**The Serpent Symbol in Tradition** Charles Dailey, 2022-01-24 Serpent and dragon symbolism is ubiquitous in the art and mythology of premodern cultures around the world Over the centuries conflicting hypotheses have been proposed to interpret this symbolism which while illuminating have proved insufficient to the task of revealing a singular meaning for the vast majority of examples In *The Serpent Symbol in Tradition* Dr Dailey argues that in what the symbolist Rene Guenon and the historian of religions Mircea Eliade have called traditional or archaic societies the serpent dragon transculturally symbolizes matter a state of being that is constituted by the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey s investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Gu non s interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of the terminology of the Hindu Doctrines 2 Eliade s interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon *The Serpent Symbol in Tradition* strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter

Geophilosophy of the Mediterranean Caterina Resta, 2024-05-01 The essays collected here outline a geophilosophy of the Mediterranean a sea of great importance in the history of Europe and the wider West Conceived from a geophilosophical perspective the Mediterranean is a sea surrounded by lands that is a pluriverse of different cultures and religions which have often become entangled in conflicts Nevertheless they have also demonstrated a remarkable capacity for coexistence as exemplified by multilingual multiethnic and multireligious Sicily during the reign of Roger II of Hauteville Throughout its millennia long history the Mediterranean has consistently displayed a profoundly unified configuration despite its inherent diversity Its distinctive blend of singularity and plurality can serve as a paradigm for rethinking new forms of social and political coexistence not only for Europe which draws its origin from this sea but also for a new global order *Hagitude* Sharon Blackie, 2022-10-11 RADICALLY REIMAGINE THE SECOND HALF OF LIFE There can be a certain perverse pleasure as well as a sense of rightness and beauty in insisting on flowering just when the world expects you to become quiet and diminish from the book For any woman over fifty who has ever asked What now Who do I want to be comes a life changing book showing how your next phase of life may be your most dynamic yet As mythologist and psychologist Sharon Blackie describes it midlife is the threshold to decades of opportunity and profound transformation a time to learn flourish and claim the desires and identities that are often limited during earlier life stages This is a time for gaining new perspectives challenging and evolving belief systems exploring callings uncovering meaning and ultimately finding healing for accumulated wounds Western folklore and mythology are rife with brilliantly creative fulfilled feisty and furious role models for aging women despite our culture s focus on youthfulness Blackie explores these archetypes in Hagitude presenting them in a way sure to appeal to contemporary women Drawing inspiration from these examples as well as modern mentors you can reclaim midlife as a liberating alchemical moment rich with possibility and your elder years as a path to feminine power

### **The Metaphysical Principles of the Infinitesimal Calculus**

René Guénon, 2003 Guénon's early and abiding interest in mathematics like that of Plato, Pascal, Leibniz and many other metaphysicians of note runs like a scarlet thread throughout his doctrinal studies. In this late text published just five years before his death, Guénon devotes an entire volume to questions regarding the nature of limits and the infinite with respect to the calculus both as a mathematical discipline and as symbolism for the initiatic path. This book therefore extends and complements the geometrical symbolism he employs in other works, especially *The Symbolism of the Cross*, *The Multiple States of the Being* and *Symbols of Sacred Science*. According to Guénon, the concept of infinite number is a contradiction in terms. Infinity is a metaphysical concept at a higher level of reality than that of quantity, where all that can be expressed is the indefinite, not the infinite. But although quantity is the only level recognized by modern science, the numbers that express it also possess qualities, their quantitative aspect being merely their outer husk. Our reliance today on a mathematics of approximation and probability only further conceals the qualitative mathematics of the ancient world, which comes to us most directly through the Pythagorean-Platonic tradition.

### **Nadim Samman**

Nadim Samman, 2023-05-31. Proprietary algorithms, secret data troves, and inscrutable systems rule the day. How is this registered in art? In *Poetics of Encryption*, Nadim Samman explores works that highlight the hidden dimensions of our technological landscape. Running counter to erroneous claims regarding a new culture of transparency and openness, such artworks address black sites, black boxes, and black holes, all the while toggling between enlightened concern and occult dreaming. NADIM SAMMAN is Curator for the Digital Sphere at KW Institute for Contemporary Art, Berlin. He read Philosophy at University College London before receiving his PhD from the Courtauld Institute of Art. Widely published in 2019, he was First Prize recipient of the International Award for Art Criticism (IAAC). Major curatorial projects included the 4th Marrakech Biennale 2012, the 5th Moscow Biennale for Young Art 2015, and the 1st Antarctic Biennale 2017.

### **Inner Christianity**

Richard Smoley, 2002-10-08. An eye-opening introduction to the complex world of esoteric Christianity, perfect for the general reader. This guide to mystical and esoteric Christianity speaks from a nonsectarian point of view, unearthing insights from the whole of the Christian tradition, orthodox and heretical, famous and obscure. The esoteric tradition has traditionally searched for meanings that would yield a deeper inner knowledge of the divine. While traditional Christianity draws a timeline from Adam's Fall to the Day of Judgment, the esoteric often sees time as folding in on itself, bringing every point to the here and now. While the Church fought bitterly over dogma, the esoteric borrowed freely from other traditions: Kabbalah, astrology, and alchemy, in their search for metaphors of inner truth. Rather than basing his book around exponents of esoteric doctrine, scholar Richard Smoley concentrates on the questions that are of interest to every searching Christian: How can one attain direct spiritual experience? What does the Fall really tell us about coming to terms with the world we live in? Can we find salvation in everyday life? How can we ascend spiritually through the various levels of existence? What was Christ's true message to humankind? From the Gospel of Thomas to *A Course in Miracles*.

from the Jesus Prayer to alchemy and Tarot from Origen to Dante to Jung Richard Smoley sheds the light of an alternative Christianity on these issues and more Eco-Imagination towards a Sustainable Future Detlev Quintern, Daniela Verducci, 2024-12-02 The Volume brings together scholars from Azerbaijan Egypt Germany India Iran Iraq Italy the Netherlands and Turkey to approach the new field of Eco Imagination from various philosophical and disciplinary backgrounds Sufism and its Micro Macro philosophy in Ikhwan al Safa Ibn Arabi Suhrawardy Nishabouri and Mulla Sadra are in dialogue with the Logos of Life Philosophy founded by Anna Teresa Tymieniecka 1923 2014 This book provides a multi perspective insight into the understanding of Life in Islamic Philosophies Philosophers mystics and poets from a variety of Islamic countries schools and worldviews are introduced and debated Sustainable futures evolved in harmony with everything there is alive Anna Teresa Tymieniecka are currently more threatened than ever Wars ecological destructivity the climate crisis and not least the crisis of the Human Being call urgently for a cross religious cultural and generational understanding Lively debates in Islam taking place on philosophical problems for hundreds of years often based on the same roots as in Occidental Phenomenology e g Plato Aristotle and Plotinus are still too little known in the Occident West The prolific and poetic arguments introduced for the first time in an eco imaginative horizon do not belong to the past This volume invites students and researchers to uncover Islamic Philosophies potentialities for a shared sustainable future

**The King of the World** René Guénon, 2001 This remarkable book grew out of a conference headed by Ren Gu non the sinologist Ren Grousset and the neo Thomist Jacques Maritain on questions raised by Ferdinand Ossendowski s thrilling account in his Men Beast and Gods of an escape through Central Asia during which he foils enemies and encounters shamans and Mongolian lamas whose marvels he describes The book caused a great sensation especially the closing chapters where Ossendowski recounts legends allegedly entrusted to him concerning the King of the World and his subterranean kingdom Agarttha The present book one of Gu non s most controversial was written in response to this conference and develops the theme of the King of the World from the point of view of traditional metaphysics Chapters include Western Ideas about Agarttha Shekinah and Metatron The Three Supreme Functions Symbolism of the Grail Melki Tsedeq Luz Abode of Immortality The Supreme Center concealed during the Kali Yuga and The Omphalos and Sacred Stones **Studies in Freemasonry and the Compagnonnage** René Guénon, 2004 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies

in Freemasonry and the Compagnonnage is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century It must also be classed along with Symbols of Sacred Science Spiritual Authority and Temporal Power Traditional Forms and Cosmic Cycles The Esoterism of Dante Insights into Christian Esoterism and Insights into Islamic Esoterism and Taoism not to mention related sections in many of his other books as one of Ren Gu non s masterful excursions into esoteric myth symbolism and secret history Freemasonry may indeed be as Gu non ultimately concluded a largely degenerated and thus no longer strictly operative offshoot of a true initiatory lineage yet its symbolism like that of the original Rosicrucians remains profound traditional and therefore ultimately legitimate And given that the Spirit bloweth where it listeth it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way which can be of inestimable of value in the path to the Path the quest for a living initiatory spirituality
