ethics He rejects the dominant constructivist interpretation in favor of a moral realist one At the heart of Kant's Enlightenment ethics is his insistence that the authority of the moral law ultimately rests in our recognition of its authority Kant guides us to this recognition of the authority of the moral law across his works in ethics and his various formulations of the moral law using a single elimination of sensibility procedure Here Kant systematically rejects the pretenses of sensibility to isolate reason and its insights into moral right and wrong Precisely because immoral choice remains a coherent alternative however moral virtue demands our ongoing cultivation of our capacities for cognition feeling desire and character

Jonathan Edwards and Thomas Aquinas Choi argues that the arts are the cultural medium through which we can better understand what is morally possible and that aesthetic objects can serve as snapshots of a particular community's perspectives on the good life. Art in other words offers glimpses not only into competing moral visions within society but also the extent to which these contested moral views are understood. The arts in Choi's view provide a way of assessing the limits and possibilities of moral reasoning, the contextuality of moral discernment and the need for moral thinking that is dialogical and dialectical.
