A Synoptic History of Classical Rhetoric James Jerome Murphy, 1972

A Synoptic History of Classical Rhetoric James Jerome Murphy, Richard A. Katula, Donovan J. Ochs, Forbes I. Hill, Prentice A. Mendor, 1995 The purpose of history is to help people understand the present by providing a sense of continuity to their lives The history of western civilization begins in Ancient Greece So much of what we observe around us art architecture poetry drama and political systems is derived from the Greeks Even religious beliefs and beliefs about the solar system emanate from the writings of Greek and Roman philosophers Writing itself is a phenomenon of Greek civilization Students seeking to understand the social impact of technologies such as writing print and television must begin their study with figures such as Socrates who was one of the first to be concerned with the changes in social interaction and consciousness wrought by the emergence of writing on portable material For students of language an awareness of the classical world is particularly important The study of human discourse is an entirely western phenomenon As far as one can judge from surviving evidence the Greeks were the only people of the ancient world who endeavored to analyze the ways in which human beings communicate with each other Greece is therefore the birthplace of the art of discourse which includes not only rhetoric but also logic and grammar Although many other ancient civilizations produced literature only the Greeks produced analytic expository treatises that attempted to discover the actual bases of human communication Written treatises and school systems which allowed rhetorical discoveries to be transmitted to others enabled the Greeks and later the Romans to amass a considerable body of precepts to guide speakers and writers This body of precepts forms the basis for the study of rhetoric the art of human discourse This book provides a clear understanding of the classical roots of rhetoric While no single volume can account for every idea developed by the ancients on the art of rhetoric this book seeks to present the concepts that will most effectively provide today's student with a basis for understanding human communication The text contains essays about the period original treatises by ancient writers with modern analyses that elaborate on their rhetorical precepts and representative speeches given by celebrated orators of the ancient world In addition a bibliography of readings is presented for those who want to study this period more deeply

A Synoptic History of Classical Rhetoric Richard C. Blakeman, 1977

Classical Rhetoric in English, 1650-1800 Tania Sona

Smith,2020-11-04 Classical Rhetoric in English 1650 1800 features English translations of the era s most cherished Greek and Roman orators rhetorical philosophers and rhetorical critics The publication history reveals how a distinctive British canon emerged from selected works by Plato Isocrates Demosthenes Aristotle Theophrastus Cicero Seneca Quintilian Tacitus and Longinus Works by these ten authors especially Cicero and Longinus were widely disseminated becoming key texts in the formation of British rhetorical culture At the core of the volume annotated selections offer the twenty first century reader a sampling of these classical rhetorical works in translation The glossary of rhetorical criticism elucidates the now archaic meanings of words that enabled citizens to communicate their moral and rhetorical taste *Jesus, Rhetoric and Law*

Henderson,2021-09-06 This study locates pre gospel orality and gospel literacy within Greco Roman rhetorical norms for education and performance Heavy use of a few basic rhetorical conventions marks the gospel tradition as a marginal yet rhetorically competent attempt to create a Christian public The book identifies gnomic sayings as the thickest available sample of gospel rhetorics an alternative to samples based on chreia and parable Gnome use is central throughout ancient rhetorical theory and practice Gnome is therefore an especially good focus for comparative study particularly of characterisation and legal topicality This work establishes a credible model of interaction among the speech habits of Jesus those of early Christian oral tradition and the innovative rhetorics of gospel and epistolary texts The plurality of rhetorical criticisms current in New Testament studies is also addressed **The Contemporary Reception of Classical Rhetoric**

Kathleen E. Welch,2013-11-05 Responding to the reassertion of orality in the twentieth century in the form of electronic media such as the telegraph film video computers and television this unique volume traces the roots of classical rhetoric in the modern world Welch begins by changing the current view of classical rhetoric by reinterpreting the existing texts into fluid language contexts a change that requires relinquishing the formulaic tradition acquiring an awareness of translation issues and constructing a classical rhetoric beginning with the Fifth Century B C She continues with a discussion of the adaptability of this material to new language situations including political cultural and linguistic change providing it with much of its power as well as its longevity The book concludes that classical rhetoric can readily address any situation since it focuses not only on critical stances toward discourse that already exists but also presents elaborate theories for the production of new discourse Rhetoric in the Middle Ages James Jerome Murphy,1981-01-01 Follows the threads of

ancient rhetorical theory into the Middle Ages and examines the distinctly Medieval rhetorical genres of perceptive grammar letter writing and preaching These various forms are compared with one another and placed in the context of Medieval society Covering the period 426 A D to 14 **The SAGE Handbook of Rhetorical Studies** Andrea A. Lunsford,Kirt H.

Wilson,Rosa A. Eberly,2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce

a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field Key Features Brings together scholars from across the disciplines of Speech Communication English and Writing Studies While rhetoric is by definition interdisciplinary self identified scholars in the field are most often institutionally separated from one another This Handbook bridges this divide by providing a refreshing range of transdisciplinary views on the nature status definition and scope of rhetoric today Offers a thorough going overview of rhetorical studies today Organized in four sections Historical Studies in Rhetoric Rhetoric Across the Disciplines Rhetoric and Pedagogy and Rhetoric and Public Discourse the volume provides a single resource for engaging rhetorical studies Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric's long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them Provides one of the first introductions to rhetorical studies across cultures and to the related debates concerning comparative and contrastive rhetorics

Arguments in Rhetoric Against Quintilian Peter Ramus, 2010-08-27 First published in 1986 this book offers the Latin text and English translation of a pivotal work by one of the most influential and controversial writers of early modern times Pierre de la Ram e better known as Peter Ramus was a college instructor in Paris who published a number of books attacking and attempting to refute foundational texts in philosophy and rhetoric He began in the early 1540s with books on Aristotle which were later banned and burned and Cicero and later in 1549 he published *Rhetoricae Distinctiones in Quintilianum* The purpose of Ramus's book is announced in the opening paragraph of its dedication to Charles of Lorraine I have a single argument a single subject matter that the arts of dialectic and rhetoric have been confused by Aristotle Cicero and Quintilian I have previously argued against Aristotle and Cicero What objection then is there against calling Quintilian to the same account Carole Newlands's excellent translation the first in modern English remains the standard English version This volume also provides the original Latin text for comparative purposes In addition James J Murphy's insightful introduction places the text in historical perspective by discussing Ramus's life and

career the development of his ideas and the milieu in which his writings were produced This edition includes an updated bibliography of works concerning Ramus rhetoric and related topics The Rhetoric of Jesus in the Gospel of Mark Michael Strickland, David M. Young, 2017-11-15 Young and Strickland analyze the four largest discourses of Jesus in Mark in the context of Greco Roman rhetoric in an attempt to hear them as a first century audience would have heard them The authors demonstrate that contrary to what some historical critics have suggested first century audiences of Mark would have found the discourses of Jesus unified well integrated and persuasive They also show how these speeches of the Markan Jesus contribute to Mark's overall narrative accomplishments *Speaking to Good Effect* Douglas Gordon Lawrie, 2006-01-01 *Speaking to Good Effect* introduces students to the ancient and ubiquitous art of rhetoric Whenever we try to achieve something with words as our tools we become rhetoricians Whenever we respond positively or negatively to someone else's words we become rhetorical critics It is therefore not surprising that the art of rhetoric has been studied and taught for more than twenty four centuries Landmark Essays on Rhetoric and Literature Craig Kallendorf, 2017-10-03 The studies of rhetoric and literature have been closely connected on the theoretical level ever since antiquity and many great works of literature were written by men and women who were well versed in rhetoric It is therefore well worth investigating exactly what these writers knew about rhetoric and how the practice of literary criticism has been enriched through rhetorical knowledge The essays reprinted here have been arranged chronologically with two essays selected for each of six major periods Antiquity the Middle Ages the Renaissance including Shakespeare the 17th century the 18th century and the 19th and 20th centuries Some are more theoretically oriented whereas others become exercises in practical criticism Some cover well trod ground whereas others turn to parts of the rhetorical tradition that are often overlooked Scholars in the field should benefit from having this material collected together and reprinted in one volume but the essays included here will also be useful to graduate students and advanced undergraduates for course work and general reading Students of rhetoric seeking to understand how the principles of their field extend into other forms of communication will find this volume of interest as will students of literature seeking to refine their understanding of the various modes of literary criticism **Strategic Maneuvering in Argumentative Discourse** Frans H. van Eemeren, Frans Hendrik Eemeren, 2010 In *Strategic Maneuvering in Argumentative Discourse* Frans H van Eemeren brings together the dialectical and the rhetorical dimensions of argumentation by introducing the concept of strategic maneuvering Strategic maneuvering refers to the arguer's continual efforts to reconcile aiming for effectiveness with being reasonable It takes place in all stages of argumentative discourse and manifests itself simultaneously in the choices that are made from the topical potential available at a particular stage in adaptation to audience demand and in the use of specific presentational devices Strategic maneuvering derails when in the specific context in which the discourse takes place a rule for critical discussion has been violated so that a fallacy has been committed Van Eemeren makes clear that extending the pragma dialectical approach to argumentation by taking account of

strategic maneuvering leads to a richer and more precise method for analyzing and evaluating argumentative discourse

Ethics and Professional Persuasion Ralph D. Barney, 2003-07-30 Examining the applied media ethics question of professional persuasion this special double issue resulted from a colloquium and conference on allowable ethical limits of deception in professional persuasion Participants were invited to reason their way toward a threshold that would define acceptable deception for a professional persuader in pursuit of favorable market and public opinion conditions for a client As a whole this issue covers a broad range of views and expressions of opinion that often come close to defining the threshold between morally acceptable and morally outrageous persuasion Paul and the Rhetoric of Resurrection Timothy J.

Christian, 2022-12-12 Have you ever wondered why Paul leaves the resurrection discussion in 1 Corinthians 15 for the end of the letter Have you pondered how 1 Corinthians 15 functions as the climax to 1 Corinthians This book answers those questions by exploring insinuatio the Greco Roman rhetorical convention used to address prejudiced or controversial topics like resurrection at the end of a discourse This is the most thorough treatment of insinuatio in Biblical and Classical studies to date It examines the Greco Roman rhetorical handbooks and speeches on insinuatio compares them to what Paul does in 1 Corinthians 15 and finds that this was precisely Paul's rhetorical strategy in 1 Corinthians *Contemporary Perspectives on Rhetoric* Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory I A Richards Ernesto Grassi Cha m Perelman and Lucie Olbrechts Tyteca Stephen Toulmin Richard Weaver Kenneth Burke Jürgen Habermas bell hooks Jean Baudrillard and Michel Foucault The brief biographical sketches locate the theorists in time and place showing how life experiences influenced perspectives on rhetorical thought The concise explanations of complex concepts are clear engaging insightful and highly accessible serving as an excellent primer for reading the major works of these scholars The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists
