The Christian Understanding Of History

Kenneth Scott Latourette

The Christian Understanding Of History:

The Christian Understanding of History Eric Charles Rust, 2002 Short description The conception of world history is rooted in Christianity The Christian faith proclaims God's special revelation through His Son as the key to historical meaning How does this Salvation History relate to the complex events of our historical existence *The Christian Understanding of History* Kenneth Scott Latourette, 1949* History and the Christian Historian Ronald Wells, 1998-09-17 This volume arises out of special concerns of historians who are also Christians What case can be made for connecting historical work and religious convictions What is the relation of faith to history What difference could Christian perspectives make in historical study Thirteen respected scholars including some who have changed the face of history writing in the twentieth century here take up a diversity of subjects in giving a provisional answer to these important questions In exploring foundational issues of perspective and theory engaging discrete themes such as feminism puritanism and missiology and discussing the application of religious insights in teaching history this excellent collection of essays forthrightly addresses the epistemological crisis brought on by the postmodern critique of truth and demonstrates the positive implications of a Christian perspective for the study of history and historiography **God, Hope, and History** A. J. Conyers, 1988 *History and Christian Faith* Edward W. H. Vick, 2003 A basic Christian claim is that God is active in human history to accomplish his purpose which he will do in the end This book considers some of the implications of this far reaching claim Christian faith is bound up with our personal history but beyond that stretches far into the past Faith is not identical with historical knowledge for example with knowledge of the facts about Jesus facts which must be established historically That involves using the historian's methods of investigation What does God reveals himself in history mean Christians claim to find an ultimate meaning in history But how can that be How is it possible to find an overall meaning in history theistic or otherwise Since Christians appeal to the New Testament in making the claim that God revealed himself in Jesus we must go beyond that book to the Christian community which existed before there was a New Testament and out of whose midst its writings came To understand those books we must interpret So where do our principles of interpretation come from and how valid are they This is the question of tradition This small book is an introduction to these interesting topics Hopefully it will help to clarify important issues and lead the reader to investigate such central matters further Reformed Evangelicalism and the Search for a Usable Past Ian Hugh Clary, 2020-09-07 The question of how theology shapes a Christian historian's reading of the past has been debated thoroughly in various academic periodicals Should historians recognise the role of providence in their accounts of past events Should they sympathise with their subject's theology Can objectivity be lost due to theological bias And last but not least is there a compromise of faith if one writes natural instead of supernatural history Such questions are important for understanding the historian's profession Arnold Dallimore who trained and specialised in pastoral ministry in Canada wrote an influential biography of the revivalist George Whitefield as well as others on Charles and Susanna Wesley Edward Irving

and Charles Spurgeon How did his Reformed theological perspective impact his historiography How does his work fit into larger historiographical debates concerning the nature of Christian history While other books look at Christian historiography using abstract and methodological approaches this book examines the subject precisely by looking at the life and work of an individual historian It does so by placing Dallimore in the context of being a minister in twentieth century Canada as well as his role in the development of Reformed Theology in the Anglosphere It also examines the quality of his various biographies focusing on key issues such as the nature of religious revival the problem of Christianity and slavery and the question of charismatic religious experience His study concludes by examining the relationship between the discipline and profession of church history and asking what is required for one to be considered a church historian *God, History, and Historians* C. T. McIntire, 1977 Twenty leaders of contemporary Christian thought probe basic issues of theology social change and historiography The Christian Understanding of History Albert T. Mollegen, 1948 **Christian History** Diarmaid McCulloch, 2012 First published in 1987 the *Groundwork of Christian History* has been a primer for theological college students undergraduates lay readers and all interested in the history and development of Christian history Now published in a new and attractive edition with an updated bibliography the author still manages to argue his case convincingly that history need not be boring He takes his readers from the earliest days of the fledgling Christian Church to the end of the twentieth century and enables readers to put characters movements and places in their wider context and make connections between them Diarmaid McCulloch is Professor of the History of the Church at the University of Oxford

General History of the Christian Religion and Church August Neander, 1872 **Man in Revolt** Emil Brunner, 2002 In the struggle of ideas the most fundamental and far reaching is that of the nature of mankind What are we Why are we not at peace with ourselves or our neighbours How does our understanding of our nature lead to personal and social well being We have followed the false leads of Darwin Nietzsche Marx and Freud in trying to understand ourselves Despite other differences they all interpret man in relation to nature rejecting transcendent metaphysical or religious understanding of the human condition They do not solve the contradiction between what we are and what we ought to be Brunner sees the human contradiction as comprehensible only in terms of a God to whose word we must respond This is not communication by language it refers to the fundamental character of personal relations People are persons in so far as they can freely say to each other what they think and feel This communication is possible in so far as we recognise that God speaks to us and respond to Him Brunner sees responsibility as the key to personality The Biblical doctrine of man created in the image of God and capable of responding to God's Word is the key to recovering an effective sense of responsibility With profound penetration and power Brunner applies his thesis to such vexed questions as individuality and community character relations between man and woman relations between soul and body *Man in Revolt* explains our frustration and confusion about ourselves and why the Christian view of man of his place in nature and history is the truth which man both needs and seeks

in the search for himself **Development of the Idea of History in Antiquity** Gerald A. Press, 2003-09-10 An extensive scholarly literature written in the past century holds that in ancient Greek and Roman thought history is understood as circular and repetitive a consequence of their anti temporal metaphysics in contrast with Judaeo Christian thought which sees history as linear and unique a consequence of their messianic and hence radically temporal theology Gerald Press presents a more general view that the Graeco Roman and Judaeo Christian cultures were fundamentally alien and opposed cultural forces and that therefore Christianity's victory over paganism included the replacement or supersession of one intellectual world by another and then shows that contrary to this view there was substantial continuity between pagan and Christian ideas of history in antiquity rather than a striking opposition between cyclic and linear patterns He finds that the foundation of the Christian view of history as goal directed lies in the rhetorical rather than the theological motives of early Christian writers **The Shape of Christian History** Scott W. Sunquist, 2022-06-28 How should thoughtful Christians especially historians and missiologists make sense of global Christianity as an unfolding historical movement Highlighting both the continuity and the diversity within the Christian movement over the centuries this comprehensive resource from Scott Sunquist offers a framework for how to read and write church history *Streams of Civilization* Christian Libery Press, Garry J. Moes, 1999-05-03 This world history text provides a comprehensive overview of modern history 1600s 2000 from a Christian perspective Each chapter includes a timeline listing of key terms recommended projects and comprehension questions It is beautifully illustrated and contains numerous high quality two color maps Grade 10 **The Meaning and Matter of History** Martin Cyril D'Arcy, 1959 Congress of Arts and Science: History of politics and economics. History of law. History of religion Howard Jason Rogers, 1906 Turning Points Mark A. Noll, 2012-07-01 In this popular introduction to church history now in its third edition Mark Noll isolates key events that provide a framework for understanding the history of Christianity The book presents Christianity as a worldwide phenomenon rather than just a Western experience Now organized around fourteen key moments in church history this well received text provides contemporary Christians with a fuller understanding of God as he has revealed his purpose through the centuries This new edition includes a new preface updates throughout the book revised further readings for each chapter and two new chapters including one spotlighting Vatican II and Lausanne as turning points of the recent past Students in academic settings and church adult education contexts will benefit from this one semester survey of Christian history **The Meaning of History** Ronald H. Nash, 1998 The Meaning of History is a concise look at the meaning of the history of the world from the viewpoints of major historians and philosophers By examining the individual approaches of these great thinkers this book takes on the monumental task of analyzing the history of humanity and its prospects for the future The book studies not just the facts of history but the personality and purpose of the vastly influential figures who shaped it Is history constantly repeating itself or is civilization evolving toward a predestined utopia Is history in God's hands or does it depend on the whims of man This informative book

traces the arc of civilization from the New Testament all the way through to today It will forever change the way you look at history and your individual place in it **One Nation Under God?** John D. Wilsey, 2011-06-01 Is America a Christian nation This question has loomed large in American culture since the Puritans arrived on American shores in the early seventeenth century More recently the Christian America thesis has been advocated by many evangelical leaders across the denominational spectrum This book contributes to the conversation by critiquing from an evangelical perspective the idea that America is a Christian nation as articulated by specific writers over the past three decades Wilsey asserts that the United States was not conceived as a Christian nation but as a nation with religious liberty Herein lies the genius of the Founders and the uniqueness of America **The Christian View of God and the World as Centring in the Incarnation** James Orr, 1907
