[Myth and Symbol II](#) Synnøve Des Bouvrie,2004

*Classification, Origin, Diffusion and History of the Olive* Giorgio Bartolini,Raffaella Petruccielli,Food and Agriculture Organization of the United Nations,2002-01-01 The olive is one of the oldest type of fruit trees in the Mediterranean area and was one of the first species to be cultivated However despite its long history there are still many aspects of its development that have not been sufficiently explored and these include the distribution of the species and its taxonomy This publication reviews its origin and classification in order to provide a foundation for further research about this plant

*Classical Myth Symbolism* Emma Johnson,AI,2025-05-05 Classical Myth Symbolism explores how ancient Greek and Roman myths encode fundamental truths about humanity and society It examines these narratives for symbolic patterns reflecting social order the natural world and psychological archetypes offering a fact based analysis rooted in historical context The book argues that myths when viewed

as symbolic systems provide valuable insights into the foundations of human societies and psychology For example myths often legitimized social hierarchies through tales of gods and heroes revealing embedded power dynamics The book progresses by first defining key terms and outlining the methodological framework then dedicating subsequent sections to the core themes One section focuses on how myths legitimize social hierarchies another on the personification of nature and the third on psychological archetypes This approach distinguishes Classical Myth Symbolism by avoiding speculative interpretations and focusing on objective symbolic patterns By understanding these patterns readers can gain a deeper appreciation of art literature and culture as well as insights into personal growth

MIHĂILĂ, 2019-01-01 The present volume insists on the policies derived from the social ideas generated by myths the updating of myths as an arsenal of social pedagogy on the ethnic condition of the relevance of myths but also on the resumption by mass media of the pejorative sense of the myth This volume is part of the scientific series Mythology and Folklore

*The Neurobiology of the Gods* Erik D. Goodwyn, 2012-03-15 Where does science end and religion begin Can spiritual images and feelings be understood on a neurobiological level without dismissing their power and mystery In this book psychiatrist Erik Goodwyn addresses these questions by reviewing decades of research putting together a compelling argument that the emotional imagery of myth and dreams can be traced to our deep brain physiology and importantly how a sensitive look at this data reveals why mythic or religious symbols are indeed more godlike than we might have imagined The Neurobiology of the Gods weaves together Jungian depth psychology with research in evolutionary psychology neuroanatomy cognitive science neuroscience anthropology mental imagery dream research and metaphor theory into a comprehensive model of how our brains contribute to the recurrent images of dreams myth religion and even hallucinations Divided into three sections this book provides definitions and foundations an examination of individual symbols conclusive thoughts on how brain physiology shapes the recurring images that we experience Goodwyn shows how common dream myth and religious experiences can be meaningful and purposeful without discarding scientific rigor The Neurobiology of the Gods will therefore be essential reading for Jungian analysts and psychologists as well as those with an interest in philosophy anthropology and the interface between science and religion
