Sound Ideas Advanced Listening And Speaking:

Sound Ideas Helen Fragiadakis,1995-10 Assessing Listening for Chinese English Learners Pan Zhixin,2016-12-08

This book reports in detail the newly developed Communicative Listening Comprehension Test CLCT for the National College English Test CET of China Following the principles of communicative testing in general and test construction approach proposed by Bachman and Palmer 1996 in particular the project develops CLCT for CET 4 and CET 6 The research begins with the construction of frameworks of listening task characteristics and communicative listening ability Subsequently based on a survey of Chinese college students English listening needs and an analysis of listening tasks in influential English listening course books and public tests CLCT 4 and CLCT 6 test specifications are developed Finally sample papers are produced and a series of posteriori studies are conducted to examine the difficulty and usefulness of the newly developed notes completion task type in two CLCT tests As an example of successful integration of communicative testing theories and test construction practice this research provides valuable insights into listening test development for other large scale tests

Engineering Speaking by Design Edward J. Rothwell, Michael J. Cloud, 2017-12-19 From the Authors of Engineering Writing by Design Creating Formal Documents of Lasting Value Engineering presentations are often a topic of frustration Engineers complain that they don t enjoy public speaking and that they don t know how to address audiences with varying levels of technical knowledge Their colleagues complain about the state of information transfer in the profession Non engineers complain that engineers are boring and talk

over everybody's heads Although many public speaking books exist most concentrate on surface issues failing to distinguish the formal oral technical presentation from general public speaking **Engineering Speaking by Design Delivering Technical Presentations with Real Impact** targets the formal oral technical presentation skills needed to succeed in modern engineering Providing clear and concise instruction supported by illustrative examples the book explains how to avoid logical fallacies both formal and informal use physical reasoning to catch mistakes in claims master the essentials of presentation style conquer the elements of mathematical exposition and forge a connection with the audience Each chapter ends with a convenient checklist bulleted summary and set of exercises A solutions manual is available with qualifying course adoption Yet the book's most unique feature is its conceptual organization around the engineering design process This is the process taught in most engineering survey courses understand the problem collect relevant information generate alternative solutions choose a preferred solution refine the chosen solution and so on Since virtually all engineers learn and practice this process it is so familiar that it can be applied seamlessly to formal oral technical presentations Thus **Engineering Speaking by Design Delivering Technical Presentations with Real Impact** is inherently valuable in that it shows engineers how to leverage what they already know The book's mantra is if you can think like an engineer you can speak like an engineer

Intersections in Language Planning and Policy Jean Fornasiero, Sarah

M. A. Reed, Rob Amery, Eric Bouvet, Kayoko Enomoto, Hui Ling Xu, 2020-09-28 This volume encompasses the range of issues encountered by language scholars who teach and research in departments of languages and cultures within the higher education system predominantly in Australia but touching other universities worldwide Related studies on language planning methodology or pedagogy have focused on one or more of these same issues but rarely on their totality Intersections as a metaphor running discreetly through the essays in this volume connects them all to a lived reality The field of languages and cultures as it is practised and reflected upon in Australian universities is essentially an interdisciplinary and interconnecting space one in which linguistic and disciplinary diversities meet and join forces rather than collide or disperse along different pathways The international and local studies featured here focus on language planning new pedagogies and language reclamation and link to meeting points and commonalities They show that language scholars are increasingly finding themselves on common ground as they tackle issues of policy and practice affecting their field whether within their institutions within the tertiary system or within the framework of government policy
