Smart Soups:

Smart Soups Carol Munson, 1998 Chunky chowders cool classics and hearty main dish soups are highlighted in this nutritional soup cook book Make some sesame bread sticks or focaccia and wait for the raves **Introduction to Stocks and Soups - How to Make Healthy Soups and Stocks** Dueep J. Singh, John Davidson, 2015-01-08 Introduction to Stocks and Soups How to Make Healthy Soups and Stocks Table of Contents Introduction What Goes in the Stockpot How to Prevent Stock from Turning Sour How to Make Good Stock Brown Stock White Stock How to make A Meat Glaze Making Perfect Soup Soup Classifications Food Value of Thick and Clear Soups Essentials of a Well Prepared Soup Why Does the Consistency Vary Color Liaison Varieties of Liaison Tips When Using Liaisons Roux Proportions of Ingredients for Liaison Consomm Broth Blanching Traditional Mutton Broth Pur es Vegetable Pur es Pulse pur es Pea or Lentil Soup Thick Soups Cream Soups Tapioca Soup Bisques Lobster Bisque How to Sieve Soup Properly Conclusion Author Bio Introduction Nobody knows when human beings began to make stocks and soups from meat and vegetables This secret is lost in the mist of the ages Stock is a liquid which is obtained when you boil vegetable or meat over heat for a long time This is going to contain some of the most important and soluble nutrients and flavoring constituents of the foods which have undergone the boiling process These nutrients have been extracted by prolonged and gentle simmering http://www.123rf.com/photo_14885901_vegetable_soup.html Such a liquid is the foundation of soups sauces and gravies in cuisines all over the world The ancient Romans regarded a really good cook as a pearl beyond compare Only he knew all about the herbs and spices which he was going to use in making a stock which would be then be used to make a gravy on which emperors would dine So is it a wonder that the first part of learning cookery is to know how to make a good stock The method of preparation is based upon the solvent action of the water and the prolonged application of moderate and moist heat The gelatinous lean and muscular tissue parts of the meat with a certain proportion of bone are most suitable to make the stock In ancient times people who could not afford better cuts of meat which went to the rich had to make do with the leftovers which were bones and pieces of lean meat So it is natural that they tried to make these pieces very tasty by first boiling them in water Then they added some herbs and some vegetables and then they added any available in gradient which could add to the rich flavor and aroma of something being cooked slowly on a fire Lo and behold the first stock was made with the slow simmering of all these ingredients mixed together The importance of soup all over the world especially in folklore cannot be disregarded You may want to enjoy the traditional stories here about soup from different parts of the world <http://www.pitt.edu/dash/type1548.html> stonesoup Herbs and spices are not generally used for meat stock nowadays though they were used in ancient times Also today they are added with discretion in fish and vegetable stocks but like I said in ancient times everything went into the cooking pot and was stewed for a long time before fed to a hungry family The vegetables should be fresh not necessarily young and expensive and the trimmings and coarse stalks can be utilized Ages ago the food gatherer went hunting for roots

edible vegetables and other greens in the woods and all of them were added to the cooking pot Each portion of the plant including roots shoots and leaves stems flowers and bark if edible were utilized The vegetables generally used for making stock are carrots onions turnip and celery Make sure that no flavor predominates Turnip and celery if it is old is particularly strong and should not be used in large quantities Vegetables are very absorbent of meaty flavors That is why they should not remain too long in the stock while it is cooking This is the same reason why cooks do not let them steep for long in the stock after the stock has been removed from the fire *Live the Smart Way* Kathy Smart,2011-09-19 As an individual with Celiac disease Kathy Smarts love of good food was limited and flavour often compromised This cookbook is a collection of tested and tasted gluten free recipes that are so delicious you forget that they are good for you **Cooking Smart** Tessa Kwan,AI,2025-03-15 Cooking Smart is a guide to optimizing your health through improved cooking techniques It emphasizes the profound impact that cooking methods have on retaining nutrients and minimizing harmful compounds in food For instance high heat methods like frying can lead to the formation of acrylamide while gentler methods like steaming are better for preserving water soluble vitamins The book draws from nutrition science and food chemistry to offer practical evidence based advice The book systematically explores various cooking methods including boiling steaming frying roasting and slow cooking Each section analyzes the chemical reactions that occur and provides recommendations for healthier food preparation What sets Cooking Smart apart is its approach to connect nutrition science with practical advice enabling readers to modify their cooking habits for better health and fitness The book begins with the core principles of nutrient retention and the reduction of harmful compounds then progresses to examining specific cooking methods This book empowers you to make informed decisions in the kitchen cook smarter and eat healthier by understanding the science behind food preparation **The Smart and Savvy Guide to Plant-Based Eating** Siloam,2020 The best food comes from the earth This book will show you how to cook appetizing meals that will help you feel better look younger and live longer The virtues of vegetarian vegan and raw foods are more popular than ever in both cookbooks and restaurant menus Readers will learn to prevent chronic illness lose weight and improve their overall health with plant based replacements for meat eggs dairy and more A quick start guide includes delicious easy healthy recipes for both cooked and raw foods **OTHER BOOKS IN THIS SERIES** **The Smart and Savvy Guide to Superfoods 2020** ISBN 978 1 62999 696 7 **Why Smart Companies Do Dumb Things** Calvin L.
