Van Wie, 1999 *Image History and Politics* The Coinage of Modern Europe examines money as a medium of communication laden with artistic and political meaning by studying the last two hundred years of European coinage This book explores the political economic and aesthetic messages carried by coinage therefore providing a special realm in which to view and constantly reevaluate major political and economic developments from the French Revolution through the Cold War with occasional comparative references to earlier time periods The study generally focuses on the pre 1914 Great Powers of Europe France Germany Britain Russia the Hapsburg Monarchy and Italy along with a brief comparative examination of the coinage of Spain Switzerland and Belgium The author demonstrates how every political system consciously or unconsciously constructs a set of symbols as an expression of itself with its coinage enabling historians and social scientists to synthesize political economic and artistic meaning in a historical context **Savage Money** C.A. Gregory, 2005-08-02 This volume is not simply another general

theory of world system It is a theoretically and ethnographically informed collection of essays which opens up new questions through an examination of concrete cases covering global and local questions of political economy Nineteenth Century Prose ,1997 *Home and Homeland* Linda L. Layne,2019-01-15 In this provocative examination of collective identity in Jordan Linda Layne challenges long held Western assumptions that Arabs belong to easily recognizable corporate social groups Who is a true Jordanian Who is a true Bedouin These questions according to Layne are examples of a kind of pigeonholing that has distorted the reality of Jordanian national politics In developing an alternate approach she shows that the fluid social identities of Jordan emerge from an ongoing dialogue among tribespeople members of the intelligentsia Hashemite rulers and Western social scientists Many commentators on social identity in the Middle East limit their studies to the village level but Layne s goal is to discover how the identity building processes of the locality and of the nation condition each other She finds that the tribes creates their own cultural homes through a dialogue with official nationalist rhetoric and Jordanian urbanites while King Hussein in turn maintains the idea of the homeland in many ways that are powerfully influenced by the tribespeople The identities so formed resemble the shifting irregular shapes of postmodernist landscapes but Hussein and the Jordanian people are also beginning to use a classically modernist linear narrative to describe themselves Layne maintains however that even with this change Jordanian identities will remain resistant to all or nothing descriptions Linda L Layne is Alma and H Erwin Hale Teaching Professor of Humanities and Social Sciences in the Department of Science and Technology Studies at Rensselaer Polytechnic Institute Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Media Sport Stars* Garry Whannel,2005-07-08 *Media Sport Stars* considers how masculinity and male identity are represented through images of sport and sport stars From the pre radio era to today s specialist TV channels newspaper supplements and websites Whannel traces the growing cultural importance of sport and sportmen showing how the very practices of sport are still bound up with the production of masculinities Through a series of case studies of British and American sportsmen Whannel traces the emergence of of the sporting hero and star and considers the ways in which the lives of sport stars are narrated through the media Focusing on figures like Muhammad Ali and David Beckham whose fame has spread well beyond the world of sport he shows how growing media coverage has helped produced a sporting system and examines how modern celebrity addresses the issues of race and nation performance and identity morality and violence From Babe Ruth to Mike Tyson *Media Sport Stars* demonstrates that in an era in which both morality and masculinity are perceived to be in crisis sport holds a central place in contemporary culture and sport stars become the

British Royal and State Funerals Matthias Range, 2016 The first in depth study of the ceremonial and music performed at British royal and state funerals over the past 400 years British royal and state funerals are among the most elaborate and solemn occasions in European history This book is the first in depth study of the ceremonial and the music performed at these events over the past 400 years from the funeral of Elizabeth I in 1603 Covering funerals of both royalty and non royalty including Nelson Wellington and Churchill this study goes up to the funerals of Queen Elizabeth The Queen Mother in 2002 and the ceremonial funeral of Baroness Thatcher in 2013 While some of these funerals have received a good deal of attention especially the 1997 funeral of Diana Princess of Wales these extraordinary events have largely not been discussed in their longer historical context The book examines the liturgical changes in the Anglican funeral rite since the Reformation and also the change from the so called public to private funerals It includes many new findings on the development of the ceremonial and its intricate peculiarities as well as new insights into the music and its performance British Royal and State Funerals shows that despite a strong emphasis on continuity in the choice of music the ceremonial itself has shown an astonishing

flexibility over the last four centuries Overall the book also contributes to the debate on the monarchy's changing public image over time by paying particular attention to topics such as tradition and propaganda Drawing on substantial research in principal libraries and archives including those of Westminster Abbey the College of Arms Lambeth Palace and the British Library this book is an exhaustive resource for musicologists musicians and historians alike providing an unprecedented insight into this most sombre of royal and state occasions MATTHIAS RANGE is author of Music and Ceremonial at British Coronations 2012 He is a post doctoral researcher for the Digital Image Archive of Medieval Music and its partner AHRC funded Tudor Partbooks project at the Faculty of Music University of Oxford Dictionary of Concepts in Cultural

Democratic Royalism W. Kuhn, 1996-10-04 In the decades before the First World War no British institution epitomised national identity more forcefully than the monarchy and no other institution inspired such a universal feeling of loyalty and attachment The crown reached this position in the half century after 1861 by giving up its residual political power to a more powerful and more representative House of Commons and transforming itself into a powerfully symbolic institution by concentrating its efforts on ceremony The politicians who transformed the monarchy in an era of mass politics mass movements and massive ceremonial displays constituted a cross section of the political world What were these men doing What was in their minds as they planned enormous royal spectacles in London This book focuses on the action of five different individuals who created the modern monarchy Walter Bagehot W E Gladstone Lord Esher Randall Davidson and the Duke of Norfolk **Pax Britannica: British Counterinsurgency In Northern Ireland, 1969-1982** Montgomery McFate, 2014-12-22 British forces conducted operations short of war in Northern Ireland for twenty five years yet they were unable to defeat the Provisional Irish Republican Army PIRA In this heretofore unpublished dissertation from 1994 McFate identifies how certain cultural legal and political factors contributed to the longevity of violence in Northern Ireland Viewing

counterinsurgency as a self reproducing cultural system with its own complex logic McFate argues that limitations on violence prescribed by the counterinsurgency principle of minimum force paradoxically resulted in a very high degree of sustainability of conflict Certain other factors such as emergency security legislation reverence of military competence and geo strategic compression of violence within a cordon sanitaire enabled normalization and reproduction of the conflict In opposition to this order the 1981 Republican hungerstrikes used the silence of the body to incriminate the state embodying a resistance to the war system of counterinsurgency **Impersonal Power** Heide Gerstenberger,2007 In this volume Heide Gerstenberger investigates the development of bourgeois state power by on the one hand proposing a critique of different variants of the structural functionalist theory of the state and on the other hand analysing the examples of England and France The central thesis of the work is that the bourgeois form of capitalist state power arose only where capitalist societies developed out of state structures that were already rationalised
