Ancient Celtic Symbols and Their Meanings D. Brewer,2021-10-30 Celtic symbols were created by the Celts a race of tribes who lived in settlements across Europe from Ireland to Turkey notably during the Iron Age Evidence of their culture reaches back further than 1200 BC These people were thought to have a common language and shared systems of belief despite living far and wide and they are believed to have been both traders and warriors While they did not initially have a written language they did create metal and stone work with patterns that are recognisable today as Celtic symbols These shapes and patterns have been influenced by different religions beliefs and cultures ever since such as Druids and Christians As a result when we look at the symbols there are often more than one variation of the same symbol and similarly often more than one meaning attached to it This book is perfect for people new to the subject of Celtic symbology with illustrations relevant meanings and descriptions of the many myths and legends attached to them

India (Bharat) the Cradle of Aryans, Sanskrit, Vedas, & Swastika Jagat K. Motwani Ph.D,2011-01-20 The divide between the North Indians and the South Indian Dravidians was created by the two British initiated theories of the Aryan invasion of India AII and the Indo European family of languages IE Both the theories AII and IE were mischievously engineered by the British with their colonial and missionary agenda guided by their world known notorious policy Divide and Rule According to the AII Aryans invaded India in about 1500 B C and got settled in North and forcibly pushed dark skinned Dravidians to South Aryans brought Sanskrit and composed the Vedas The Dravidian Tamil Telugu Kannada and Malayalam are the native languages of India not Sanskrit With abundant historical irrefutable evidence it has been established that the alleged invading Aryans were originally from Aryavarta India who had gone overseas earlier than 1800 B C for trade and had established their Vedic kingdoms in several countries Even Greece was colonized by the Indo Aryans When in trouble in about 1500 BC some of them attempted to return to India the land of their ancestors The rest were culturally absorbed The returning Aryans were mistaken as invaders because they were traveling in armored horsed driven chariots It was their return to not invasion of India Because of long cohabitation between Sanskrit speaking Aryans and Europeans as the result of Indian colonization Sanskrit influenced several European languages particularly Greek and Latin Resulting philological resemblances prompted Sir William Jones to theorize the IE that Sanskrit and European languages have a common origin It has been proved that Sanskrit and European languages do not have a common origin and that there is significant resemblance between Sanskrit and the Dravidian languages much more than between Sanskrit and European languages
