Symbol And Image In Celtic Religious Art:

Symbol and Image in Celtic Religious Art Miranda Green, 2003-10-03 In *Symbol and Image in Celtic Religious Art* Miranda Green argues that only by deciphering their complex systems of images and symbols can we uncover the realities of Celtic life and belief in Europe before and during the Roman period She explores a number of iconographic themes in depth and examines the tribal and regional differences in artistic cult expression to reveal the very varied concepts embraced by anthropomorphic imagery Discussion ranges from the artistic expression of animal cults and that of natural forces to the effect of religious belief on artistic style and Miranda Green argues that stylistic features such as emphasis and exaggeration express the religious viewpoint of Celtic patrons and artists

Symbol and Image in Celtic Religious Art Miranda Jane Green, 2003 *Symbol and Image in Celtic Religious Art* Miranda Jane Aldhouse-Green, 1994

The Concept of the Goddess Sandra Billington, Miranda Green, 2002-09-11 The *Concept of the Goddess* explores the function and nature of goddesses and their cults in many cultures including Celtic Roman Norse Caucasian Japanese traditions The contributors explore the reasons for the existence of so many goddesses in the mythology of patriarchal societies and show that goddesses have also assumed more masculine roles with war hunting and sovereignty being equally important aspects of their cults

Dictionary of Celtic Religion and Culture Bernhard Maier, 1997 This dictionary with more than 1000 articles provides a comprehensive survey of all important aspects of Celtic religion and culture covering both the prehistoric continental Celts and the later medieval culture that found written form long after the Celts had settled in the British Isles Articles in the dictionary also cover the interaction between Celtic and Roman civilisations and the seminal input of medieval Celtic legend into the Arthurian tradition The continental and insular Celtic languages both ancient and modern are described and there is a full account of the Celtic deities known to us from the inscriptions and iconography of the classical world Celtic art and agriculture the Ossian myth the Irish Renaissance and the history of Celtic studies are among other areas treated in depth

An Archaeology of Images Miranda Aldhouse Green, 2004-08-02 Using archaeology and social anthropology and more than 100 original line drawings and photographs *An Archaeology of Images* takes a fresh look at how ancient images of both people and animals were used in the Iron Age and Roman societies of Europe 600 BC to AD 400 and investigates the various meanings with which images may have been imbued The book challenges the usual interpretation of statues reliefs and figurines as passive things to be looked at or worshipped and reveals them instead as active artefacts designed to be used handled and broken It is made clear that the placing of images in temples or graves may not have been the only episode in their biographies and a single image may have gone through several existences before its working life was over Miranda Aldhouse Green examines a wide range of other issues from gender and identity to foreignness enmity and captivity as well as the significance of the materials used to make the images The result is a comprehensive survey of the multifarious functions and experiences of images in the communities that produced and consumed them Challenging many previously

held assumptions about the meaning and significance of Celtic and Roman art An Archaeology of Images will be controversial yet essential reading for anyone interested in this area

The Orphans of Carmarthen W. B. Baker, 2001-07-02 A beautiful tale about an equally majestic culture effortlessly revealed by a writer with a masterful command of language Best of Carmarthen Carmarthen Wales A fantastic novel and a must read for any native of Wales Not only are the characters of the people and land portrayed in beautiful lyrical writing the spirit of Wales becomes very nearly tangible in this great novel This work is replete with local superstitions myths and legends giving the reader a clear insight into the heart and mind of a nation Dragons Under Carmarthen Westminster England A stunning depiction of post Roman Wales The Orphans of Carmarthen captures the natural magic of the rolling countryside The author is a master of exposition using words to great effect in painting the poverty and beauty of post Roman Carmarthen His knowledge of the local superstitions myths and archaeological evidence is remarkably thorough and woven throughout the adventures of the small boy and his dog Having been to Carmarthen on several occasions this book touched the familiar fond memories and painted the hills along the Towy as well as any artist might have done While pastoral and tranquil in depicting the love between the pair the battle of the dragons was nothing short of spectacular a compelling depiction of pre Christian Wales The author triumphs in creating a work of fiction entirely appropriate to the historical environment while embracing the regional superstitions and legends of a long forgotten age Gary Mitchell SPX Emrys then turned for one last glance and glimpse of the majestic grappling dragons How eloquently their unspoken wrath pronounced the finite matched confrontation of evil and good how gloriously their encapsulated metaphor for mastery simply diminished all the earth both above and here beneath Here was in simile the eternal struggle all men fought played out in bloody violent terms the whole of humankind might understand A battle that Emrys surmised neither the red nor white would ever win the character of each defined within and perhaps only by the confines of their struggle Perchance the pair were true champions of the gods with no purposed intent other than to fight surviving but to hold the other one at bay their existence only ratified in that the crimson was everything the white one realised he was not and conversely the ashened dragon only what the red might never be As he turned to take his leave Emrys pondered if either was truly virtuous or depraved if character even among beasts might be so easily resolved

Neither yielded when in pain nor took advantage when its opponent fell as if each knew full well that one without the other must but eventually die Only through their magnificent struggle was strength actually verified only in this savage conflict was the character of each truly defined The regions of Wales have long been the source of timeless legends stories that somewhere in mankind s memory and dreams might well be based in fact Just such a legend is the ancient account of a fatherless boy who lived near Carmarthen an orphaned child who shunned the companionship of men who lived among wizards and fantastic dragons whose solitary life changed the course of one nation s destiny The counties of Clwyd Dyfed Gwent Powys and Gwynedd are as distinct in features as the five oceans while remaining as inseparable in character as the five points of a single star Likewise the separate valleys of Glamorgan while sharing a common inclusive mythological history distinguish themselves from each other within the specifics of folklore and legend The Orphans of Carmarthen concerns itself with the sociological and religious climate of the Towy

Flawed Commanders and Strategy in the Battles for Italy, 1943-45 Andrew Sangster,Pier Paolo Battistelli,2023-02-23 The authors offer a very different perspective on this campaign and are very frank in their assessment of the performance of the Allies and Germans on many levels New York Journal of Books Wars never run according to plan perhaps never more so than during the Italian campaign 1943 45 where necessary coordination between the different armies added additional complexity to Allied plans Errors in the strategies tactics the coalition tensions and operations at campaign command level can clearly be seen in firsthand accounts of the period This new account examines the Italian campaign from Sicily to surrender in 1945 exploring the strategy

intentions motives plans and deeds It then offers a detailed insight into the five commanders who led the battles in Italy the two British commanders Montgomery and Alexander two American Patton and Clark and the leading German commander Field Marshal Kesselring Their personal notes and accounts taken alongside archival material provides some surprising conclusions Montgomery was not quite the master of war he is portrayed as Patton had serious flaws exposed by wasting men s lives to save a relative and overlooking the shooting of prisoners of war Clark lost lives to bolster his image Alexander the gentleman was far too vague to be effective as a senior leader Meanwhile condemned war criminal Kesselring appears to be the most efficient and also like Alexander one of the most popular leaders **The Flying Grunt** Alan E.

Taliesin John Matthews, 2002-04 Taliesin Chief Bard of Britain and Celtic shaman was a historical figure who lived in Wales during the latter half of the sixth century His verse is established as a direct precursor to the Arthurian Legends and Taliesin himself is said to be the direct forebear to Merlin The author presents completely new translations of Taliesin's major poems in their entirety uncovering the meanings behind these great works for the first time Sacred Landscapes in Antiquity Ralph Haussler, Gian Franco Chiaia, 2020-07-31 From generation to generation people experience their landscapes differently Humans depend on their natural environment it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities such as droughts famines floods and landslides need to be appeased We presume that in many societies lakes rivers rocks mountains caves and groves were considered sacred Individual sites and entire landscapes are often associated with divine actions mythical heroes and etiological myths Throughout human history people have also felt the need to monumentalize their sacred landscape But this is where the similarities end as different societies had very different understandings beliefs and practices The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi disciplinary approach More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it We see the role of performance ritual orality textuality and memory in people's sacred landscapes A diachronic view allows us to study how landscapes were rewritten adapted and redefined in the course of time to suit new cultural political and religious understandings not to mention the impact of urbanism on people's understandings A key question is how was the landscape manipulated transformed and monumentalized especially the colossal investments in monumental architecture we see in certain socio historic contexts or the creation of an alternative humanmade seemingly non natural landscape with perfectly astronomically aligned buildings that define a cosmological order Sacred Landscapes therefore aims to analyze the complex links between landscape religiosity and society developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic holistic contextual and historical perspective **Dictionary of Gods and Goddesses** Michael Jordan, 2014-05-14 Presents brief entries describing the gods and goddesses from the mythology and religion of a wide variety of cultures throughout history **TRAC 2000** Gwyn Davies, Andrew Gardner, Kris Lockyear, 2017-06-30 Thirteen papers on Roman archaeology from the 10th TRAC conference in London The tenth Theoretical Roman Archaeology

Conference was held in April 2000 at the Institute of Archaeology As the conference was divided into five different sessions In the opening session Representing Romans the methodology of portraying the Romans to the wider world was explored Hunter and Clarke's paper outline the challenge of designing appropriate gallery displays for the new National Museum of Scotland whereas Grew discusses the development of Roman London Fincham's paper discusses the threat of overwhelming military intervention by the imperial power in colonial negotiations Issues of ethnicity gender class and occupation within the later Roman army are addressed here Green's paper presents an important discussion of the nature of human stag hybrids in iron Age and Gallo Roman iconography and Hawkes presents an analysis of differential foodways preparing and serving meals encountered in Roman Britain Carr considers the role of body decoration and grooming arguing that individuals in different areas of south eastern Roman Britain made different cultural choices to structure their ethnic identities The final set of papers focused on Constructing Childhood in the Roman World reconsidering some long standing truisms regarding the status and treatment of children in the Roman context Pearce's examines Roman infant burial and what role religion plays in burial ceremony
