**Encyclopedia of Best Films** Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc., as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

**Dashiell Hammett and the Movies** William H. Mooney, 2014-11-03 As the father of the hardboiled detective genre, Dashiell Hammett had a huge influence on Hollywood. Yet it is easy to forget how adaptable Hammett's work was, fitting into a variety of genres and inspiring generations of filmmakers. *Dashiell Hammett and the Movies* offers the first comprehensive look at Hammett's broad oeuvre and how it was adapted into films from the 1930s all the way into the 1990s. Film scholar William H. Mooney reveals the wide range of films crafted from the same Hammett novels: as when *The Maltese Falcon* was filmed first as a pre-Code sexploitation movie, then as a Bette Davis screwball comedy, and finally as the Humphrey Bogart classic. He also considers how Hammett rose to Hollywood fame not through the genre most associated with him but through a much fizzier concoction: the witty murder mystery *The Thin Man*. To demonstrate the hold Hammett still has over contemporary filmmakers, the book culminates in an examination of the Coen brothers' pastiche *Miller's Crossing*. Mooney not only provides us with an in-depth analysis of Hammett adaptations; he also chronicles how Hollywood enabled the author's own rise to stardom, complete with a celebrity romance and a carefully crafted public persona. Giving us a behind-the-scenes look at the complex power relationships, cultural contexts, and production concerns involved in bringing Hammett's work from the page to the screen, *Dashiell Hammett and the Movies* offers a fresh take on a literary titan.

**Hollywood romantic comedy** Kathrina Glitre, 2013-07-19 This book explores the changing representation of the couple, focusing on themes of marriage, equality, and desire. Kathrina Glitre moves beyond the usual screwball territory to consider cycles of production from 1934-65. The central concern with the representation of the couple is distinctive and includes discussion of three star couples: Myrna Loy and William Powell, Katharine Hepburn and Spencer Tracy, and Doris Day and Rock Hudson. Glitre offers explanations of genre as well as detailed analysis of screwball comedy, career woman comedy, and sex comedy. Each cycle is placed into context to analyse cultural discourses around heterosexuality, gender, romance, and love. This structure also enables a more sophisticated understanding

of such conventions as masquerade gender inversion and the happy ending The book will appeal to university students and academics working on genre gender culture and representation and anyone with a keen interest in Hollywood romantic comedy

**It's a Print!** William Reynolds, Elizabeth Ann Trembley, 1994 The mechanistic age of the twentieth century has required a mechanized medium for expression the production of film dependent from the start on machines such as cameras projectors lights and now more heavily reliant on computers sensitive films miniaturization and sophisticated sound recording devices has flowered in this century not only as a means of popular entertainment but as a critically acclaimed art form These essays highlight true cinematic adaptations as completely different products from films based loosely on the gimmick or plot or character of a certain fiction

Milwaukee Towne Corporation V. Loew's Incorporated, 1951

*Title Sequences as Paratexts* Michael Betancourt, 2017-10-30 In his third book on the semiotics of title sequences *Title Sequences as Paratexts* theorist Michael Betancourt offers an analysis of the relationship between the title sequence and its primary text the narrative whose production the titles credit Using a wealth of examples drawn from across film history ranging from *White Zombie* 1931 *Citizen Kane* 1940 and *Bullitt* 1968 to *Prince of Darkness* 1987 *Mission Impossible* 1996 *Sucker Punch* 2011 and *Guardians of the Galaxy Vol 2* 2017 Betancourt develops an understanding of how the audience interprets title sequences as instances of paranarrative simultaneously engaging them as both narrative exposition and as credits for the production This theory of cinematic paratexts while focused on the title sequence has application to trailers commercials and other media as well
