A History of Philosophy: History of ancient and medieval philosophy Friedrich Ueberweg, 1875 **The Resounding Soul** Eric Austin Lee, Samuel Kimbriel, 2015-11-10 It is surely not coincidental that the term soul should mean not only the center of a creature s life and consciousness but also a thing or action characterized by intense vivacity that bike s got soul It also seems far from coincidental that the same contemporary academic discussions that have largely cast aside the language of soul in their quest to define the character of human mental life should themselves be so how to say it bloodless so lacking in soul This volume arises from the opposite premise namely that the task of understanding human nature is bound up with and in important respects dependent upon the more critical task of learning to be fully human of learning to have soul The papers collected here are derived from a conference in Oxford sponsored by the Centre of Theology and Philosophy and together explore the often surprising landscape that emerges when human consciousness is approached from this angle Drawing upon literary philosophical theological historical and musical modes of analysis the essays of this volume vividly remind the reader of the power of the ancient language of soul over against contemporary impulses to reduce fragment and overly determine human selfhood
