History of Free Skin Grafting H.J. Klasen, 2012-12-06 Amidst the innumerable articles and books on plastic and reconstructive surgery a thorough and extensive study of the history of free skin grafting was still missing This omission has now been rectified by Dr Klasen This book is an expansion of a M D thesis written at the State University of Groningen The Netherlands and was guided by Professor A J C Huffstadt plastic surgeon and Professor D de Moulin medical historian Professor T Gibson kindly revised the manuscript and wrote the epilogue But as Goethe put it nur ein Teil der Kunst kann gelehrt werden der Kunstler macht das Ganze only a part of the art can be taught the artist makes the totality The author Henk Klasen is a remarkable man As a general surgeon he devotes all his interest and skills to traumatology and problems of physiology and pathophysiology in surgery With such talents it is natural that he also works parttime as one of the coordinators of a modern burn unit Among his hobbies are love of antiques and old books This historical inclination has induced him to write the present book in which he vividly describes the development of free skin grafting in its relevant theoretical and practical aspects His elaborate study has resulted in an excellent reference book which at the same time provides enjoyable reading once again demonstrating the value of history in understanding the present A J C HUFFSTADT M D
