Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences:

Syntactic Phrase Structure Phenomena in Noun Phrases and Sentences Christa Bhatt, Elisabeth Löbel, Claudia Maria Schmidt, 1989-01-01 The main topic of this volume is the phrase structural analysis of noun phrases and sentences This analysis is based on recent ideas within the Government and Binding framework and makes crucial use of such modules as Theta assignment Binding Theory Case assignment as well as different definitions of the notion Barrier The ten papers deal with certain aspects of English and German noun phrases

English Noun Phrases from a Functional-Cognitive Perspective Lotte Sommerer, Evelien Keizer, 2022-01-15 Despite a significant increase in interest over the last two decades in the English Noun Phrase there are still many open questions and unexplored issues The papers collected in this volume contribute to this ongoing research by addressing a range of topics concerning the internal structure use and development of English Noun Phrases The eleven chapters represent three main themes 1 Determination modification and complementation 2 Shell nouns and the X is construction 3 Binominal constructions These topics are approached in different ways some chapters are synchronic in nature others diachronic and while most subscribe to functional cognitive modelling some take a more formal approach In addition different methodologies are employed varying from qualitative and quantitative corpus analyses to experimental methods As a result the contributions to this volume represent both the main topics currently discussed in research on the English Noun Phrase and the diversity in the way these topics are investigated

German: Syntactic Problems - Problematic Syntax Werner Abraham, Elly van Gelderen, 2017-10-10 The volume assembles eleven articles presenting a linguistic approach to the grammar of German English and the diachronic forerunners of English Common to all is a theoretical discussion against the background of Chomskyan minimalism 1993 and more recent developments of it Kayne 1993 Chomsky 1995 all of which make language typology comparisons an interesting proposition Some of the articles are critical of certain aspects of these theoretical approaches For all their claims to descriptive universality it transpires that they fail to address a number of features specific to German

Syntax, semantics, and the lexicon Łukasz Jędrzejowski, Uwe Junghanns, Kerstin Schwabe, Carla Umbach, 2025-05-20 This book is dedicated to Ilse Zimmermann who was a pioneer of Generative Grammar in Germany and made important contributions to the analysis of German and Slavic languages It contains original articles by Zimmermann as well as newly written papers inspired by her work Zimmermann's original articles cover a wide range of topics over a long period of research the earliest dating from 1983 and they make it clear that issues that are highly topical today have long been the subject of linguistic research The newly written papers are closely related to Zimmermann's topics ranging from DP structure verbal inflection and reciprocity to the modification of causative verbs all from a Slavic perspective They are rounded off by a contribution highlighting the leading role played by the Strukturelle Grammatik research group of which Zimmermann was a member in the development of linguistics in Germany Dieses Buch ist Ilse Zimmermann gewidmet die eine Pionierin der Generativen Grammatik in

Deutschland war und wichtige Beiträge zur Analyse des Deutschen und der slawischen Sprachen geleistet hat. Es enthält sowohl Originalartikel von Zimmermann als auch neu verfasste Beiträge, die durch ihre Arbeit inspiriert wurden. Zimmermanns Originalartikel decken ein breites Spektrum von Themen in einem langen Forschungszeitraum ab, der frühestens datiert aus dem Jahr 1983 und sie machen deutlich, dass Fragen, die heute hochaktuell sind, schon lange Gegenstand der linguistischen Forschung sind. Die neu verfassten Kapitel stehen in engem Zusammenhang mit Zimmermanns Themen. Sie reichen von der DP-Struktur über verbale Flexion und Reziprozität bis hin zur Modifikation kausativer Verben, alles aus slawischer Perspektive. Abgerundet werden sie durch einen Beitrag, der die führende Rolle der Forschungsgruppe Strukturelle Grammatik, deren Mitglied Zimmermann war, für die Entwicklung der Linguistik in Deutschland hervorhebt.

The Semantics of Prepositions Cornelia Zelinsky-Wibbelt, 2011-09-06. No detailed description available for *The Semantics of Prepositions*.

Balkan Syntax and Semantics Olga Mišeska Tomić, 2004-01-01. The book deals with some syntactic and semantic aspects of the shared Balkan Sprachbund properties. In a comprehensive introductory chapter, Tomić offers an overview of the Balkan Sprachbund properties. Sobolev, displaying the areal distribution of 65 properties, argues for dialect cartography. Friedman, on the example of the evidentials, argues for a typologically informed areal explanation of the Balkan properties. The other contributions analyze specific phenomena: polidefinite DPs in Greek and Aromanian (Campos and Stavrou), Balkan constructions in which datives combine with impersonal clitics or non-active morphology (Rivero), Balkan optatives (Ammann) and Auwera, imperative force in the Balkan languages (Isac and Jakab), clitic placement in Greek imperatives (Bošković), focused constituents in Romanian and Bulgarian (Hill), synthetic and analytic tenses in Romanian (Dulst), Coene and Avram, purpose-like modification in a number of Balkan languages (Burovska), Balkan modal existential wh-constructions (Grosu), child and adult strategies in interpreting empty subjects in Serbian (Croatian) (Stojanović and Marelj), conditional sentences in Judeo-Spanish (Montoliu and Auwera).

Syntactic Categories Gisa Rauh, 2010-06-03. This book offers a systematic account of syntactic categories, the building blocks of sentences and the units of grammatical analysis and explains their place in different theories of language. It sets out and clarifies the conflicting definitions of competing frameworks, which frequently make it hard or impossible to compare grammars. Gisa Rauh describes the history and nature of traditional and contemporary accounts and definitions of grammatical categories. She explains their properties and use in generative, cognitive and functional theories and considers their function in language typology. She distinguishes between the cognitive functions of categories that relate to traditional parts of speech and serve to structure a language's lexicon and those which determine the syntactic behaviour of the linguistic items they specify. Professor Rauh illustrates her account with a wide range of examples. Her clear and balanced exposition will be welcomed by students and scholars in all branches of linguistics as well as by those in related subjects such as computational science and the philosophy of language.

Syntactic architecture and its consequences II András Bárány, Theresa Biberauer, Jamie Douglas, Sten Vikner

,2020-12-30 This volume collects novel contributions to comparative generative linguistics that rethink existing approaches to an extensive range of phenomena domains and architectural questions in linguistic theory At the heart of the contributions is the tension between descriptive and explanatory adequacy which has long animated generative linguistics and which continues to grow thanks to the increasing amount and diversity of data available to us The chapters address research questions in comparative morphosyntax including the modelling of syntactic categories relative clauses and demonstrative systems Many of these contributions show the influence of research by Ian Roberts and collaborators and give the reader a sense of the lively nature of current discussion of topics in morphosyntax and morphosyntactic variation The Syntax of

Relative Clauses Artemis Alexiadou,2000-01-01 This book presents a cross section of recent generative research into the syntax of relative clauses constructions Most of the papers collected here react in some way to Kayne s 1994 proposal to handle relative clauses in terms of determiner complementation and raising of the relativized nominal The editors provide a thorough introduction of these proposals their background and motivations arguments for and against There are detailed studies in the syntax and the semantics of relative clauses constructions in Latin Ancient Greek Romanian Hindi Old English Old High German dialects of Dutch Turkish Swedish and Japanese The book should be of interest to any linguist working within generative syntax **Finiteness** Irina Nikolaeva,2007 This book explores the nature of finiteness one of most commonly used notions in descriptive and theoretical linguistics but possibly one of the least understood Scholars representing a variety of theoretical positions seek to clarify what it is and to establish its usefulness and limitations In doing so they reveal cross linguistically valid correlations between subject licensing subject agreement tense syntactic opacity and independent clausehood show how these properties are associated with finiteness and discuss what this means for the content of the category The issues explored include how different grammatical theories represent finiteness whether the finite nonfinite distinction is universal whether there are degrees of finiteness whether the syntactic notion of finiteness has a semantic corollary whether and how finiteness is subject to change and how finiteness features in language acquisition Irina Nikolaeva opens the book by describing the history of finiteness and its place in current thinking and research She then introduces the chapters of the book comparing the authors perspectives and showing what they have in common The book is then divided into four parts Part I considers the role finiteness plays in formal syntactic theories and Part II its deployment in functional theories and as the subject of research in typology Parts III and IV look respectively at the finite nonfinite opposition in individual languages and at the role finiteness plays in linguistic change and linguistic development The book is written and structured to appeal to scholars and students of syntax and general linguistics at graduate level and above **A**

Phi-Syntax for Nominal Concord Marco Benincasa,2018-03-26 The book focusses on the grammatical feature definiteness in German visible in the inflection of adjectives ein sch n es Kind vs das sch n e Kind It argues for an analysis of this effect that draws a connection to the visible categories of number and gender on nouns and related words rather than an abstract

property This conclusion rests on the conflation of the established grammatical categories into a single one number gender which explains a vast body of grammatical phenomena in German and principles of language in general

Possessors, Predicates, and Movement in the Determiner Phrase Artemis Alexiadou, Chris Wilder, 1998-01-01 This volume presents a cross section of current research on the internal syntax of Determiner Phrases DPs with special emphasis on the analysis of DPs modified by genitival adjectival and other non finite attributes Possessors Predicates and Movement in the DP illustrates clearly the ongoing debate over older and more recent approaches to the syntax of DPs in particular in the wake of the minimalist program Chomsky 1995 and Kayne s antisymmetry hypothesis Kayne 1994 The relative theoretical coherence among the contributions permits detailed comparison of specific syntactic proposals providing a solid basis for further debate Several of the papers address the syntactic questions in parallel with related semantic or morphological issues The value of this collection to the study of Universal Grammar is also underlined by its comparative bias Analyses of Germanic Romance and Balkan languages figure prominently and a number of new empirical generalizations within and between languages are discussed

Verbal Complexes Hilda Judith Koopman, Anna Szabolcsi, 2000 The central idea of Dynamic Antisymmetry is that movement and phrase structure are not independent properties of grammar more specifically that movement is triggered by the geometry of phrase structure Assuming a minimalist framework movement is traced back to the necessity for natural language to organize words in linear order at the interface with the perceptual articulatory module Andrea Moro uses this innovative perspective to analyze several empirical domains focusing on small clauses split wh movement and clitic constructions In a final speculative chapter he examines the general consequences for the design of grammar implied by Dynamic Antisymmetry The book is self contained with a synopsis of current theories of movement and a synthetic presentation of the theory of antisymmetry An appendix presents the essentials of a unified theory of copular sentences which plays a central role in the argument and has several important consequences for syntax for example for expletives and locality Linguistic Inquiry Monograph No 38

Clitics Between Syntax and Lexicon Birgit Gerlach, 2002-01-01 As a typical interface phenomenon clitics have become increasingly important in linguistic theory during the last decade The present book contributes to the recent discussion and first provides a comprehensive overview of clitic sequencing clitic placement and clitic doubling in the major Romance languages In addition new data from a northern Italian dialect are introduced The author then gives a critical summary of the current morphological analyses of clitic phenomena She also discusses recent Optimality theoretical analyses of clitic combinations and clitic placement and shows how these analyses can be improved upon when we also consider a morphological treatment of clitics This book provides innovative solutions to clitic phenomena within the framework of a constraint based morphological theory and will be of interest not only to morphologists syntacticians and those working on the grammar of Romance languages but also to linguists who are interested in the organisation of the grammar and the lexicon

Clitics in Phonology, Morphology and Syntax Birgit

Gerlach, Janet Grijzenhout, 2001-02-01 This book contains fourteen articles that reflect current ideas on the phonology morphology and syntax of clitics It covers the forms and functions of clitics in various typologically diverse languages and presents data from e g European Portuguese Macedonian and Yoruba It extensively deals with the prosodic structure of clitics their morphological status clitic placement and clitic doubling The form and behavior of clitics with respect to tonal phenomena and in verse are discussed in two articles Akinlabi Liberman Reindl Franks Other articles address the prosodic representation of clitics in Irish Green the differences in the acquisition of clitics and strong pronouns in Catalan Escobar Gavarro the similarities between clitics and affixes or words in Romance and Bantu languages Cocchi Crysman Monachesi Ortman Popescu the semantics of clitics in the Greek DP and in Spanish doubling Alexiadou Stavrou Uriagereka and complex problems concerning verbal clitics in Romanian and Balkan languages Legendre Spencer Tomic **Adjectives** Patricia

Cabredo Hoffher, Ora Matushansky, 2010 Adjectives are comparatively less well studied than the lexical categories of nouns and verbs The present volume brings together studies in the syntax and semantics of adjectives Four of the contributions investigate the syntax of adjectives in a variety of languages English French Mandarin Chinese Modern Hebrew Russian Spanish and Serbocroatian The theoretical issues explored include the syntax of attributive and predicative adjectives the syntax of nominalized adjectives and the identification of adjectives as a distinct lexical category in Mandarin Chinese A further four contributions examine different aspects in the semantics of adjectives in English French and Spanish dealing with superlatives comparatives and aspect in adjectives This volume will be of interest to researchers and students in syntax formal semantics and language typology Semi-lexical Categories Norbert Corver, Henk van Riemsdijk, 2013-05-22 The

distinction between functional categories and lexical categories is at the heart of present day grammatical theory in theories on language acquisition code switching and aphasia At the same time it has become clear however that there are many lexical items for which it is less easy to decide whether they side with the lexical categories or the functional ones This book deals with the grammatical behavior of such in between categories which are referred to here as semi lexical categories

The Blackwell Companion to Syntax Martin Everaert, Henk Van Riemsdijk, 2008-04-15 Pre Order The Wiley Blackwell Companion to Syntax second edition publishing December 2017 Find out more at www.companiontosyntax.com This long awaited reference work marks the culmination of numerous years of research and international collaboration by the world's leading syntacticians There exists no other comparable collection of research that documents the development of syntax in this way Under the editorial direction of Martin Everaert and Henk van Riemsdijk this 5 volume set comprises 70 case studies commissioned specifically for this volume The 80 contributors are drawn from an international group of prestigious linguists including Joe Emonds Sandra Chung Susan Rothstein Adriana Belletti Jim Huang Howard Lasnik and Marcel den Dikken among many others A unique collection of 70 newly commissioned case studies offering access to research completed over the last 40 years Brings together the world's leading syntacticians to provide a large and diverse number of case studies

in the field Explores a comprehensive range of syntax topics from an historical perspective Investigates empirical domains which have been well documented and which have played a prominent role in theoretical syntax at some stage in the development of generative grammar Serves as a research tool for not only theoretical linguistics but also the various forms of applied linguistics Contains an accessible alphabetical structure with an index integral to each volume featuring keywords and key figures Each multi volume set is also accompanied by a CD Rom of the entire Companion Like the prestigious Blackwell Handbooks in Linguistics series this multi volume work in the new The Wiley Blackwell Companions to Linguistics series can be relied upon to deliver the quality and expertise with which Blackwell Publishing's linguistics list is associated

Morphology-Driven Syntax Bernhard Wolfgang Rohrbacher, 1999-06-15 This book argues that syntactic parameters are set in a principled fashion on the basis of overt functional morphology The main focus of the book is on the different positions of the finite verb in the Germanic SVO languages In addition other syntactic phenomena null subjects transitive expletive constructions and object shift and other language families Romance Semitic and Slavic are discussed A common explanation for all of the discussed phenomena is proposed If and only if the features for person are distinctively marked by the agreement morphology the agreement affixes are listed separately in the lexicon and project phrases of their own in syntax where they attract the verb to the head positions and allow the specifier positions to be filled by various phonologically un realized elements Special attention is given to issues of historical development and child language acquisition *Studies in Comparative Germanic Syntax* C. Jan-Wouter Zwart, Werner Abraham, 2002 This volume presents a collection of articles reporting on new research carried out within the theoretical framework of generative grammar on the comparative syntax of the Germanic languages Divided in four main sections the book focuses on issues of subordination and complementation with emphasis on German Dutch and Danish displacement phenomena discussed in relation with richness of morphology with special attention to English German Dutch and Norwegian as well as presenting more general discussion of the issue language variation and change studying historical English syntax and Frisian contact dialects and the syntax semantics interface viewed from a Germanic perspective addressing ellipsis reflexivity and the behavior of quantifiers

Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can

enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences Books

1. Where can I buy Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences audiobooks, and where can I find

them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Syntactic Phrase Structure Phenomena In Noun Phrases And Sentences books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
