Sweet Tranquility:

, **Mere Equals** Lucia McMahon, 2012-09-15 In *Mere Equals* Lucia McMahon narrates a story about how a generation of young women who enjoyed access to new educational opportunities made sense of their individual and social identities in an American nation marked by stark political inequality between the sexes McMahon's archival research into the private documents of middling and well-to-do Americans in northern states illuminates educated women's experiences with particular life stages and relationship arcs: friendship, family, courtship, marriage, and motherhood. In their personal and social relationships, educated women attempted to live as the mere equals of men. Their often frustrated efforts reveal how early national Americans grappled with the competing issues of women's intellectual equality and sexual difference. In the new nation, a pioneering society pushing westward and unmooring itself from established institutions, often enlisted women's labor outside the home and in areas that we would deem public. Yet as a matter of law, women lacked most rights of citizenship, and this subordination was authorized by an ideology of sexual difference. What women and men said about education, how they valued it, and how they used it to place themselves and others within social hierarchies is a highly useful way to understand the ongoing negotiation between equality and difference. In public documents, difference overwhelmed equality because the formal exclusion of women from political activity and from economic parity required justification. McMahon tracks the ways in which this public disparity took hold in private communications. By the 1830s, separate and gendered spheres were firmly in place. This was the social and political heritage with which women's rights activists would contend for the rest of the century.

Titled in order to categorize the poems. **An American Selection of Lessons in Reading and Speaking** Noah Webster, 1797 *The Memory Phenomenon in Contemporary Historical Writing* Patrick H. Hutton, 2016-07-15

In this book, the author provides a comprehensive overview of the intense and sustained work on the relationship between collective memory and history, retracing the royal roads pioneering scholars have traveled in their research and writing on this topic, notably the politics of commemoration, purposes and practices of public remembrance, the changing uses of memory worked by new technologies of communication from the threshold of literacy to the digital age, the immobilizing effects of trauma upon memory with particular attention to the remembered legacy of the Holocaust. He follows with an analysis of the implications of this scholarship for our thinking about history itself, with attention to such issues as the mnemonics of historical time and the encounter between representation and experience in historical understanding. His book

provides insight into the way interest in the concept of memory as opposed to long standing alternatives such as myth tradition and heritage has opened new vistas for scholarship not only in cultural history but also in shared ventures in memory studies in related fields in the humanities and social sciences

Apology to Apostrophe James D. Fernández,1992 Who writes I To whom are autobiographies addressed What kinds of readers are inscribed in autobiographical narratives In Apology to Apostrophe James D Fern ndez s offers a lucid and powerful meditation on the nature of autobiographical writing through his investigation of the historical conditions and literary stagings of autobiographical writing in Spain As Fern ndez demonstrates recent developments in critical theory provide new and fruitful approaches to autobiographical works that have long been neglected misunderstood or in some cases virtually unknown Focusing primarily but not exclusively on nineteenth century Spain Fern ndez exposes a rhetorical tension that often occurs in autobiographical discourse between self

justification or apology and the transcendence of this worldly impulse or apostrophe This tension he argues is of particular interest in the case of Spain but not peculiar to that nation and his attention to the theoretical nature of autobiography leads to insightful considerations of many canonical European autobiographies including those of Saint Augustine Rousseau Saint Teresa and Cardinal Newman Considering Spanish autobiography in the context of first person narrative in Europe and in the terms of current debates on the relationship between writing and selfhood *Apology to Apostrophe* marks a significant advance in our historical understanding and critical discussion of the genre The book will be of great value not only to Hispanists but also to those interested in autobiography and cultural history *Roland Hayes* Christopher A. Arnold, 2014-02-24 *Theoderic and the Roman Imperial Restoration* offers a new interpretation of the fall of Rome and the barbarian successor state known as Ostrogothic Italy Relying primarily on Italian textual and material evidence Jonathan J Arnold demonstrates that the subjects of the Ostrogothic kingdom viewed it as a revived Roman Empire and its king Theoderic as its emperor Most accounts of Roman history end with the fall of Rome in 476 or see the Ostrogothic kingdom as a barbarous imitator This book however challenges such views placing the Theoderican epoch firmly within the continuum of Roman history
