*Cultural Studies* ,2016-09-12 This volume claims that interdisciplinarity and translation constitute the two main challenges for cultural studies today These conceptual issues inter and trans express themselves within specific historical and cultural contexts Interdisciplinarity is linked with the ongoing process of the institutionalisation of cultural studies in national academies but also increasingly internationally comparatively and to a certain extent even globally cf cultural

studies of global culture Translation concerns cultural studies both as an object or product and as a subject or producer of translation processes Cultural studies is the result of translation translates and is being translated The essays in this volume therefore relate these various ongoing cultural linguistic and institutional translation processes to political and ethical issues of internationalisation and globalisation The contributions draw their originality and strength from strategically crossing disciplinary and national boundaries They deliberately ignore the question of what may be proper to cultural studies and instead problematise the notions of propriety and belonging As a reading practice cultural studies in these pages is performed through adaptations and combinations of theory and critical practice The volume should be of interest to everyone concerned with cultural studies role in promoting intellectual debate within an increasingly international and globalised public sphere
