categories: poet entries which provide biographical and cultural contexts for the author's career; entries on individual works which offer closer explication of the most resonant poems in the 20th-century canon; and topical entries which offer analyses of a given period of literary production, school, thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States.

American Poets and Poetry Jeffrey Gray, Mary McAleer Balkun, James McCorkle, 2015-03-10 The ethnically diverse scope, broad chronological coverage and mix of biographical, critical, historical, political and cultural entries make this the most useful and exciting poetry reference of its kind for students today. American poetry springs up out of all walks of life; its poems are maternal as well as paternal, stuff'd with the stuff that is coarse and stuff'd with the stuff that is fine. As Walt Whitman wrote, adding, "Of every hue and caste am I of every rank and religion." Written for high school and undergraduate students, this two-volume encyclopedia covers U.S. poetry from the Colonial era to the present, offering full treatments of hundreds of key poets of the American canon. What sets this reference apart is that it also discusses events, movements, schools and poetic approaches, placing poets in their social, historical, political, cultural and critical contexts and showing how their works mirror the eras in which they were written. Readers will learn about surrealism, ekphrastic poetry, pastoral elegy, the Black Mountain poets and language poetry. There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry. Particular attention is paid to women poets and poets from various ethnic groups. Poets such as Amiri Baraka, Nathaniel

Mackey Natasha Trethewey and Tracy Smith are featured The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant garde and experimental movements and provides sidebars that illuminate key points
