Knapp, 2017-02-03 Psychology as the Discipline of Interiority is the first collection of essays dedicated to the study and application of Psychology as the Discipline of Interiority a new wave within Analytical Psychology which pushes off from the work of C G Jung and James Hillman The book reflects upon the notion of psychology developed by German psychoanalyst Wolfgang Giegerich whose Hegelian turn sheds light on the notion of soul or psyche and its inner logic and thought forming a radical new basis from which to ground a modern psychology with soul The book's theme the psychological difference is applied to topics including analytical theory clinical practice and contemporary issues ranging from C G Jung's *Mysterium* to case studies to the nuclear bomb and the Shoah Psychology as the Discipline of Interiority expounds upon the complexity depth and innovativeness of Giegerich's thought reflecting the various ways in which international scholars have creatively explored a speculative psychology founded upon the notion of soul The contributors here include clinical psychologists Jungian analysts and international scholars With a new chapter by Wolfgang Giegerich and a foreword by David Miller Psychology as the Discipline of Interiority will be essential reading for depth and clinical psychologists Jungian psychoanalysts in practice and in training and academics and students of post Jungian studies It is also relevant reading for all those interested in the history of philosophical thought and what it means to think in the highly sophisticated and technological world of the twenty first century *The Social Pathologies of Contemporary Civilization* Kieran Keohane, 2016-03-03 The Social Pathologies of Contemporary Civilization explores the nature of contemporary malaises diseases illnesses and psychosomatic syndromes examining the manner in which they are related to cultural pathologies of the social body Multi disciplinary in approach the book is concerned with questions of how these conditions are not only manifest at the level of individual patients bodies but also how the social bodies politic are related to the hegemony of reductive biomedical and individual psychologistic perspectives Rejecting a reductive biomedical and individualistic diagnosis of contemporary problems of health and well being The Social Pathologies of Contemporary Civilization contends that many such problems are to be understood in the light of radical changes in social structures and institutions extending to deep crises in our civilization as a whole Rather than considering such conditions in isolation both from one another and from broader contexts this book argues that health and well being are not just located at the level of the individual body the integral human person or even collective social bodies rather they encompass the health of humanity
