Mavericks Aritha Van Herk,2010-01-12 The fifth title in our provincial histories series *Mavericks* is an idiosyncratic and episodic history of what is arguably Canada s most unconventional province From mapmakers to ranchers Stampede Wrestling to Stockwell Day acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life van Herk s portrait of her home province embraces all its extremes from deadly and spectacular weather to dinosaur graveyards and from oil gushers and geysers to barnstorming social reformers and political haymakers Bronc riders of boom and bust Alberta s people are a beguiling mixture of opinionated extremists hardy pioneers and gentle sinners Alberta is a province that most Canadians simply don t understand the province most Canadians love to hate It is regarded as a land of reckless redneck and ignorant individualists But it is also the province where the Famous Five fought the landmark Person s Case giving Canadian women the same status as men in the eyes of the law a province that truly believes in free speech Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere And Albertans practice the creed of western neighbourliness giving assiduously to charity and always lending a hand where help is needed They are a tough tender bunch squinting into the wind of determined difference If you re an Albertan you ll recognize yourself and your home in this book If you re not an Albertan this book will be an education for you *Mavericks* will open your eyes to the real Alberta as she was and is

Mountains Figured and Disfigured in the English-Speaking World Françoise Besson,2020-06-01 The essays in this book written by poets novelists mountain climbers and academics from all over the world evoke the representation of mountains in the English speaking world as artists writers philosophers or mountain climbers have represented them from the sixteenth to the twenty first centuries From the Alps to the Pyrenees from Mount Fuji to Mount Shasta from the Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil s Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a

warning as well For centuries the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature **Water, Weather and the Mountain West** Robert William Sandford,2011-02-01 Growing populations increasing industrial use and heavy agricultural demand are beginning to tax water supplies in many regions of Canada Since many rivers are already fully allocated to numerous uses future economic and social development will depend upon how much we know about our surface and ground water resources and how effectively we manage them especially in the face of climate change The message to take home from this eloquent book is that it is time to dispel the myth of limitless abundance of water in Canada and throughout North America We all need to be mindful that though our technologically sophisticated society is largely fuelled and lubricated by refined petroleum it ultimately runs on plain water In his conclusion to this authoritative book Robert Sandford chair of Canada s United Nations Water for Life Decade offers a realistic picture of the various issues and threats related to the future availability and quality of fresh water in Canada *Signpost Guide Canadian Rockies* Donald L. Telfer,Don Telfer,Helena Zukowski,2001 People who travel by car have the best opportunities to explore beyond typical tourist destinations but driving in an unfamiliar region can be a daunting prospect New Signpost Guides provide practical information to guide motorists through unfamiliar routes signs traffic laws and parking Hundreds of attractions are described in detail together with recommendations for shopping dining and accommodations Each Signpost Guide features Full color detailed area maps supported by driving directions and route plans Helpful and practical tips including average driving times and distances Individual chapters on major cities that supply information essential to getting around without a car Unique ratings system to help travelers sample the very best of each region *Ya Ha Tinda* Kathy Calvert,2017 An illustrated history celebrating the 100th anniversary of this historic working horse ranch located along the eastern slopes of the Canadian Rockies The story of the Ya Ha Tinda and its evolution into the only continuously operating federal government horse ranch in Canada is much more than the story of the people who worked and lived there Its ancient history is an amalgam of geological evolution with archaeological evidence of ancient indigenous people s use of the land for over 9 400 years and a biophysical inventory of flora and fauna unique to this particular landscape So important is this small footprint that it has been the source of a constant struggle for control between governments and special interest groups since the early 1900s when the Brewster Brothers Transfer Company first obtained a grazing lease in the area for raising and breaking horses for their guiding and outfitting business in Banff and Lake Louise This unique book covers the 100 years since the inception of the ranch its challenges to survive intact to the 2017 centennial celebration and the stories of the men and women who worked and survived on the spread as they fought the elements and the politics to keep it as a home place for both the warden service and Parks Canada Banff, Jasper & Glacier National Parks ,2004 Moon Handbooks ,2010-04
