and silly error but nevertheless an error which is made by the greatest players in the world in their published works that I shall not at the present moment deal with the matter but shall refer to it again in my chapter on the distribution of weight for this matter of the distribution of weight which is of absolute root importance in the game of golf has been most persistently mistaught by those whose duty it is to teach the game as they play it so that others may not be hampered in their efforts to become expert by following false advice Of course they begin to turn over much sooner than this but the truth is that the turn over of the wrist or more correctly speaking the roll of the forearms in the downward swing is such a wonderfully gradual and natural process that it would be utterly impossible for anyone to say at what particular period in the downward swing it happens and if anyone can say or rather does say at what particular period the wrists come in to the downward stroke he is not only an ignorant golfer but an enemy to golf for it is a matter which cannot be described except to say that the wrist action begins absolutely with the beginning of the stroke and is then a continuous and natural turn until the club gets very close to the ball by which time there is practically nothing left for the wrists to do as the club has reverted to the position in which it was at the moment of address or perhaps I should say that it ought to have reverted to that position as indeed in so far as regards the club itself is properly shown by James Braid in his photographs of stance and address and impact

The Soul of Golf P. A. Vaile, 2015-06-11 Excerpt from The Soul of Golf It is frequently and emphatically asserted by reviewers of golf books that golf cannot be learned from a book If they would add in a room they would be very near the truth but not quite It would be quite possible for an intelligent man with a special faculty for games a good book on golf and a properly equipped practising room to start his golfing career with a game equal to a single figure handicap As a matter of fact the most important things concerning golf may be more easily and better learned in an arm chair than on the links As a matter of good and scientific tuition the arm chair is the place for them In both golf and lawn tennis countless players ruin their game by thinking too much about how they are playing the stroke while they are doing it That is not the time to study first principles Those should have been digested in the arm chair where indeed as I have already said and now repeat with emphasis the highest the most scientific and the most important knowledge of golf must be obtained About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
