Synergistic Management Creating The Climate For Superior Performance:

Synergistic Management Michael Doctoroff, 1977 The Practice of Management, 1980 Evolution of Dynamical Structures in Complex Systems Rudolf Friedrich, Arne Wunderlin, 2012-12-06 Evolution of Dynamical Structures in Complex Systems is dedicated to the founder of synergetics Hermann Haken on the occasion of his 65th birthday This volume is an attempt to gather together and review the new results and developments achieved by researchers from various fields during the last few years The contents bear witness to the great success in the development of general approaches to synergetic systems as well as remarkable progress in the more traditional fields of synergetics such as lasers and nonlinear optics hydrodynamics condensed matter physics biology and sociology Since their inception the concepts of synergetics and rigorous mathematical theories have been extended to other scientific disciplines such as medicine artificial intelligence and synergetic computers and psychology Here too these ideas have yielded new insights raised unexpected questions and produced innovations in both theoretical and experimental projects The conception of self organization the central theme of Hermann Haken's scientific work has stimulated epistemological studies that draw relations between synergetics and the German romantic Naturphilosophie It is fascinating to observe how these intuitive notions of self organization etc have now evolved into a precise and holistic scientific comprehension of synergetic systems We express our deep gratitude to Dr Angela Lahee from Springer Verlag for her valuable help during the preparation of this book Stuttgart R Friedrich March 1992 4 Wunderlin Contents Part I General Approaches On the Principles of Synergetics By A Wunderlin 3 Elements of a Synergetics of Evolutionary Processes By W Ebeling 42 Effective Supervision Seminar, 1983 *Practical Management Skills for Engineers and Scientists* William C.
