Henry Cornelius Klassen

Sir Robert Peels Administration 1841 1846:

Sir Robert Peel's Administration, 1841-1846 Travis L. Crosby, 1976 **Peel and the Conservative Party 1830-1850** Paul Adelman, 2014-09-25 Sir Robert Peel dominated political life for more than two decades and has been described as the founder of modern conservatism This book analyzes the career of Sir Robert Peel in relation to the development of the Conservative Party in the early 19th century It discusses Peel's conception of Conservatism and his work as Prime Minister **Handbook of the Administrations of Great Britain During the Nineteenth Century, 1801-1900** Francis Culling Carr-Gomm, 1901 Handbook of the Administrations of Great Britain during the nineteenth century. 1801-1869 afterwards CARR-GOMM CARR (Francis Culling), 1869 *Reader's Guide to British History* David Loades, 2020-12-17 The Reader's Guide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6-12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication **Handbook of the Administrations of Great Britain During the Nineteenth Century, 1801-1869** Francis Culling Carr-Gomm, 1869 **Giuseppe Mazzini and the Globalization of Democratic Nationalism, 1830-1920** C. A. Bayly, E. F. Biagini, 2008-08-11 Giuseppe Mazzini Italian patriot humanist and republican was one of the most celebrated and revered political activists and thinkers of the 19th century This volume is the first to show how his thought and image were received and transformed across Europe the Americas and India *Life of Lord Palmerston*, 1865 Communities of Science in Nineteenth-Century Ireland Juliana Adelman, 2016-09-12 The nineteenth century was an important period for both the proliferation of popular science and for the demarcation of a group of professionals that we now term scientists Of course for Ireland largely in contrast to the rest of Britain the prominence of Catholicism posed various philosophical questions regarding research Adelman's study examines the practical educational impact of the growth of science in these communities and the impact of this on the country's economy the role of museums and exhibitions in spreading scientific knowledge and the role that science had to play in Ireland's turbulent political context Adelman challenges historians to reassess the relationship between science and society showing that the unique situation in Victorian Ireland can nonetheless have important implications for wider European interpretations of the development of this relationship during a period of significant change Peel, Priests, and Politics Donal A. Kerr, 1982 **The Illustrated London Almanack**, 1881 **The Living Age**, 1878 *Littell's Living Age*, 1878 *Thomas Davis and Ireland* Helen F. Mulvey, 2003 His first biography written by his friend and collaborator Duffy was published in 1890 and is an invaluable source for Davis's life and his part in the Irish nationalist struggle Duffy's work was as well a eulogy presenting Davis in so favorable a light that he seems at times unreal To provide a more thorough objective portrait of Davis historian Helen F

Mulvey here presents a scholarly examination of Davis's life and thoughts **Luther H. Holton** Henry Cornelius Klassen, 2001 From the success of his various business ventures he moved easily into the world of politics Luther Holton was finance minister of the United Province of Canada from 1863 to 1864 leading the battle to reform the finance department and to enhance the province's credit in London England **The Forgotten Prime Minister: The 14th Earl of Derby** Angus Hawkins, 2007-09-13 Lord Derby was the first British statesman to become prime minister three times He remains the longest serving party leader in modern British politics heading the Conservative party for twenty two years from 1846 to 1868 He abolished slavery in the British Empire established a national system of education in Ireland was a prominent advocate for the 1832 Reform Act and as prime minister oversaw the introduction of the Second Reform Act in 1867 Yet no biography of Derby based upon his papers and correspondence has previously been published Alone of all Britain's premiers Derby has never received a full scholarly study examining his policies personality and beliefs Largely airbrushed out of our received view of Victorian politics Derby has become the forgotten prime minister This ground breaking biography based upon Derby's own papers and extensive archive as well as recently discovered sources fills this striking gap It completely revises the conventional portrait of Derby as a dull and apathetic politician revealing him as a complex astute influential and significant figure who had a profound effect on the politics and society of his time As Hawkins shows far from being an uninterested dilettante Derby played an instrumental role in directing Britain's path through the historic opportunities and challenges confronting the nation at a time of increasing political participation industrial pre eminence urban growth colonial expansion religious controversy and Irish tragedy This book is likely not only to change our view of Derby himself but also fundamentally to affect our understanding of nineteenth century British party politics the history of the Conservative party and the nature of public life in the Victorian age in general including some of its foremost figures such as Robert Peel Lord John Russell Lord Palmerston William Gladstone and Benjamin Disraeli Volume I takes the reader through Derby's early years including his role in the 1832 Reform Act the abolition of slavery and the troubled years of the 1840s through to the eve of his appointment as prime minister in the early 1850s **The Rise of Free Trade** Cheryl Schonhardt-Bailey, 1997 Why was Britain the first country to opt for unilateral free trade 150 years ago On 16 May 1846 the House of Commons voted to abolish tariff protection for agriculture the famous repeal of the Corn Laws Britain then adhered to her free trade policy despite both her relative economic decline and the protectionist policies of her leading trade rivals the USA and Germany This four volume set examines and explains the contentious issues surrounding the policy shift to free trade and the subsequent persistence of that policy This set provides a comprehensive collection of articles including previously unpublished material on nineteenth century British trade policy and a new and comprehensive introduction by the editor putting the material into context *English History for Americans* Thomas Wentworth Higginson, Edward Channing, 1893 *The British Empire* Mark Doyle, 2018-06-29 An essential starting point for anyone wanting to learn about life in the

largest empire in history this two volume work encapsulates the imperial experience from the 16th 21st centuries From early sixteenth century explorations to the handover of Hong Kong in 1997 the British Empire controlled outposts on every continent spreading its people and ideas across the globe and profiting mightily in the process The present state of our world from its increasing interconnectedness to its vast inequalities and from the successful democracies of North America to the troubled regimes of Africa and the Middle East can be traced in large part to the way in which Great Britain expanded and controlled its empire The British Empire A Historical Encyclopedia addresses a broader range of topics than do most other surveys of the empire covering not only major political and military developments but also topics that have only recently come to serious scholarly attention such as women s and gender history art and architecture indigenous histories and perspectives and the construction of colonial knowledge and ideologies By going beyond the headline events of the British Empire this captivating work communicates the British imperial experience in its totality **1848** John Saville,1990-08-31 A study of the British state s confrontation with Chartism and Irish nationalism in 1848
