Magic Lands John M. Findlay, 1993-09-22 The American West conjures up images of pastoral tranquility and wide open spaces but by 1970 the Far West was the most urbanized section of the country Exploring four intriguing cityscapes Disneyland Stanford Industrial Park Sun City and the 1962 Seattle World's Fair John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment This first book length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts In 1954 Walt Disney began building the world's first theme park using Hollywood's movie making techniques The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment but by the mid 1960s the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley In 1960 on the outskirts of Phoenix Del E Webb built Sun City the largest most influential retirement community in the United States Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic somewhat fanciful vision of modern life These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus Exemplars of a new lifestyle they are landmarks on the changing cultural landscape of postwar America

The End of the Age Steven A. Smith, 2025-09-24 The End of the Age follows Beau Talbot a high rise engineer and project manager his architect Jenny their coworkers and families through the biblical Rapture and Tribulation that follows As the world turns into chaos they are confronted with the reality that Christ has come for his followers They must grapple with how to respond and survive in a world that is now being controlled by the Antichrist build a safe place to broadcast the Gospel from and redefine their relationships with one another under the threat of death

Becoming Big League Bill (William) Mullins, 2013-06-18 Becoming Big League is the story of Seattle's relationship with major league baseball from the 1962 World's Fair to the completion of the Kingdome in 1976 and beyond Bill Mullins focuses on the acquisition and loss after only one year of the Seattle Pilots and documents their on the field exploits in lively play by play sections The Pilots underfunded ownership led by Seattle's Dewey and Max Soriano and William Daley of Cleveland struggled to make the team a success They were savvy baseball men but they made mistakes and wrangled with the city By the end of the first season the team was in bankruptcy The Pilots were sold to a contingent from Milwaukee led by Bud Selig who moved the franchise to Wisconsin and rechristened the team the Brewers Becoming Big League describes the character of Seattle in the 1960s and 1970s explains how the operation of a major league baseball franchise fits into the life of a city charts Seattle's long history of fraught stadium politics and examines the business of baseball Watch the trailer <http://www.youtube.com/watch?v=7hwhl5sLoQs> list http://www.youtube.com/watch?v=Uge4MONgLfncQ1w1C_BnHcw index 1 feature plcp

Emerald City Matthew W. Klinge, 2008-10-01 At the foot of the snow capped Cascade Mountains on the forested shores of Puget Sound Seattle is set in a location of spectacular natural beauty Boosters of the city have long capitalized on this splendor recently likening it to the fairytale

capital of L Frank Baum's The Wizard of Oz the Emerald City But just as Dorothy Toto and their traveling companions discover a darker reality upon entering the green gates of the imaginary Emerald City those who look more closely at Seattle's landscape will find that it reveals a history marked by environmental degradation and urban inequality This book explores the role of nature in the development of the city of Seattle from the earliest days of its settlement to the present Combining environmental history urban history and human geography Matthew Klinge shows how attempts to reshape nature in and around Seattle have often ended not only in ecological disaster but also in social inequality The price of Seattle's centuries of growth and progress has been high Its wildlife especially the famous Pacific salmon and its poorest residents have paid the highest price Klinge proposes a bold new way of understanding the interdependence between nature and culture and he argues for what he calls an ethic of place Using Seattle as a compelling case study he offers important insights for every city seeking to live in harmony with its natural landscape Provided by publisher [Native Seattle](#) Coll Thrush,2017-03-01 This updated edition of Native Seattle brings the indigenous story to the present day and puts the movement of recognizing Seattle's Native past into a broader context Native Seattle focuses on the experiences of local indigenous communities on whose land Seattle grew accounts of Native migrants to the city and the development of a multi tribal urban community as well as the role Native Americans have played in the narrative of Seattle **Seattle** Nard Jones,1972 **Adult Catalog:** **Subjects** Los Angeles County Public Library,1970 [Climate Change and the Future of Seattle](#) Yonn Dierwechter,2021-03-25 Seattle is one of the most politically progressive and economically dynamic cities in the contemporary United States This book explores Seattle's current climate policy agenda and future climate challenges within the context of its historical bio regional and metropolitan settings While practitioners and academics have lauded Seattle's urban sustainability and climate action efforts for many years the analysis here focuses especially on mounting political concerns with social equity income polarization and racial justice in a high tech city region already experiencing the deleterious effects of global climate change Drawing on a framework first suggested by the Urban Climate Change Research Network the discussion considers major research themes like mitigation and adaptation policies Seattle's regional national and international participation in climate action networks disaster risk reduction and risk assessment and the impacts of climate change and climate policy formation on the city's most disadvantaged populations Climate Change and the Future of Seattle will therefore be of wider interest to scholars and students at all levels in urban planning human geography political science urban studies public administration and sustainability studies [A 21st Century Road Trip](#) John Mulhern, III,2006-12 In this book John Mulhern III writes about traveling a total of 7 694 miles in 18 days a route through eighteen widely and wildly different states including not only stops in the cities of Chicago Santa Fe Los Angeles San Francisco and Seattle but also nights in the small towns of Claremore Point Arena and Murdo Adventures on the road multiple encounters with both high winds and snow yield to visits with friends old and new encounters with various other Corvettes

and other vehicles of interest and more than a few great restaurants sometimes in the most unexpected places This is a book for travel lovers and most certainly for Corvette lovers but most of all for devotees of the stunning beauty and endless variety of America It includes several detailed maps of the route an annotated bibliography and over 150 color photos **Native Seattle** Coll-Peter Thrush,2007 In traditional scholarship Native Americans have been conspicuously absent from urban history Indians appear at the time of contact are involved in fighting or treaties and then seem to vanish usually onto reservations In Native Seattle Coll Thrush explodes the commonly accepted notion that Indians and cities and thus Indian and urban histories are mutually exclusive that Indians and cities cannot coexist and that one must necessarily be eclipsed by the other Native people and places played a vital part in the founding of Seattle and in what the city is today just as urban changes transformed what it meant to be Native *Library of Congress Catalog* United States,1977 Library of Congress Catalogs Library of Congress,1976 **The Fair and the Falls** John William Theodore Youngs,1996 J William T Youngs headed the research staff who interviewed over 200 citizens and reviewed thousands of pages of records in order to write this definitive history of Spokane its people and the first ever Environmental World s Fair to be ratified by the Bureau of International Expositions in Paris This comprehensive history of a midsize western American city chronicles the coming of white settlers and their interchanges with the Indians of the region the harnessing and exploitation of the Spokane River and its beautiful falls for energy to run mills and light streets stores and homes and the impact of the railroads At the heart of this meticulously researched account is the growth and decay of Spokane s inner city by the falls as its economy ebbed and flowed and the reclamation of the falls through the resounding success of Spokane s World Fair Expo 74 National Union Catalog ,1978 Includes entries for maps and atlases **Architectural Record** ,1962-04 Adult Catalog: Authors Los Angeles County Public Library,1970 *Combined Retrospective Index to Book Reviews in Scholarly Journals, 1886-1974* Evan Ira Farber,1981 **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1896 USA Gwendolyn Wright,2008-02-15 Gwendolyn Wright s USA is an engaging account the evolution of American architecture from the late nineteenth century to the twenty first *Federal Probation* ,1960
