*Symbols and Legends in Western Art* Eunice S. Whittlesey, 1972

**Greek Myth and Western Art** Karl Kilinski, 2013

This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present. Tracing the emergence, survival, and transformation of key mythological figures and motifs from ancient Greece through the modern era, it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed.

*The Golden Wand of Medicine* Walter J. Friedlander, 1992-04-20. The Caduceus, two entwined snakes set upon a rod, was the ancient symbol of Hermes, the Greek god of merchants. Today it is a common and popular symbol of the medical and allied professions. This book traces the use of the caduceus symbol and answers the question of how it came to be the symbol of medicine. The work begins with a discussion of the symbol's origin as the magic wand of Hermes Mercury, the Greco-Roman messenger of the gods, and the later identification of Hermes with the Egyptian god Thoth, whose characteristics included wisdom and eloquence. In the 16th and 17th centuries, Friedlander says, the caduceus was associated with wise and eloquent individuals, including some physicians. However, in the early 19th century, it was adopted by a medical publisher as a sign, not that he published medical books but that he was a commercial deliverer of information. Friedlander goes on to indicate that in 1902 the sign was adopted by the U.S. Army as the insignia of its Medical Department. The sign became widely recognized after the exposure it had during World War I. It became frequently used and, once popular, bred popularity. This book will be of interest to those in medical fields, medical historians, and those interested in symbology and iconology.

**A Guide to Christian Art** Diane Apostolos-Cappadona, 2020-05-14. A one-volume introduction to and overview of Christian art from its earliest history to the present day. Diane Apostolos-Cappadona begins by examining how art and Christianity have intersected throughout history and charts this tumultuous relationship that has yielded some of the greatest outpourings of human creativity. To introduce readers to the way a painting can be read, Apostolos-Cappadona begins with an analysis of a painting of the Adoration of the Magi, helping readers to see how they can interpret for themselves the signs, symbols, and figures that the book covers. In the more than 1000 entries that follow, Apostolos-Cappadona gives readers an expert overview of all the frequently used symbols and motifs in Christian art, as well as the various saints, historical figures, religious events, and biblical scenes most frequently depicted. Readers are introduced to the ways in which religious paintings are often coded, such as what a lily means in a picture of Mary, how a goldfinch can be Christological, or how the presence of an eagle means it is likely to be a picture of St. John. The entries are organized by topic so that students and beginners can easily find their way to discussion of the themes and motifs they see before them when looking at a painting.

**A Gift of Angels** Bernard L. Fontana, 2010-09-20. It rises suddenly out of the Sonoran Desert landscape, towering over the tallest tree or cactus, a commanding building with a sensuous dome, elliptical vaults, and sturdy bell towers. There is nothing else like it around, nor does it seem there should be. This incongruity of setting is what strikes first-time visitors to Mission

San Xavier del Bac This great church is of another place and another time while its beauty is universal and timeless Mission San Xavier del Bac is a two century old Spanish church in southern Arizona located just a few miles from downtown Tucson a metropolis of more than half a million people in the American Southwest A National Historic Landmark since 1963 the mission s graceful baroque art and architecture have drawn visitors from all over the world Now Bernard Fontana the leading expert on San Xavier and award winning photographer Edward McCain team up to bring us a comprehensive view of the mission as we ve never seen it before With 200 stunning full color photographs and incisive text illuminating the religious historical and motivational context of these images A Gift of Angels is a must have for tourists scholars and other visitors to San Xavier From its glorious architecture all the way down to the finest details of its art Mission San Xavier del Bac is indeed a gift of angels

**Reimaging the Magdalene** Siobhán Jolley, 2025-03-20 This book offers a new intersectional feminist approach to utilising and interpreting the visual reception of Mary Magdalene Through employment of Liberative Reception Criticism which develops traditional reception theory in line with liberative hermeneutics via the insights of intersectionality as critical theory Siobhán Jolley provides a novel means of analysing how women and particularly the Magdalene are imaged in Christian tradition Knowledge of both the biblical figure of Mary Magdalene and her cultural reception continue to be dominated by long discredited ideas about her life and sexuality which bear the hallmarks of their development under patriarchy Through close study of relevant biblical texts and extracanonical accounts and a comprehensive survey of the Magdalene s presentation in the Italian art of the Counter Reformation Jolley demonstrates that the patriarchal portrayal of the Magdalene as a sexualised penitent and mournful witness to the resurrection is sustained by its mythic attachment to biblical text Rather than adopting the same tropes uncritically we are invited to look again at artworks and related texts in order to explore what happens when the influence of patriarchy is actively and intersectionally resisted Ultimately the Magdalene is transformed from a reductive and patriarchally mythologised figure to a multidimensional character who is relatable and liberative as an exemplar

**Pixels & Paintings** David G. Stork, 2023-11-15 PIXELS PAINTINGS The discussion is firmly grounded in established art historical practices such as close visual analysis and an understanding of artists working methods and real world examples demonstrate how computer assisted techniques can complement traditional approaches Dr Emilie Gordenker Director of the Van Gogh Museum The pioneering presentation of computer based image analysis of fine art forging a dialog between art scholars and the computer vision community In recent years sophisticated computer vision graphics and artificial intelligence algorithms have proven to be increasingly powerful tools in the study of fine art These methods some adapted from forensic digital photography and others developed specifically for art empower a growing number of computer savvy art scholars conservators and historians to answer longstanding questions as well as provide new approaches to the interpretation of art Pixels Paintings provides the first and authoritative overview of the broad range of these methods which extend from image processing of palette marks brush strokes and shapes up through analysis

of objects poses style composition to the computation of simple interpretations of artworks This book stresses that computer methods for art analysis must always incorporate the cultural contexts appropriate to the art studies at hand a blend of humanistic and scientific expertise Describes powerful computer image analysis methods and their application to problems in the history and interpretation of fine art Discusses some of the art historical lessons and revelations provided by the use of these methods Clarifies the assumptions and applicability of methods and the role of cultural contexts in their use Shows how computation can be used to analyze tens of thousands of artworks to reveal trends and anomalies that could not be found by traditional non computer methods Pixels Paintings is essential reading for computer image analysts and graphics specialists conservators historians students psychologists and the general public interested in the study and appreciation of art
