Synchrofile Amazing Personal Encounters With Synchronicity And Other Strange Phenomena:

Synchrofile Raymond E. Fowler, 2004-05-26 The author is no stranger to tackling mysteries He is internationally known as a highly competent investigator of the paranormal and a trustworthy chronicler of such in ten books The New York Times exclaimed that his best selling book The Andreasson Affair if true must rank with the great classics of scientific revelation Air Force chief UFO scientific consultant Dr J Allen Hynek wrote that his UFO investigations are meticulous and far exceed that of the government Dr Kenneth Ring father of Near Death Experience NDE research wrote that Fowler s researched book on Near Death and UFO experiences may well have deciphered the ultimate nature and meaning of these baffling phenomena In SynchroFile Fowler applies the same kind of meticulous research into the supernatural like synchronistic experiences that permeate his life This book compiles the results of his research into Jungian psychology the New Physics and his study of a ten year diary of personal and family experiences of amazing coincidences and paranormal experiences His research leads to the incredulous conclusion that time is an illusion and that reports of synchronicity ghosts out of the body experiences near death experiences UFOs precognition telepathy and other extrasensory experiences are all individual expressions of one intelligent like meta phenomenon [Access](#) ,2004 **The Synchronicity Highway** Trish MacGregor, Rob

MacGregor, 2013-11 Synchronicity or meaningful coincidence is the most conscious aspect of the underlying web of reality that connects everyone and everything As humanity s consciousness expands and new paradigms and worldviews are born synchronicity is more evident in mass events like 9 11 the shootings at Sandy Hook and Aurora the explosions at the Boston Marathon in extreme weather phenomena It occurs in alien encounters often is intertwined with paranormal experiences and may act as an interface between life and death It happens frequently when our lives are in transition Once you re aware that coincidences are meaningful you re on the synchronicity highway traveling through a kind of quantum weirdness that features astounding odds tricksters messengers from the unknown the unseen the seemingly miraculous When you re on the synchronicity highway you re exactly where you should be **Supernatural Synchronicity** Sarah Chumacero, Ashley Knibb, Knibb Chumacero, 2019-11-16 UK Blogger and the Society of Psychical Research s Event Reporter Ashley Knibb teams up with Australian Blogger of Living Life In Full Spectrum and Author of Stuff Paranormal Normal Investigators Need To Know Sarah Chumacero to bring you Supernatural Synchronicity As writers with the same passion for the paranormal late night conversations soon inspired them to put pen to paper The series was first released as a small collection on articles which has now evolved much further into an interesting philosophical discussion chapter by chapter Using a collaborative approach Ashley and Sarah connect philosophy psychology physiology and even psychics to paranormal research to ask the hard questions like What is the source of psychical phenomena Can we simplify the unknown and Is Time the Key To name just a few Offering an alternative perspective to paranormal research has Ashley and Sarah reviewing and responding to each other s claims and research showing how important peer review and collaboration within the paranormal field is no

matter where in the world you find yourself With the foreword written by Brian J Cano Haunted Collector from the USA this unique journey comes full circle in what is almost an act of synchronicity Supernatural Synchronicity will challenge the reader to think about paranormal phenomena from different perspectives and spark discussions Most importantly it will pose questions and encourage the reader to ask their own questions After all the most important part of what we do is questioning the unknown but equally questioning what we think we know

The Road to Strange Michael Brein, 2025-07-07 It is the next book in The Road to Strange series It collects synchronicity experiences among the nearly 2 000 interviews that Michael has conducted at home and during his travels over the last four decades Although the typical stories collected in The Road to Strange book series typically include spooky accounts of space and time interactions most of these things are not likely to happen to you But you never know In this book you ll read plenty of examples of odd space time coincidences that may conceivably pop up in your life at some time Instead of dealing with all sorts of true life travel accounts in my True Travel Tales series this book now pauses all that to explore the spooky world of coincidental space and time and many of the no doubt related variations in between Instead of reading about the variety of dangers and mishaps of others and safety and security in travel which are part and parcel of my True Travel Tales book series wherein we focus on and gain a healthier respect for the actual dangers and risks of travel and adventure the point of The Road to Strange book series is to explore a virtually little known aspect of reality namely meaningful coincidences the extremely odd synchronicities that seem to defy the laws of chance Indeed synchronicity i e apparently meaningful coincidences that seem impossible do abound And whereas some of these stories are potentially a little spooky in that they seem to be so unlikely or well nigh impossible to occur and what s more even hint at some sort of meaningful or purposeful efforts on the behalf of some kind of potentially universal consciousness to be recognized acknowledged and even remembered Some of the accounts featured in this book are tales from times long gone Many synchronicities seem purposeful in making people aware of and remembering them Other meaningful coincidence experiences seem to be endless repeating cycles that are like replays even including in some cases apparent potentially discarnate energies that seemingly try over and over to resolve conflicts and possibly be heard again from times long past Yes we are often the objects of or targets of synchronicity whether in our travels or on our own home turf It therefore behooves us to think of this book as not only a compendium of space time variants that we may experience in life but perhaps we ought to consider synchronicity and its variants as alternate space time realities which conjoin or overlap with our own in a shared universe of sorts Or maybe even a so called Contiguous Universe no less In this compendium of synchronicity tales we broaden our view of not only what we think of as the typical meaningful coincidence kind of experiences but also to incorporate other variants of reality as well In The Road to Strange Synchronicity be prepared to explore the many stories of impossibly seeming space time variations of the human experience and much more Such synchronicities and their related variants may never happen expressly to you Still assuredly something strange of a space

time manifestation will invariably happen to a friend a neighbor or perhaps even a relative If but one of these tales of someone s strange space time variant of ultra meaningful seemingly impossible coincidental events is true what then One must conclude that so many other reports of similar space time encounters may likewise undoubtedly be true **A Story Book of Synchronicity** June Li,2018-06-05 Synchronicity or a causal meaningful coincidence is not a rare startling event occurring by chance but pervasive in everyday lives happening to anybody anywhere at any time This psychic phenomenon is highly subjective with deep personal meaning which can only be understood and appreciated with direct experiences In this book I explain Jung s definition of synchronicity and tell stories of meaningful coincidences I have collected in recent years some are my personal experiences and some are told by other people To assist easy reading these stories are grouped in five themes Synchronicity as mirror as guidance as answer as destiny as unity Following the story telling I discuss synchronicity and law of attraction and explore how to detect and decode synchronicity in daily life living in the flow of synchronicity

Synchronicity as Mystical Experience Frank Joseph,2018-01-28 Synchronicity As Mystical Experience follows Carl Jung s lead in recognizing meaningful coincidence as a kind of modern day enlightenment or emotional therapy everyone not only sufferers from chronic neuroses may use to connect with the spiritual basis of being This fresh view of the subject defines the phenomenon in abundant anecdotal material such as related accounts of the Titanic disaster which attracted a constellation of synchronicity never described so thoroughly before and informs readers how they may interpret the often puzzling elements in meaningful coincidence These details include the significance of recurring numbers and personal discovery of our parallel lives There are several recent titles dealing with Synchronicity and all of them contribute valuably to the subject For all their excellence they neither address the daily application of the phenomenon nor its intimate relationship with the human chakras These are energy centers rising from the base of the spine to the top of our heads and comprise fundamental aspects of human psychology or if you will the soul Their surprising relationship with meaningful coincidence indicates that each one of us is connected to the organizational scheme of all creation This important revelation is brought to light through Synchronicity any apparent coincidence that inspires a sense of wonder and personal meaning or particular significance in the observer It is a perceived connection between two or more objects events or persons without any recognizable cause It is

conditioned by situations in which apparently unrelated events converge to form a shared experience regarded as momentous by the person or persons experiencing it An example of synchronicity is when for no apparent reason you suddenly remember a friend you have not thought of or heard from in years and just then the telephone rings and the voice on the other end belongs to the recollected person Events such as these are typical instances of synchronicity or meaningful coincidence events like these happen to millions of people every day They are common enough and most people who experience them after initial feelings of strangeness forget about them or dismiss them as inevitable but trifling quirks of life classified under luck good or bad A closer examination of such phenomena suggests there is much more to them While individual instances of synchronicity may seem trivial they assume startling magnitudes of influence when seen in the bigger picture of their role in our lives as explained in Synchronicity As Mystical Experience
