Peter Brown,2024-03-29 Central to the repertoire of Western art music since the 18th century the symphony has come to be regarded as one of the ultimate compositional challenges Surprisingly heretofore there has been no truly extensive broad based treatment of the genre and the best of the existing studies are now several decades old In this five volume series A Peter Brown explores the symphony from its 18th century beginnings to the end of the 20th century Synthesizing the enormous scholarly literature Brown presents up to date overviews of the status of research discusses any important former or remaining problems of attribution illuminates the style of specific works and their contexts and samples early writings on their reception The Symphonic Repertoire provides an unmatched compendium of knowledge for the student teacher performer and sophisticated amateur The series is being launched with two volumes on the Viennese symphony Volume IV The Second Golden Age of the Viennese Symphony Brahms Bruckner Dvor k Mahler and Selected Contemporaries Although during the mid 19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig during the last third of the century it returned to the old Austrian lands with the works of Brahms Bruckner Dvor k and Mahler After nearly a half century in hibernation the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms s Symphony No 1 which was premiered at Vienna in December 1876 Even though Bruckner had composed some gigantic symphonies prior to Brahms s first contribution their full impact was not felt until the composer s complete texts became available after World War II Although Dvor k was often viewed as a nationalist composer in his symphonic writing his primary influences were Beethoven Schubert and Brahms For both Bruckner and Mahler the symphony constituted the heart of their output for Brahms and Dvor k it occupied a less central place Yet for all of them the key figure of the past remained Beethoven The symphonies of these four composers together with the works of Goldmark Zemlinsky Schoenberg Berg Smetana Fibich Jan cek and others are treated in Volume IV The Second Golden Age of the Viennese Symphony covering the period from roughly 1860 to 1930 **Bibliographic Guide to Music** New York Public Library. Peter Brown,2024-03-29 Central to the repertoire of Western art music since the 18th century the symphony has come to be regarded as one of the ultimate compositional challenges Surprisingly heretofore there has been no truly extensive broad based treatment of the genre and the best of the existing studies are now several decades old In this five volume series A Peter Brown explores the symphony from its 18th century beginnings to the end of the 20th century Synthesizing the enormous scholarly literature Brown

presents up to date overviews of the status of research discusses any important former or remaining problems of attribution illuminates the style of specific works and their contexts and samples early writings on their reception The Symphonic Repertoire provides an unmatched compendium of knowledge for the student teacher performer and sophisticated amateur The series is being launched with two volumes on the Viennese symphony Volume I The First Golden Age of the Viennese Symphony Haydn Mozart Beethoven and Schubert Volume II considers some of the best known and most universally admired symphonies by Haydn Mozart Beethoven and Schubert who created what A Peter Brown designates as the first golden age of the Viennese symphony during the late 18th and first three decades of the 19th century The last two dozen symphonies by Haydn half dozen by Mozart and three by Schubert together with Beethoven's nine symphonies became established in the repertoire and provided a standard against which every other symphony would be measured Most significantly they imparted a prestige to the genre that was only occasionally rivaled by other cyclic compositions More than 170 symphonies from this repertoire are described and analyzed in The First Golden Age of the Viennese Symphony the first volume of the series to appear

The Symphonic Repertoire, Volume IV A. Peter Brown, 2003-08-07 This volume contains the symphonies of Brahms Bruckner Dvorak and Mahler covering the period from roughly 1860 to 1930 Other contemporaries are discussed including Goldmark Zemlinsky and Berg
