Who Gets to Go Back-to-the-Land? Valerie Padilla Carroll,2022-12 In *Who Gets to Go Back to the Land* Valerie Padilla Carroll examines a variety of media from the last century that proselytized self sufficiency as a solution to the economic instability environmental destruction and perceived disintegration of modern America In the early twentieth century books already advocated an escape for the urban white collar male The suggestion became more practical during the Great Depression and magazines pushed self sufficiency lifestyles By the 1970s the idea was reborn in newsletters and other media as a radical response to a damaged world allowing activists to promote the simple life as environmental gender and queer justice At the century s end a great variety of media promoted self sufficiency as the solution to a different set of problems from survival at the millennium to wanderlust of millennials Nevertheless these utopian narratives are written overwhelmingly for a particular audience one that is white male and white collar Padilla Carroll s archival research of the books newspapers magazines newsletters websites blogs and videos promoting the life of the agrarian smallholder illuminates how embedded race class gender and heteronormative dogmas in these texts reinforce dominant power ideologies and ignore the experiences of marginalized people Still Padilla Carroll also highlights how those left out have continued to demand inclusion by telling their own stories of self sufficiency rewriting and reimagining the movement to be collaborative inclusive and rooted in both human and ecological justice **Michael Turner's Soulfire Vol. 4 Collected Edition** J.T.
