The Holy Land in Transit Steven Salaita, 2006-11-03 Steven Salaita's ambitious and thought provoking work compares the dynamics of settler colonialism in the United States related to Native Americans with the circumstances in Israel related to the Palestinians revealing the way in which politics influences literary production The author's original approach is based not on similarities between the two disparate settler regions but rather on similarities between the rhetoric employed by early colonialists in North America and

that employed by Zionist immigrants in Palestine Meticulously examining histories theories and literary depictions of colonialism and its interethnic dialects Salaita identifies the commonalities in the myths employed by both groups as well as the counter discourse cultivated in the literature of resistance by native peoples He complements his analysis with personal observations of Palestinians in Lebanese refugee camps where he encountered a sympathetic perception of American Indians The Holy Land in Transit presents one of the first intercommunal studies to assess the ways in which indigenous authors react to analogous colonial dynamics With great perception and energy the author offers a fresh contribution to an emerging frame of reference for historical political literary and cultural investigation **The Museum** Samuel J Redman,2022-05-03 Celebrates the resilience of American cultural institutions in the face of national crises and challenges On an afternoon in January 1865 a roaring fire swept through the Smithsonian Institution Dazed soldiers and worried citizens could only watch as the flames engulfed the museum's castle Rare objects and valuable paintings were destroyed The flames at the Smithsonian were not the first and certainly would not be the last disaster to upend a museum in the United States Beset by challenges ranging from pandemic and war to fire and economic uncertainty museums have sought ways to emerge from crisis periods stronger than before occasionally carving important new paths forward in the process The Museum explores the concepts of crisis as it relates to museums and how these historic institutions have dealt with challenges ranging from depression and war to pandemic and philosophical uncertainty Fires floods and hurricanes have all upended museum plans and forced people to ask difficult questions about American cultural life With chapters exploring World War I and the 1918 influenza pandemic the Great Depression World War II the 1970 Art Strike in New York City and recent controversies in American museums this book takes a new approach to understanding museum history By diving deeper into the changes that emerged from these key challenges Samuel J Redman argues that cultural institutions can and should use their history to prepare for challenges and solidify their identity going forward A captivating examination of crisis moments in US museum history from the early years of the twentieth century to the present day The Museum offers inspiration in the resilience and longevity of America's most prized cultural institutions Indigenous Archaeologies Margaret Bruchac,Siobhan Hart,H Martin Wobst,2016-06-03 This comprehensive reader on indigenous archaeology shows that collaboration has become a key part of archaeology and heritage practice worldwide Collaborative projects and projects directed and conducted by indigenous peoples independently have become standard community concerns are routinely addressed and oral histories are commonly incorporated into research This volume begins with a substantial section on theoretical and philosophical underpinnings then presents key articles from around the globe in sections on Oceania North America Mesoamerica and South America Africa Asia and Europe Editorial introductions to each piece contextualize them in the intersection of archaeology and indigenous studies This major collection is an ideal text for courses in indigenous studies archaeology heritage management and related fields **Handbook of Archaeological Theories** R.
