Pragmatism and American Experience Joan Richardson,2014-06-09 Pragmatism and American Experience provides a lucid and elegant introduction to America's defining philosophy Joan Richardson charts the nineteenth century origins of pragmatist thought and its development through the twentieth and twenty first centuries focusing on the major first and second generation figures and how their contributions continue to influence philosophical discourse today At the same time Richardson casts pragmatism as the method it was designed to be a way of making ideas clear examining beliefs and breaking old habits and reinforcing new and useful ones in the interest of maintaining healthy communities through ongoing conversation Through this practice we come to perceive as William James did that thinking is as natural as breathing and that the essential work of pragmatism is to open channels essential to all experience *The Dance of Consciousness*

approaches of traditionalist hermeneutics and 20th century geopolitics The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book's multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by René Guénon, Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning *The Way Things Are* Huston Smith, 2003-09-02 Where can we find what is ultimately meaningful How can we discover what is truly worth knowing In one form or another Huston Smith has been posing these questions to himself and the world all his life In the course of seeking answers he has become one of the most interesting enlightening and celebrated voices on the subject of religion and spirituality throughout the world The twenty three interviews and essays in this volume edited by cultural historian and filmmaker Phil Cousineau offer a uniquely personal perspective on Smith's own personal journey as well as wide ranging reflection on the nature and importance of the religious quest In *The Way Things Are* readers will find Smith in conversation with some of the world's most influential personalities and religious leaders from journalist Bill Moyers to religion scholar Philip Novak and recounting his personal experiences with such luminaries as Joseph Campbell Aldous Huxley Timothy Leary Daisetz Suzuki Ram Dass and the Dalai Lama Throughout these engaging exchanges Smith speaks with passion and humor of his upbringing as the son of missionary parents in China of the inspiring and colorful individuals he has known and of his impressions of the different religious and philosophical traditions he has encountered A fascinating view of the state of world religion and religious leadership over the past fifty years the book also looks to the future with a final interview on the vital importance of the transcendent message of religion for the post 9 11 world Readers will find *The Way Things Are* to be Huston Smith's most and accessible book to date [Access to Western Esotericism](#) Antoine Faivre, 1994-12-05 This is the first systematic treatment of esotericism to appear in English Here is also a historical survey beginning with the Alexandrian Period of the various esoteric currents such as Christian Kabbalah Theosophy Alchemy Rosicrucianism and Hermeticism Common characteristics of these currents are the notion of universal interdependency and the experience of spiritual transformation The author establishes a rigorous methodology provides clarifying definitions of such key terms as gnosis theosophy occultism and Hermeticism and offers analysis of contemporary esotericism based on three distinct pathways The second half of the book presents a series of studies on several important figures works and movements in Western esotericism studies devoted to some of the most characteristic and illuminating aspects that this form of thought has taken such as theosophical speculations on androgyny rosicrucian literature and Masonic symbolism The book

is completed by a rich and selective Bibliography conceived as a means of orientation and a tool for research

Religion after Religion Steven M. Wasserstrom, 1999-11-15 By the end of World War II religion appeared to be on the decline throughout the United States and Europe Recent world events had cast doubt on the relevance of religious belief and modernizing trends made religious rituals look out of place It was in this atmosphere that the careers of Scholem Eliade and Corbin the twentieth century s legendary scholars in the respective fields of Judaism History of Religions and Islam converged and ultimately revolutionized how people thought about religion Between 1949 and 1978 all three lectured to Carl Jung s famous Eranos circle in Ascona Switzerland where each in his own way came to identify the symbolism of mystical experience as a central element of his monotheistic tradition In this the first book ever to compare the paths taken by these thinkers Steven Wasserstrom explores how they overturned traditional approaches to studying religion by de emphasizing law ritual and social history and by extolling the role of myth and mysticism The most controversial aspect of their theory of religion Wasserstrom argues is that it minimized the binding character of moral law associated with monotheism The author focuses on the lectures delivered by Scholem Eliade and Corbin to the Eranos participants but also shows how these scholars generated broader interest in their ideas through radio talks poetry novels short stories autobiographies and interviews He analyzes their conception of religion from a broadly integrated comparative perspective sets their distinctive thinking into historical and intellectual context and interprets the striking success of their approaches

New Approaches to the Study of Religion: Regional, critical, and historical approaches Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

Every Branch In Me: Essays On The Meaning Barry McDonald, 2010-08-01 Every Branch in Me Essays on the Meaning of Man is a collection of articles by leading perennialist authors that are unified by a single theme nothing that is properly human can be separated from the intrinsically spiritual nature of man

Goddesses And Women In The Indic Religious Tradition Arvind Sharma, 2005 Following the lead of a hermeneutics of surprise the book identifies indeed surprising new material and offers unexpected new insights essential to the debate on the position of goddesses and women in ancient India

The Sunset of Tradition and the Origin of the Great War Alexander Wolfheze, 2018-10-01 From a Traditionalist perspective the cultural history of the Modern Era amounts to the genesis of the Dark Age The Traditionalist meta historical narrative deconstructs the modernist myth of historic progress as an anti intellectual superstition It exposes the quintessential features of Modernity namely secular nihilism historical

materialism socio political egalitarianism and collective narcissism as structural inversions of Traditional values The historic accumulation of these inversions set the stage for a final showdown between Tradition and Modernity In terms of ancient prophecy and Traditionalist philosophy the Great War represents the apocalyptic sunset of the world of Tradition This work follows the forgotten path of the philosophia perennis to trace the historic onset of the Dark Age It clears away a century deep deposit of progressive illusions and politically correct axioms The restored road of Traditional thought will lead a new generation of scholars to their rightful inheritance an intellectual tabula rasa on which history can be written anew

The Esoteric in Religious and Spiritual Traditions Patrick Laude, 2025-06-28 This book offers a comparative examination of the esoteric dimension across diverse religions including Buddhism Christianity Hinduism and Islam It seeks to answer the question of whether the concept of the esoteric can be applied across traditions and explores intersections convergences and differences in its use and presence therein The book provides new avenues for research by moving beyond the study of Western esotericism and examining how the category of the esoteric can be applied in the contexts of Abrahamic faiths and Asian traditions The book is organized into six centers of reflection including the esoteric dialectics of hiding and revealing the claim of esoteric traditions to restore wholeness and provide a comprehensive understanding of reality the character of immediacy and directness the intrinsic esoteric distinction between two truths and the non dualistic leanings of esoteric schools in terms of the unity of reality and the subjective immanence of an all embracing Divine Selfhood Overall the book provides a comprehensive phenomenology of the esoteric in religions It will be of interest to researchers and students of theology and religious studies

Traditional Islamic Ethics: The Concept of Virtue and its Implications for Contemporary Human Rights Irfaan Jaffer, 2021-09-07 Traditional Islamic Ethics The Concept of Virtue and its Implications for Human Rights concentrates on the subject of Islam and modernity and Islam and human rights a topic that has become popular and relevant with the rise of globalization and the interest in Islamic extremism and human rights This book distinguishes itself by operating within the framework of the traditional school of thought or Islamic Traditionalism In doing so it draws on Islam s 1400 year old spiritual and intellectual tradition and its understanding of ethics and virtue along with truth justice freedom and equality This book argues that Islam s pre modern approach is indispensable in creating an organic and integral human rights model for Muslims The first section argues that the current understanding and implementation of international human rights needs to be more flexible and inclusive if it truly aims to be universal in scope this is because The Universal Declaration and its offshoots are still underpinned by secular liberal principles and therefore are at odds with other cultural traditions To this end this section critically explores popular human rights histories and contemporary ethical theories that attempt to justify human rights The second section of this book provides a general overview on the subject of Islam and Human Rights After explaining some of the main problems this section examines various solutions offered by Muslim academics and scholars focusing on four different types of Muslim responses to modernity and

human rights liberal progressive traditional and fundamentalist It concludes that there are spaces of convergence between modern liberal ethics and traditional Islamic virtue ethics while maintaining that there are also fundamental differences and that these differences should be welcomed by human rights theorists and advocates The book s intended audience is primarily post graduate students and professional academics in the fields of Human Rights Ethical Philosophy and Islamic Studies modern Islamic thought Sufism Islamic theology Islamic Philosophy and Traditionalism It will also appeal to anyone interested in the subject of Islam and modernity in general and Islam and human rights in particular
