Symbolist Theater:

Russian Symbolist Theater Michael Green, 2013-05-28 Although by writers better known for their verse and narrative prose the plays of the Symbolists were not intended like the dramatic poems of the Romantics for the study rather than the stage. Instead they are highly theatrical creations in a new style that demanded a new style of production. Meyerhold played a decisive role in the new Symbolist theatre and it was his production of Blok's *The Puppet Show* in Komissarzhevskaya's Theatre that launched the new direction in Russian drama. Among the works collected here are the plays *The Puppet Show* and *The Rose and the Cross* Blok, *The Triumph of Death* Sologub, *The Comedy of Alexis* and *The Venetian Madcaps* Kuzmin, *Thamyris* Kitharodos Annensky and *The Tragedy of Judas* Remizov and essays by Briusov, Blok, Ivanov, Bely, Sologub and Andreyev. Rounding out this essential anthology are Michael Green's general introduction as well as insightful prefaces for each writer placing the plays and essays into their cultural and historical contexts. Symbolist Theater Frantisek Deak, 1993 Frantisek Deak's *Symbolist Theater* is a welcome and fundamental contribution to the re-evaluation of European avant-garde theatre. Deak's analysis of symbolist theatre rebuts earlier approaches which concluded as Haskell Block did in the 1969 *Reader's Encyclopedia of World Drama* that attempts to stage symbolist plays were doomed to failure because of an inherent opposition between symbolist premises and the demands of sustained theatrical elaboration. These earlier critiques analyzed symbolist theatre from the viewpoint of literary criticism but Deak's book employs different methods by taking as a premise that theater exists in performance. *Symbolist Theater* leans conceptually on Czech structuralists and Russian formalists as it makes theater criticism based on the reconstruction of the semantic gesture of the production criticism which takes the text into consideration as one aspect of the structure. ¹⁰ and sees the symbolist theatre project as an effort to re-define the signifying process in general. ¹³² Despite its title however *Symbolist Theater* is not an analysis of the whole symbolist theatre movement but instead a focus on French symbolist theatre alone. Literature of European Languages Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today
