keeping you from being rich In most cases it is simply a lack of belief SUZE ORMAN *The Courage to Be Rich* Are you latte ing away your financial future DAVID BACH *Smart Women Finish Rich* I know you re capable of picking winning stocks and holding on to them JIM CRAMER *Mad Money* They re common refrains among personal finance gurus There s just one problem those and many simi lar statements are false For the past few decades Americans have spent billions of dollars on personal finance products As salaries have stagnated and companies have cut back on benefits we ve taken matters into our own hands embracing the can do attitude that if we re smart enough we can overcome even daunting financial obstacles But that s not true In this meticulously reported and shocking book journalist and former financial columnist Helaine Olen goes behind the curtain of the personal finance industry to expose the myths contradictions and outright lies it has perpetuated She shows how an industry that started as a response to the Great Depression morphed into a behemoth that thrives by selling us products and services that offer little if any help Olen calls out some of the biggest names in the business revealing how even the most respected gurus have engaged in dubious even deceitful prac tices from accepting payments from banks and corporations in exchange for promoting certain prod ucts to blaming the victims of economic catastrophe for their own financial misfortune Pound Foolish also disproves many myths about spending and saving including Small pleasures can bankrupt you Gurus popular ized the idea that cutting out lattes and other small expenditures could make us millionaires But reduc ing our caffeine consumption will not offset our biggest expenses housing education health care and retirement Disciplined investing will make you rich Gurus also love to show how steady investing can turn modest savings into a huge nest egg at retirement But these calculations assume a healthy market and a lifetime without any setbacks two conditions that have no connection to the real world Women need extra help managing money Product pushers often target women whose alleged financial ignorance supposedly leaves them especially at risk In reality women and men are both terrible at han dling finances Financial literacy classes will prevent future eco nomic crises Experts like to claim mandatory sessions on personal finance in school will cure many of our money ills Not only is there little evidence this is true the entire movement is largely funded and promoted by the financial services sector Weaving together original reporting interviews with experts and studies from disciplines ranging from behavioral economics to retirement planning Pound Foolish is a compassionate and compelling book that will change the way we think and talk about our money *She Said What?* Maria Braden, 2021-11-21

No longer relegated to reporting on society happenings or household hints women columnists have over the past twenty years surged across the boundary separating the women s or lifestyle sections and into the formerly male bastions of the editorial financial medical and op ed pages Where men previously controlled the nation s new organizations were the chief opinion givers and defined what is newsworthy many women newspaper columnists are now nationally syndicated and tackle the same subjects as their male counterparts bringing with them distinctive styles and viewpoints Through these frank and lively interviews Maria Braden explores the lives and work of columnists Erma Bombeck Jane Brody Mona Charen Merlene

Davis Georgie Anne Geyer Dorothy Gilliam Ellen Goodman Molly Ivins Mary McGrory Judith Miss Manners Martin Joyce Maynard Anna Quindlen and Jane Bryant Quinn Pofiles describe how these writers got started where they get the nerve to tell the world what they think how they generate ideas for columns and what it s like to create under the pressure of deadlines Representative columns illustrate their distinctive voices and an introductory essay provides a historical overview of women in journalism including pioneering women columnists Fanny Fern Dorothy Thompson and Sylvia Porter Braden finds that today s women columnists frequently raise issues or use examples unique to their gender Because they are likely to have a direct personal connection to current social issues such as abortion child care or sexual harassment they are able to provide fresh perspectives on these provocative topics In doing so they are helping to define what is worthy of attention in the 90s and to shape public response A unique addition to the literature on women in journalism this book will interest general readers as well as students of journalism literature American studies and women s studies Aspiring writers will find here role models and practical guidance
