**Symbolism Revisited** Edgar J. Ridley, 2001      Changing the Way We Manage Change Ronald R. Sims, 2002-06-30 To cope with the chaotic new business environment organizations must find ways to manage the problems of change but also the process of change itself Yesterday's solutions are obsolete Innovative solutions are rare yet even the best require not only the efforts of individuals but other agents as well Sims sees change agents throughout any organization and at all levels line and staff people human resource specialists and those who have hitherto had little reason to tackle such tasks and have not been accountable for their outcomes Unique models are presented for change interventions along with techniques and tools that executives need to accomplish them The result is a book that experienced executives will understand and utilize but also one that will bring novices up to speed providing new ways to use their own instincts and capabilities for innovation Sims and his contributors challenge the traditional prescription for creating change providing a compelling critique of accepted approaches to change management highlighting the strengths of these approaches and emphasizing what can be extracted to foster change Each author provides insights into the competencies skills and values required for the rapid and successful creation of lasting change In doing so they also reemphasize that there is no universal approach to change management and that the need for innovation flexibility and adaptability remains dominant      **Symbolism Revisited** Edgar J. Ridley, 2001

**Bibliographic Index**, 2006      *The Golden Apple* Edgar J. Ridley, 2008 This book demonstrates how the experts in the cognitive sciences including all fields of anthropology misrepresent how symbols affect the neurological processes of the human brain The author shows that the traditional belief that symptoms are inferior to symbols is erroneous and that this belief has caused unspeakable cruelty and conflict the world over The book details how although traditional scholarship maintains that thinking symptomatically obstructs our ability to reach the root cause of problems nothing could be further from the truth The author brilliantly details how that mistaken understanding of the dynamics between symbols and symptoms has caused a confusion that impedes authentic and healthy behavior leading to destructive decisions that have produced unparalleled harm in today's world This book displays the destructive nature of symbolic thought and how that symbolic thought has affected human behavior in every area of human activity Provided by publisher      **American Book Publishing Record**, 2001      **Subject Guide to Books in Print**, 1991      **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004      **Landscapes of Postmodernity** Petra Eckhard, Michael Fuchs, Walter W. Holbling, 2010 In *Landscapes of Postmodernity* a group of young scholars link key concepts of postmodern thought to our present everyday experience in which we change our identities on a regular basis While many of the essays look at less conventional modes of aesthetic representation computer games graphic novels telenovelas queer and animated films others analyze more canonical works following less conventional approaches Either way the cultural and literary cartographies presented in this book allow America to be conceived as polymorphous or transnational celebrating a new American self that is aware and proud of its non

Anglo Saxon origins      New Developments in Consciousness Research Vincent W. Fallio, 2007 Consciousness is a quality of the mind generally regarded to comprise qualities such as subjectivity self awareness sentience sapience and the ability to perceive the relationship between oneself and one's environment It is a subject of much research in philosophy of mind psychology neurology and cognitive science This book gathers a compilation of new and significant research on many facets of consciousness research These include memory studies evolution of consciousness paranormal experiences phenomenal consciousness meditation human emotion and psychopathology      **Worlds Apart** Benjamin Paloff, 2025-04-29 A number of European authors who survived concentration camps ghettos and besieged cities in the middle of the twentieth century chose not to write straightforward memoirs or testimonials but instead to fictionalize their experiences By manipulating narrative time and point of view and altering biographical facts these writers produced literary texts that challenge common notions of what constitutes an appropriate representation of collective trauma How might such works provide a deeper understanding of historical truth than the facts alone What does the literature of the camps reveal about present day spaces of confinement Worlds Apart explores the ethics of representation by reading the works of writers who use the techniques of literary fiction to depict survival in these precarious spaces Benjamin Paloff traces the complex relationship between fact and truth in these texts disentangling writers' individual experiences from fictional elements that universalize that experience and in so doing show the camp to be an institution of the present Touring the unusual genre conventions of these works he weighs crucial questions about what constitutes truth in historical representation literature and the popular imagination Reading across Czech French German Polish Russian and Yiddish including lesser known and untranslated works Paloff considers portrayals of the Shoah the Gulag the Warsaw Ghetto Uprising and the blockade of Leningrad Bold nuanced and rich in comparative insight Worlds Apart argues forcefully for the moral urgency of recognizing that the camp is not simply a historical artifact but a basic institution of contemporary society      Central European Judges Under the European Influence Michal Bobek, 2015-11-19 The onset of the 2004 EU enlargement witnessed a number of predictions being made about the approaches capacity and ability of Central European judges who were soon to join the Union Optimistic voices foreshadowing the deep transformative power that Europe was bound to exercise with respect to the judicial mentality and practice in the new Member States were intertwined with gloomy pictures of post Communist limited formalism and mechanical jurisprudence that could not be reformed which were likely to undermine the very foundations of mutual trust and recognition the judicial system of the Union is built upon Ten years later this volume revisits these predictions and critically assesses the evolution of Central European judicial mentality institutions and constitutionality under the influence of the EU membership Comparatively evaluating the situation in a number of Central European Member States in their socio legal contexts notably Poland the Czech Republic Slovakia Hungary Slovenia Bulgaria and Romania the volume offers unique insights into the process of non Europeanisation of national legal systems and cultures      **Readings in Ritual Studies**
