

A schematic diagram of a chemical process flow, likely for a refinery or chemical plant. The diagram features several interconnected vessels and units. At the top left, a vertical vessel is connected to a horizontal line that leads to a large rectangular vessel. To the right of this vessel is a circular unit with a diagonal line through it. Further right, a horizontal line connects to another large rectangular vessel. Below this, a vertical line leads to a smaller rectangular vessel. On the far right, a large vertical vessel is connected to a horizontal line that leads to a smaller rectangular vessel. The entire diagram is rendered in a simple, schematic style with black lines on a white background.
