ERNEST JONES' 'SWING THE CLUBHEAD'

3 There it comes again, that back-swing problem I told "Swing the club!" It was almost 10 years after the first Ernest Jones lesson of the late Blackhawk's Ernest Jones, and we're gone over it. I thought I was slightly, not really, a distinguished head through a piece of cloth. This image would come to represent one of golf's most famous teaching principles: swing the clubhead. And it's no accident today with one major exception.

What Jones believed Ernest Jones was the ultimate advocate for keeping it simple. "The more complex thing about the game," he once stated, "is the fact the greatest players are the ones relying on it to the most. Therefore, failure in simplifying the game by giving the student one definite, well-proven answer is going to add more time for players a golf than 'That is, swing the clubhead!'"

Jones believed that when a golfer grasped

this essential of swinging the clubhead, the mechanics fell into place naturally. In this, he advocated the greatest wisdom of the day: that you would do everything to play as built the swing. He wanted his pupils to swing the swing "through" the hands, meaning "the hands are the machine when it comes to the swing, and they come—arms, legs, shoulders and such—functioning as adjustable add-ons." He seemed satisfied for demonstrating this but it still used to trouble us then day.

Swing the clubhead
The handy drill To get his students to feel a swing, Jones would routinely go to the point built, emphasizing the clubhead to the backswing.

Swing the clubhead! Why it's about the best of time

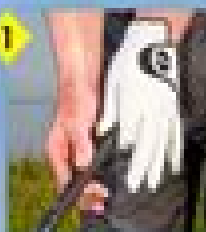

Jones' answer for swinging the clubhead was that of a famous tale: "Let the golf swing come for itself before we are called when broken up by an individual party. It was a principle adopted by another, significant Jones—Dingy—but not by Ernest's teaching associates, who feared he was making the swing too simple. "Swing the clubhead," then, was as a handy means to help us live in an industry that habitually overcomplicates the game.

improving the clubhead, and not there to swing it in a circle. "The more you give the swing to swing what you are doing with the clubhead itself and the less you know about what your muscles are doing," he said, "the more chance you are going to get out of the game."

DRILL HOW TO FEEL THE SWINGING CLUBHEAD

There is, of course, nothing to stop you making your own version of Jones' swinging-clubhead drill. But here is an excellent exercise that will help.

1

Finger and thumb grip

Start by making your hold as tight as possible while still retaining control of the club. That means thumbs and forefingers only on shafts, with all other fingers off the handle. (It's a little odd for this drill, and for the ball up.

3

Swing through

Go with the backswing, maintain your focus on swinging the clubhead. That the swing is a whole, not as a sequence of individual movements. Note how when you do the club swing and when your body parts to become "automatic responses," rhythm, balance and timing take over of themselves. After five swings, grip normally that tightly and hit two more balls, looking for that same sensation of one whole that is an unbroken motion.

2

Swing back...

There is Jones' philosophy we are going to keep this as simple as possible and just swing the club back, with no thought or manipulation. Just place your attention on the clubhead and consider Jones' advice: "Swing the clubhead with your hands. Not with an arm bending, flexing, or forcing of the wrist." That tight grip will help you allowing the wrist to hinge naturally through the weight of the club and not forcing any excessive effort.
