## **Sister Maria Celeste's Letters To Her Father Galileo:**

**To Father** Maria Celeste Galilei, 2001 The story of Galileo's daughter Sister Maria Celeste as told through her letters to her father A companion to the bestselling Galileo's Daughter the letters are edited and introduced by Dava Sobel     **Letters to Father** Maria Galilei, 2001-11-01 An elegant collection of letters written by Virginia Galilei the elder daughter of Galileo to her father after she was placed in a convent in Florence and took the name Suor Maria Celeste captures the events of the time and brings to life the tender inspiring relationship between Galileo and his daughter     To Father Dava Sobel, 2005-05 Galileo's daughter was her father's greatest source of strength during his most difficult time Galileo was at the heart of the most dramatic collision between science the 30 Years War embroiled Europe the bubonic plague erupted a new philosophy of science threatened to overturn the order of the universe Her evocative letters touch on all of these situations but they dwell in the details of everyday life     **Sister Maria Celeste's Letters to Her Father, Galileo** Maria Celeste Galilei, 2000 Sister Maria Celeste was Galileo's illegitimate daughter even so the two corresponded regularly and intimately and their relationship has been undervalued for far too long Rinaldina Russell a professor of Italian language literature and culture sought to correct that oversight In her translation of Maria Celeste's letters in her information packed introduction and in her detailed notes you will learn details about Galileo's domestic life and his place in Florentine middle class society secrets lurking behind a tense father daughter relationship played against the lively backdrop of Maria Celeste's enclosure in a Florentine convent ways Galileo tried to lessen the negative effect that his trial might have among relatives and supporters Several letters are short and deal with domestic transactions such as the exchange of food the repairing of household objects the running of Galileo's home and the accounting of expenses and requests for money Although they might seem mundane these letters together with the lengthier and the very confidential ones draw a riveting landscape of the world in which Galileo lived and reveal the complicated relationship he had with Maria Celeste     **Letters to Father** Maria Celeste Galilei, Dava Sobel, 2001     The Private Life of Galileo Galileo Galilei, 1870     **The Complete Poems** Gaspara Stampa, 2010-10-30 Gaspara Stampa was lauded for her singing during her lifetime but her success and critical reputation as a poet emerged only after her verse was republished in the early eighteenth century Her poetry runs the gamut of human emotion ranging from ecstasy over a consummated love affair to despair at its end While these tormented works and their multiple male addressees have led to speculation that Stampa may have been one of Venice's famous courtesans they can also be read as a rebuttal of typical assumptions about women's roles Championed by Rainer Maria Rilke among others she has more recently been celebrated by feminist scholars for her distinctive and original voice and her challenge to convention This is a translation of Stampa into English     Debate of the Romance of the Rose David F. Hult, 2010-04-15 In 1401 Christine de Pizan 1365-1430 wrote a letter to the provost of Lille criticizing the highly popular Romance of the Rose for its unwarranted misogynistic depictions of women Here Hult collects debate documents letters and excerpts from other works of

Pizan including one from City of Ladies a her major defense of women

**Meditations on the Incarnation, Passion, and Death of Jesus Christ** Catharina Regina von Greiffenberg, 2010-04-15 Read by Protestants and Catholics alike Catharina Regina von Greiffenberg 1633-94 was the foremost German woman poet and writer in the seventeenth century German speaking world Privileged by her social station and education she published a large body of religious writings under her own name to a reception unequalled by any other German woman during her lifetime But once the popularity of devotional writings as a genre waned Catharina's works went largely unread until scholars devoted renewed attention to them in the twentieth century For this volume Lynne Tatlock translates for the first time into English three of the thirty-six meditations restoring Catharina to her rightful place in print These meditations foreground women in the life of Jesus Christ including accounts of women at the Incarnation and the Tomb and in Scripture in general Tatlock's selections give the modern reader a sense of the structure and nature of Catharina's devotional writings highlighting the alternative they offer to the male centered view of early modern literary and cultural production during her day and redefining the role of women in Christian history

**Selected Letters, Orations, and Rhetorical Dialogues** Madeleine de Scudéry, 2007-11-01 Madeleine de Scudéry 1607-1701 was the most popular novelist in her time read in French in volume installments all over Europe and translated into English German Italian and even Arabic But she was also a charismatic figure in French salon culture a woman who supported herself through her writing and defended women's education She was the first woman to be honored by the French Academy and she earned a pension from Louis XIV for her writing Selected Letters Orations and Rhetorical Dialogues is a careful selection of Scudéry's shorter writings emphasizing her abilities as a rhetorical theorist orator essayist and letter writer It provides the first English translations of some of Scudéry's Amorous Letters only recently identified as her work as well as selections from her Famous Women or Heroic Speeches and her series of Conversations The book will be of great interest to scholars of the history of rhetoric French literature and women's studies

*Selected Writings of an Eighteenth-Century Venetian Woman of Letters* Elisabetta Caminer Turra, 2007-11-01 Elisabetta Caminer Turra 1751-96 was one of the most prominent women in eighteenth century Italy and a central figure in the international Republic of Letters A journalist and publisher Caminer participated in important debates on capital punishment freedom of the press and the abuse of clerical power She also helped spread Enlightenment ideas into Italy by promoting and publishing Voltaire's latest works and translating new European plays plays she herself directed to great applause on Venetian stages Bringing together Caminer's letters poems and journalistic writings nearly all published for the first time here Selected Writings offers readers an intellectual biography of this remarkable figure as well as a glimpse into her intimate correspondence with the most prominent thinkers of her day But more important Selected Writings provides insight into the passion that animated Caminer's fervent reflections on the complex and shifting condition of women in her society the same passion that pushed her to succeed in the male dominated literary professions

Great Astronomers Robert S. Ball, 2019-11-20 In Great Astronomers

Robert S Ball crafts a compelling narrative that chronicles the lives and contributions of the most notable astronomers throughout history. This work elegantly merges engaging biographical sketches with an analysis of their seminal discoveries, reflecting on how their relentless curiosity shaped our understanding of the cosmos. Ball's literary style is rich yet accessible, infusing scientific rigor with a narrative flair that makes complex ideas digestible for lay readers. Set against the backdrop of the scientific revolution, this book situates each astronomer's achievements within the broader context of the period, capturing the excitement and struggle of pioneering astronomical pursuits. Robert S Ball was a distinguished astronomer in his own right, and his deep involvement with the Royal Observatory significantly informs this text. His firsthand experience in the scientific community and his extensive knowledge of the history of astronomy allow him to provide unique insights into the motivations and challenges faced by these great thinkers. As a dedicated educator and author, Ball's passion for astronomy permeates his writing, imparting both respect and admiration for the figures who laid the groundwork for modern astronomical inquiry. I highly recommend *Great Astronomers* to anyone fascinated by the marvels of the universe and the intellectual giants who sought to understand it. Whether you are a student of astronomy, a history buff, or simply a curious reader, Ball's work offers not only a tribute to these visionaries but also an invitation to explore the stars with renewed wonder and appreciation.

**Galileo for Kids** Richard Panchyk, Buzz Aldrin, 2005-07-01 Galileo, one of history's best known scientists, is introduced in this illuminating activity book. Children will learn how Galileo's revolutionary discoveries and sometimes controversial theories changed his world and laid the groundwork for modern astronomy and physics. This book will inspire kids to be stargazers and future astronauts or scientists as they discover Galileo's life and work. Activities allow children to try some of his theories on their own with experiments that include playing with gravity and motion, making a pendulum, observing the moon, and painting with light and shadow. Along with the scientific aspects of Galileo's life, his passion for music and art are discussed and exemplified by period engravings, maps, and prints. A time line, glossary, and listings of major science museums, planetariums, and web sites for further exploration complement this activity book.

**Retrying Galileo, 1633-1992** Maurice A. Finocchiaro, 2007-10-17 This is must reading for historians of science and a delight for the interested public. From his access to many primary sources in the Vatican Library and from his broad knowledge of the history of the 17th century, Finocchiaro acquaints readers in an interesting manner with the historical facts of Galileo's trial, its aftermath, and its repercussions. Unlike many other works which present predetermined and at times prejudiced judgments, this work provides exhaustive evidence to allow readers to develop their own informed opinion on the subject. George V. Coyne, Director, Vatican Astronomical Observatory: The tragic condemnation of Galileo by the Roman Catholic Church in 1633 has become the single most potent symbol of authoritarian opposition to new ideas. Pioneering in its scope, Finocchiaro's book provides a fascinating account of how the trial and its cultural significance have been freshly reconstructed by scholars and polemicists down the ages. With a philosopher's eye for fine distinctions, the author has written

an exciting commentary on the successive appearance of new primary sources and their exploitation for apologetic and secular purposes John Hedley Brooke author of *Science and Religion Some Historical Perspectives* If good history begins with good facts then Retrying Galileo should be the starting point for all future discussions of the post trial phase of the Galileo affair Maurice Finocchiaro's myth busting documentary history is not only a repository of little known sources but a pleasure to read as well Ronald L Numbers co editor of *When Christianity and Science Meet* Retrying Galileo tells the less well known half of the Galileo affair its long and complex history after 1633 Finocchiaro has performed an invaluable service in writing a book that explores how the trial and condemnation of Galileo has been received debated and reinterpreted for over three and a half centuries We are not yet done with this contentious story Paula E Findlen Ubaldo Pierotti Professor of Italian History and Director of the Science Technology and Society Program Stanford University

**A Woman Who Defends All the Persons of Her Sex** Gabrielle Suchon, 2010-05-15 During the oppressive reign of Louis XIV Gabrielle Suchon 1632-1703 was the most forceful female voice in France advocating women's freedom and self determination access to knowledge and assertion of authority This volume collects Suchon's writing from two works *Treatise on Ethics and Politics* 1693 and *On the Celibate Life Freely Chosen or Life without Commitments* 1700 and demonstrates her to be an original philosophical and moral thinker and writer Suchon argues that both women and men have inherently similar intellectual corporeal and spiritual capacities which entitle them equally to essentially human prerogatives and she displays her breadth of knowledge as she harnesses evidence from biblical classical patristic and contemporary secular sources to bolster her claim Forgotten over the centuries these writings have been gaining increasing attention from feminist historians students of philosophy and scholars of seventeenth century French literature and culture This translation from Domna C Stanton and Rebecca M Wilkin marks the first time these works will appear in English

**Great Astronomers** Robert Stawell Ball, 2024-11-24 AMONG the ranks of the great astronomers it would be difficult to find one whose life presents more interesting features and remarkable vicissitudes than does that of Galileo We may consider him as the patient investigator and brilliant discoverer We may consider him in his private relations especially to his daughter Sister Maria Celeste a woman of very remarkable character and we have also the pathetic drama at the close of Galileo's life when the philosopher drew down upon himself the thunders of the Inquisition The materials for the sketch of this astonishing man are sufficiently abundant We make special use in this place of those charming letters which his daughter wrote to him from her convent home More than a hundred of these have been preserved and it may well be doubted whether any more beautiful and touching series of letters addressed to a parent by a dearly loved child have ever been written An admirable account of this correspondence is contained in a little book entitled *The Private Life of Galileo* published anonymously by Messrs Macmillan in 1870 and I have been much indebted to the author of that volume for many of the facts contained in this chapter Galileo was born at Pisa on 18th February 1564 He was the eldest son of Vincenzo de Bonajuti de Galilei a Florentine noble

Notwithstanding his illustrious birth and descent it would seem that the home in which the great philosopher's childhood was spent was an impoverished one. It was obvious at least that the young Galileo would have to be provided with some profession by which he might earn a livelihood. From his father he derived both by inheritance and by precept a keen taste for music and it appears that he became an excellent performer on the lute. He was also endowed with considerable artistic power which he cultivated diligently. Indeed it would seem that for some time the future astronomer entertained the idea of devoting himself to painting as a profession. His father however decided that he should study medicine. Accordingly we find that when Galileo was seventeen years of age and had added a knowledge of Greek and Latin to his acquaintance with the fine arts he was duly entered at the University of Pisa. AMONG the ranks of the great astronomers it would be difficult to find one whose life presents more interesting features and remarkable vicissitudes than does that of Galileo. We may consider him as the patient investigator and brilliant discoverer. We may consider him in his private relations especially to his daughter Sister Maria Celeste a woman of very remarkable character and we have also the pathetic drama at the close of Galileo's life when the philosopher drew down upon himself the thunders of the Inquisition. The materials for the sketch of this astonishing man are sufficiently abundant. We make special use in this place of those charming letters which his daughter wrote to him from her convent home. More than a hundred of these have been preserved and it may well be doubted whether any more beautiful and touching series of letters addressed to a parent by a dearly loved child have ever been written. An admirable account of this correspondence is contained in a little book entitled *The Private Life of Galileo* published anonymously by Messrs Macmillan in 1870 and I have been much indebted to the author of that volume for many of the facts contained in this chapter.

**The Atlantic Monthly**, 1870      **Enrico; or, Byzantium Conquered** Lucrezia Marinella, 2009-09-15

Lucrezia Marinella 1571-1653 is by all accounts a phenomenon in early modernity a woman who wrote and published in many genres whose fame shone brightly within and outside her native Venice and whose voice is simultaneously original and reflective of her time and culture. In *Enrico or Byzantium Conquered* one of the most ambitious and rewarding of her numerous narrative works Marinella demonstrates her skill as an epic poet. Now available for the first time in English translation Enrico retells the story of the conquest of Byzantium in the Fourth Crusade 1202-04. Marinella intersperses historical events in her account of the invasion with numerous invented episodes drawing on the rich imaginative legacy of the chivalric romance. Fast moving colorful and narrated with the zest that characterizes Marinella's other works this poem is a great example of a woman engaging critically with a quintessentially masculine form and subject matter writing in a genre in which the work of women poets was typically shunned.

**Atlantic Monthly**, 1870      Galileo Jr. James Reston, 2005

A suspenseful narrative and spiritive rendition of the life of Galileo
