An Illustrated History of Sonoma County, California Lewis Publishing Company, 2016-11-20 Excerpt from An Illustrated History of Sonoma County California Containing a History of the County of Sonoma From the Earliest Period of Its Occupancy to the Present Time The year following on September 17th under the direction of Commandante Moraga the presidio of San Francisco was duly inaugurated amid the firing of cannons ringing Of bells and all the formalities usual to typify absolute Spanish possession The San Carlos had just arrived and Captain Quiros Canizares and Re ville master and mate participated in the lay ing of the corner stone of this the future metropolis of the Pacific coast Something over one hundred persons were present on that occasion Right then and there it became a fixed finality that civilization held the keys to the Golden Gate to the Pacific coast In order to punctuate this so as to rivet the attention of the reader we borrow the language of a writer in the Overland Monthly who says On that same 17th of September on the other side of the continent Lord Howe s Hessian and British troops were revelling in the city of New York We might supplement this with the observation that if it took from 1776 to 1823 for Spanish occupation to extend its lines from San Fran cisco to Sonoma it should somewhat break the force of carping criticism in reference to the time consumed by Moses and the children of Israel in their emigration from Egypt up to the land of Canaan But in this we anticipate history About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Containing A History Of The County Of Sonoma From The Earliest Period Of Its Occupancy To The Present Time* J. P. Munro-Fraser, **Historical and Descriptive Sketch of Sonoma County, California (Classic Reprint)** Robert A. Thompson, 2015-09-27 Excerpt from Historical and Descriptive Sketch of Sonoma County California Sonoma county lies twenty five miles north of San Francisco a little west of a due north line It is bounded on the south by the bay of San Francisco and Marin county the latter county a peninsula lying between the bay and the ocean on the west by the Pacific

ocean on the north by Mendocino county and on the east by Lake and Napa counties Its sea coast front following the sinuosities of the shore line is about sixty miles Its average length from north to south is about fifty miles and its average width is about twenty five miles Its area is in round numbers eight hundred and fifty thousand acres The district of Sonoma originally included all the vast territory lying between the Sacramento river and the Pacific ocean At the first session of the legislature the northern line was fixed along the fortieth parallel of latitude to the summit of the Mayacmas range of mountains and thence south to the bay including all the present county of Mendocino and a portion of Napa county In 1850 Napa county having been previously formed the limits of Sonoma were contracted to the present boundary lines by the segregation of Mendocino county A glance at the map of the State herewith published will show the great advantages of the location of the county of Sonoma It fronts on the bay of San Francisco known in its northern extremity as the bay of San Pablo once called the bay of Sonoma Two estuaries lead from the bay inland into the county of Sonoma navigable at high tide for steamers and sail vessels of considerable size The latter with a fair wind and tide convey the produce of the county at the current freight rates in a few hours to the wharves in San Francisco In addition there are a number of shipping points along the coast of which more will be said hereafter Sonoma county is not so fully known as portions of this State with less advantages of climate soil and productions because it is off the great central line of travel which follows the Sacramento Valley to tide water thence to San Francisco and turns southward It has been hidden as it were behind the Coast Range of mountains which separates it from the great Sacramento Valley From San Francisco through the Sacramento Valley you pass along the east foothills of the Coast Range from the same place to Sonoma county you pass along the west face of the same range The trend of the coast is northwesterly and the county of Sonoma lies almost entirely west of the city of San Francisco Lying west of the greater part of the State may account for the fact that about one third more rain falls here than in San Francisco and fully one half more than in the counties south and east of the bay of San Francisco There has never been a season in the history of the county when there was not enough rain to make a crop There have been years of drouth in other parts of the State but in this section in those seasons the crops were better than an average About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
