Earth's Wild Music Kathleen Dean Moore, 2022-02-22 At once joyous and somber this thoughtful gathering of new and selected essays spans Kathleen Dean Moore's distinguished career as a tireless advocate for environmental activism in the face of climate change In this meditation on the music of the natural world Moore celebrates the call of loons howl of wolves bellow of whales laughter of children and shriek of frogs even as she warns of the threats against them Each group of essays moves as Moore herself has been moved from celebration to lamentation to bewilderment and finally to the determination to act in defense of wild songs and the creatures who sing them Music is the shivering urgency and exuberance of life ongoing In a time of terrible silencing Moore asks who will forgive us if we do not save nature's songs **Michaela: The Power of Culture** Katharine Birbalsingh, 2020-04-17 Michaela Community School in Brent London is one of the most talked about schools in the UK In this follow up to the best selling book *Battle Hymn Of The Tiger Teachers* their teachers further explain how their relentlessly high expectations are helping young people to get great results and be successful Since opening in 2014 Michaela Community School has blazed a trail and defied many of the received notions about what works best in schools In Michaela The Battle For Western Education staff explore some of the things they have learned since the publication of the original book and further develop the ideology that lies beyond the headlines and social media arguments Chapters include Don't be squeamish about scripture why we teach religion at Michaela Relationships National Citizenship and Identity Teaching National History Digital Detox Authority Original Sin Telling kids the truth teaching personal responsibility Assessment at Michaela Loving the difficult kids The baby in the progressive bath water The culture of feedback at Michaela Why is teaching gratitude important Parenting the Michaela way **Five-Star Classical Duets** Dennis Alexander, 2005-05-03 Students will have fun exploring classical operatic orchestral and piano music through these duets Arrangements of works by Bach Mozart Beethoven Verdi Liszt and more are included Both primo and secondo feature the melody and are equally difficult Reading is facilitated by both parts being on the grand staff *TIME The Power of Joy* TIME Magazine, 2020 [Encyclopedia of the Romantic Era, 1760-1850](#) Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism **Breaking Time's Arrow** Matthew McDonald, 2014-06-16 A critical look at the work of and philosophical influences upon the American Modernist composer Charles Ives 1874 1954 moved traditional compositional practice in new directions by incorporating modern and innovative techniques with nostalgic borrowings of 19th century American popular music and Protestant hymns Matthew McDonald argues that the influence of

Emerson and Thoreau on Ives's compositional style freed the composer from ordinary ideas of time and chronology allowing him to recuperate the past as he reached for the musical unknown McDonald links this concept of the multi temporal in Ives's works to Transcendentalist understandings of eternity His approach to Ives opens new avenues for inquiry into the composer's eclectic and complex style A trenchant and intellectually expansive reading of Ives's relationship to time by connecting several compositions and indeed the composer's larger conceptualization of the past present and future to the Emersonian concept of the everlasting Now This book is a wonderfully written important contribution to scholarship on the music of Charles Ives Gayle Sherwood Magee author of *Charles Ives Reconsidered* McDonald investigates both the temporal and spatial effects of multidirectional motion as well as its ramifications for understanding some of the larger philosophical issues that are raised in Ives's music Music Letters May 2015 McDonald brings together analytic and personal factors to sharpen the image of the composer in convincing ways This book deserves a close reading The bibliography provides a select list of scores and recordings as well as articles books catalogues and unpublished commentaries This book is recommended for college and university libraries and for readers with a music theory background Music Reference Services Quarterly
