Soul Jazz Guitar Paperback:

Soul Jazz Guitar Randy Johnston, 2010-12-17 Soul Jazz Guitar is a collection of Randy Johnston's tunes and solos specifically designed for the intermediate student. Rather than merely transcribing solos from his CDs, he plays material at a reasonable tempo specifically with the student in mind. There are tunes "Downtime", "The Philadelphians", and "Rolling at the Summit" that appear on his commercial CDs but included here are versions that are new and totally unique to this project. There are also some improvisations on some familiar standard progressions to help the student deal with these changes when he or she encounters them at jam sessions etc. Randy has tried to present his take on the Jazz language as clearly and faithfully as possible to make the solos easy to learn. He hopes that this will lead the student not just to imitation but also to develop his or her own approach to these progressions just as he developed his own approach from listening to the playing of his role models over the years.

Jazz Eddie S. Meadows, 2013-10-23 Jazz Research and Pedagogy is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new comprehensive and annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade.

Complete Fingerstyle Jazz Guitar Alan De Mause, 2016-01-29 This book is complete in the sense that there is something for everyone: beginners, intermediate players, and professionals. Along with learning the basics, this book teaches fingerstyle guitar players to play two string harmonies, accompaniment styles, and much more. Alan De Mause has filled the companion CD to capacity with 90 examples of music from his landmark text. The recording features nylon string guitar throughout in both solo and midi-accompanied settings. A full range of jazz guitar stylings is offered, starting from square one and proceeding through advanced fingerstyle solo material.
