The Symphony remained a major orchestral form in Australia between 1960 and 2020 with a body of diverse and interesting symphonies produced during the 1960s and 1970s that defied the widespread modernist trends of serialism electronic music and indeterminism that seemed harbingers of the symphony's demise. From the late 1970s onwards many Australian composers chose to work in styles that admitted modal and tonal melodic and harmonic elements with regular pulse. Major cycles of symphonies by Carl Vine, Brenton Broadstock and Ross Edwards began to appear in the late 1980s. Other prolific symphonists like Paul Paviour (10 symphonies), David Morgan (15 symphonies), Philip Bracanin (11), Peter Tahourdin (5), John Polglase (5) and many others demonstrated a revived interest in the form. This trend continued into the first two decades of the present century with symphonies by Matthew Hindson, Katy Abbott, Stuart Greenbaum, Andrew Schultz, Mark Isaacs and Gordon Kerry. This renewed interest in the symphony reflects similar trends in Britain and the United States. Rhoderick McNeill provides a comprehensive introduction to this large body of music with the aim of making the music and its composers known to concertgoers, music educators and students, conductors and music entrepreneurs.

**Film Music: A History** James Wierzbicki, 2009-01-21. Film Music: A History explains the development of film music by considering large scale aesthetic trends and structural developments alongside socioeconomic, technological, cultural and philosophical circumstances. The book's four large parts are given over to Music and the Silent Film (1894-1927), Music and the Early Sound Film (1895-1933), Music in the Classical Style (Hollywood Film 1933-1960) and Film Music in the Post-Classical Period (1958-2008). Whereas most treatments of the subject are simply chronicles of great film scores and their composers, this book offers a genuine history of film music in terms of societal changes and technological and economic developments within the film industry. Instead of celebrating film music masterpieces, it deals logically and thoroughly with the complex machine whose smooth running allowed those occasional masterpieces to happen and whose periodic adjustments prompted the large scale twists and turns in film music's path.
