Sonia Delaunay Jacques Damase, 1972 **Visions of the Human** Tom Slevin, 2015-05-28 In what ways do the artistic avant garde's representations of the human body reflect the catastrophe of World War I? The European modernists were inspired by developments in the nineteenth century yielding new forms of knowledge about the nature of reality and repositioning the human body as the new object of knowledge. New visions of the human subject were created within this transformation. However, modernity's reactionary political climate for which World War I provided a catalyst transformed a once liberal ideal between humanity, environment and technology into a tool of disciplinary rationalisation. **Visions of the Human** considers the consequences of this historical moment for the twentieth and twenty-first centuries. It explores the ways in which the technologies of the self that inspired the avant garde were increasingly instrumentalised by conservative politics, urbanism, consumer capitalism and the society of the spectacle. This is an engaging and powerful study which challenges prior ideas and explores new ways of thinking about modern visual culture. Sonia Delaunay Axel Madsen, 2015-03-17 Sonia Delaunay, wife of painter Robert Delaunay and co-founder of the Orphist school in 1910, was the center of a brilliant circle in Paris. Madsen offers a rich and compelling look at this fascinating and influential woman, the first living female artist to have a retrospective show at the Louvre. **Cultures of Colour** Chris Horrocks, 2012 Colour permeates contemporary visual and material culture and affects our senses beyond the superficial encounter by infiltrating our perceptions and memories and becoming deeply rooted in thought processes that categorise and divide along culturally constructed lines. Colour exists as a cultural as well as psycho-physical phenomenon and acquires a multitude of meanings within differing historical and cultural contexts. The contributors examine how colour becomes imbued with specific symbolic and material meanings that tint our constructions of race, gender, ideal bodies, the relationship of the self to others and of the self to technology and the built environment. By highlighting the relationship of colour across media and material culture, this volume reveals the complex interplay of cultural connotations, discursive practices and socio-psychological dynamics of colour in an international context. The ^A Philosophy of Rhythm Peter Cheyne, Andy Hamilton, Max Paddison, 2019-10-30 With original essays by philosophers, psychologists, musicians, literary critics and ethno-musicologists, *The Philosophy of Rhythm* offers a broad perspective on rhythm, the fundamental pulse that animates music, dance and poetry across all cultures.
