Swords In The North:

Swords in the North Paul Anderson,1957 *Swords from the North* Henry Treece,1967 **The Swords of Britain** Ian Colquhoun,Colin Burgess,1988 *Bronze Age Settlement and Land-Use in Thy, Northwest Denmark (Volume 1 & 2)* Jens-Henrik Bech,Kristian Kristiansen,Berit Valentin Eriksen,2018-06-04 This two volume monograph about the region of Thy in the early Bronze Age provides a high resolution archaeological and ecological model of the organisation of landscape settlements and households during the period 1500 1100 BC Bordering the North Sea to the west and the calmer waters of the Limfjord to the east the region of Thy in Denmark experienced four centuries of intense economic and demographic expansion By combining results from environmental and economic research pollen and palaeo botanical analyses with intensive field surveys and excavations of farmsteads with exceptional preservation it has been possible to open a window to the changes that transformed Bronze Age society and its environment during a few centuries of exceptional expansion and wealth consumption The results from this interdisciplinary venture made it possible to link together the histories of local farmsteads with the wider regional and global history of the Bronze Age in North western Europe during this period Here is much to feed on for students and researchers of the Bronze Age alike *Technologies of Enchantment?* Duncan Garrow,Chris Gosden,2012 This volume connects Celtic art to its archaeological context looking at how it was made used and deposited Based on a comprehensive database it brings together current theories concerning the links between people and artefacts arguing that Celtic art was used to negotiate social position and relations in an unstable Iron Age world

Catalogue of European Court Swords and Hunting Swords Including the De Dino, Riggs, and Reubell Collections Bashford Dean,1929-01-01 This volume describes and illustrates the group of court swords and hunting swords that form part of the collection of arms exhibited by The Metropolitan Museum of Art The text describes the different types of swords and daggers and provides useful charts and illustrations that promote an understanding of the objects in their original context **County Folk-lore: no. 4. Butler,1963 Local Societies in Bronze Age Northern Europe Nils Anfinset,Melanie Wigglesworth,2014-10-14 This book aims to understand the process of the Bronze Age societies of Northern Europe which are often regarded as the periphery and a bleak contrast to the Central European Bronze Age The Bronze Age is the first globalised period with new types of societies and new modes of exchange and trade In this context there is considerable local variation and diversity within the Bronze Age societies of Northern Europe which is poorly understood although there have been advances and changes in this research Therefore this book challenges some of the mainstream opinions on the Bronze Age of Northern Europe and focus on local and regional aspects This is done by a series of articles from significant contributors that deal with these issues on theoretical and empirical levels with regards to differences cultural dualism boundaries regions and regionality in a period of increased globalisation The result is a

movement away from local and regional aspects toward communications travels and contacts between northern Europe and the greater world not only towards Central Europe and the Near East but also towards the east Northern Arctic Europe is often left out in these discussions and this book will contribute to this greater picture of the Bronze Age world *Knives and Swords* DK,2010-03-15 *Knives and Swords* is a highly visual gift book for anyone with an interest in the history of swords and other edged weapons Split into five main chapters arranged by type the book showcases more than 300 different weapons including swords knives daggers bayonets axes and staff weapons in a catalog style format But the book offers far more than this To help place the weapons in their historical context the book includes special features on key warriors from crusader knights to US Marines and their signature weapons Spotlight spreads provide an in depth analysis of a selection of the most historically significant bladed weapons such as the Renaissance stiletto or the Native American tomahawk And in addition to chapters covering conventional weapons of war there are also sections devoted to ceremonial weapons from sacrificial knives to presentation daggers and blades developed for specialist roles such as hunting knives and firearm combination blades
