Geoffrey Block, J. Peter Burkholder, 1996-01-01 Although Charles Ives has long been viewed as the quintessential American composer he placed himself in the European classical tradition drew on it heavily for his aesthetic philosophy and musical techniques and extended it to create something new This book illuminates Ives's music by comparing it with that of other composers in Europe and the United States Edited by two highly regarded Ives scholars the book begins with essays that examine the influences on Ives of his musical predecessors and concludes with essays that find extensive parallels between Ives and such European contemporaries as Mahler Schoenberg Berg and Stravinsky whose music he knew little or not at all but with whom he shared influences and concerns Taken together these chapters demonstrate that even apparently strange or distinctively American aspects of Ives's music from his penchant for quotation to his juxtaposition of disparate styles have strong precedents and parallels among European composers Ives emerges as a composer at home in the classical tradition engaged in exploring the same issues that confronted composers of his generation on both sides of the Atlantic

Symphonies, Piano, Four-hands Ludwig van Beethoven, 1894 **The Classical Music Experience** Julius H. Jacobson, 2003 Profiles forty two of the world's most celebrated composers from five hundred years of musical history discussing how their different styles influenced the music world includes two CDs with selections from each composer
