Clem,2020-05-21 This comprehensive volume observes how after 25 years of transition and uncertainty in the countries that constituted the former Soviet Union their political geographies remain in a state of flux The authors explore the fluid relationship between Russia by far the dominant economic and military power in the region and the other former republics They also examine new developments towards economic blocs such as membership in the European Union or the competing Eurasian Economic Union as well as new security arrangements in the form of military cooperation and alliance structures This book reflects the broad range of changes across this important world region by engaging in insightful analysis of current developments in Central Asia Ukraine Russia the Caucasus and separatist regions The authors explore new state alliances and the evolving cultural and geopolitical orientations of former Soviet citizens Some chapters also examine the dynamics of wars that have occurred in the post Soviet space as well as how local political developments are reflected in electoral preferences and struggles over control of public spaces The chapters in this book were originally published in the journal Eurasian Geography and Economics *Evolution of Sleep* I. G.
