lavish patronage of musical events witnessed the proliferation of repertory for instrumental ensembles. This music not only reveals crucial stages in the development of the sonata and concerto but also recalls the elaborate church rituals and the opulent public and private celebrations in which they figured prominently. Moreover, the late seventeenth century saw the heyday of Bolognese music publishing whose output of sonatas and related instrumental genres easily surpassed that of the once dominating Venetian presses. The approach taken here departs from composer and genre centered monographs on Italian instrumental music in order to illuminate an array of topics that center on the Bolognese repertory: the social condition of instrumentalist composers, the acumen of music publishers in the creation of the repertory, the diverse contexts of the instrumental dances, the influence of liturgical traditions on sonata topoi, the impact of psalmodic practice on tonal style, and the innovative climate that led to experiments with scoring and form in the earliest instrumental concertos. In sum, this book not only illustrates the historically significant and defining features of the music but also links the surviving repertory to the flourishing musical culture in which it was created. With informative biographies, essays, and music maps, this book is the ultimate guide to the best recordings in rhythm and blues. 20 charts. [Women Performing Music](#) Beth Abelson

Macleod, 2000-12-15 This book explores the experiences of women from the late nineteenth and early twentieth centuries who pursued careers as public performers, charting a new course in an era when women's musical activities were generally consigned to the parlor. Certain instruments had historically evolved as appropriate for women, and the flamboyant personalities and extroverted emotionalism of Romantic virtuosos and conductors were the antithesis of those qualities traditionally admired in women. However, this work presents an unusual group of young women who nonetheless became noted virtuosos, studying abroad as teenagers and touring North America upon their return. Detailed profiles are given of three remarkable musicians from among that unusual group: Fannie Bloomfield Zeisler (1863-1927), virtuoso pianist, wife and mother; Ethel Leginska (1886-1970), pianist, conductor; and Antonia Brico (1902-1989), conductor and transitional figure to the late twentieth century. A concluding chapter contrasts the experiences of women classical musicians in the late nineteenth and the late twentieth centuries. Included are a number of photographs and drawings which impart the perceptions of audiences and critics of the stage presence of these performers. [Britannica Book of the Year 2009](#)
