Unmothering Autism Patty Douglas, 2025-01-15 As global rates of autism diagnosis rise dominant cultural representations continue to define autism as a tragic neurological disorder And mothers as primary

caregivers and advocates are centrally implicated in the impulse to find both cause and cure How should we care about autism and autistic people Unmothering Autism emerged from Patty Douglas's desire to understand a contradiction she and her two sons one autistic experienced beauty living together while their public encounters with doctors school professionals and agencies were fraught and sometimes violent In this book Douglas offers a critical history of popular and biomedical assumptions about autism expressed through shifting social constructs that blame or valorize maternal care Throughout she also intersperses her own insights and shares conversations she has had with other autism mothers Unmothering Autism theorizes an ethics of disruption reorienting us to autism and autistic people as valuable and fundamentally human It centres the previously marginalized perspectives of mothers and autistic individuals to affirm their knowledge of living well together in and through difference

Help for the Child with Asperger's Syndrome Gretchen Mertz, 2005 Mertz presents a readable and comprehensive parent's guide to developing an intervention program for a child with AS Beginning with the search for a diagnosis she outlines an accessible overview of the helpful and appropriate services that are available how to find them and get funding for them what to expect of them and how to evaluate them

Neurodevelopmental Disorders W. Wolfgang Fleischhacker, David J. Brooks, 2006-05-31 We have great pleasure to present the latest extension of the European Institute of Health Care book series This volume is devoted to neurodevelopmental disorders Again we had the privilege to be able to work with renowned experts who have agreed to contribute to this endeavour The book comprises a number of topics related to psychosocial and motor development and is exemplary with regard to its comprehensiveness as reviews of the topics presented are generally not available in a single publication It starts with a timely and critical discussion of the genetics of attention deficit hyperactivity disorder by Dr Buitelaar in which prospects and challenges of this approach are outlined The next chapter by Drs Nicolson and Fawcett deals with dyslexia and its relationship to cerebellar function providing a framework that can explain motor speed and phonological deficits in a unified approach Diagnostic and treatment aspects of speech development disorders are the focus of Dr Zorowka's contribution in which among other issues the necessity of multi-professional cooperation is stressed Dr Sigmundsson then focuses on disorders of motor development 6-10 % of children have motor competence well below the norm which often persists The clumsy child syndrome must be seen and treated as a neurological dysfunction The relationship between tic disorders and obsessive compulsive disorder two disturbances generally treated by different medical specialists namely neurologists or psychiatrists is then reviewed by Drs

Chasing the Intact Mind Amy S. F. Lutz, 2023-09-20 In Chasing the Intact Mind Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces historic patterns of discrimination that yoked human worth to intelligence and that it is only by making

space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care
